**STANDARD PURCHASE ORDER
TERMS AND CONDITIONS – ELECTRONIC PURCHASE ORDER**

1. TERM OF PURCHASE ORDER

The term of the Contract created by the issuance of the Purchase Order shall commence on the Issue Date printed on the Purchase Order after the Purchase Order has been fully executed by the Commonwealth (signed and approved as required by Commonwealth contracting procedures and sent to the Contractor). If the Purchase Order output form does not have “Fully Executed” at the top of the first page, does not have a printed date in the “Issue Date” box and does not have the name of the Purchasing Agent printed in the appropriate box, the Purchase Order has not been fully executed. Subject to the other provisions of the Contract, the Contract shall end on the later of: a) complete delivery and acceptance of the awarded item(s); b) the expiration of any specified warranty and maintenance period; c) payment by the Commonwealth for the item(s) received; or d) any Expiration Date identified in the Purchase Order.

2. EXTENSION OF CONTRACT TERM

The Commonwealth reserves the right, upon notice to the Contractor, to extend the term of the Contract for up to three (3) months upon the same terms and conditions.

3. SIGNATURES

The Contract shall not be a legally binding contract until the fully-executed Purchase Order has been sent to the Contractor. No Commonwealth employee has the authority to verbally direct the commencement of any work or delivery of any supply under this Purchase Order prior to the Issue Date. The Contractor hereby waives any claim or cause of action for any service or work performed prior to the Issue Date.

The Purchase Order will not include an "ink" signature by the Commonwealth. The electronically-printed name of the Purchasing Agent represents the signature of that individual who has the authority, on behalf of the Commonwealth, to bind the Commonwealth to the terms of the Contract. If the Purchase Order output form does not have “Fully Executed” at the top of the first page and does not have the name of the Purchasing Agent printed in the appropriate box, the Contract has not been fully executed.

The fully-executed Purchase Order may be sent to the Contractor electronically or through facsimile equipment. The electronic transmission of a Purchase Order shall require acknowledgement of receipt of the transmission by the Contractor. Receipt of the electronic or facsimile transmission of the Purchase Order shall constitute receipt of the fully-executed Purchase Order.

The Commonwealth and the Contractor specifically agree as follows:

- a. No handwritten signature shall be required in order for the Purchase Order to be legally enforceable.
- b. The parties agree that no writing shall be required in order to make the Purchase Order legally binding, notwithstanding contrary requirements in any law. The parties hereby

agree not to contest the validity or enforceability of a genuine Purchase Order or acknowledgement issued electronically under the provisions of a statute of frauds or any other applicable law relating to whether certain agreements be in writing and signed by the party bound thereby. Any genuine Purchase Order or acknowledgement issued electronically, if introduced as evidence on paper in any judicial, arbitration, mediation, or administrative proceedings, will be admissible as between the parties to the same extent and under the same conditions as other business records originated and maintained in documentary form. Neither party shall contest the admissibility of copies of a genuine Purchase Order or acknowledgements under either the business records exception to the hearsay rule or the best evidence rule on the basis that the Purchase Order or acknowledgement were not in writing or signed by the parties. A Purchase Order or acknowledgment shall be deemed to be genuine for all purposes if it is transmitted to the location designated for such documents.

- c. Each party will immediately take steps to verify any document that appears to be obviously garbled in transmission or improperly formatted to include re-transmission of any such document if necessary.

4. DEFINITIONS

As used in this Contract, these words shall have the following meanings:

- a. Agency: The department, board, commission or other agency of the Commonwealth of Pennsylvania listed as the Purchasing Agency. If a COSTARS entity or external procurement activity has issued an order against this contract, that entity shall also be identified as "Agency".
- b. Contracting Officer: The person authorized to administer this Contract for the Commonwealth and to make written determinations with respect to the Contract.
- c. Days: Unless specifically indicated otherwise, days mean calendar days.
- d. Developed Works or Developed Materials: All documents, sketches, drawings, designs, works, papers, files, reports, computer programs, computer documentation, data, records, software, samples or any other tangible material without limitation authored or prepared by Contractor as the work product covered in the scope of work for the Project.
- e. Documentation: All materials required to support and convey information about the services required by this Contract. It includes, but is not necessarily restricted to, written reports and analyses, diagrams, maps, logical and physical designs, system designs, computer programs, flow charts, disks, and/or other machine-readable storage media.
- f. Services: All Contractor activity necessary to satisfy the Contract.

5. INDEPENDENT CONTRACTOR

In performing its obligations under the Contract, the Contractor will act as an independent contractor and not as an employee or agent of the Commonwealth. The Contractor will be responsible for all services in this Contract whether or not Contractor provides them directly. Further, the Contractor is the sole point of contact with regard to all contractual matters, including payment of any and all charges resulting from the Contract.

6. DELIVERY

- a. **Supplies Delivery:** All item(s) shall be delivered F.O.B. Destination. The Contractor agrees to bear the risk of loss, injury, or destruction of the item(s) ordered prior to receipt of the items by the Commonwealth. Such loss, injury, or destruction shall not release the Contractor from any contractual obligations. Except as otherwise provided in this contract, all item(s) must be delivered within the time period specified. Time is of the essence and, in addition to any other remedies, the Contract is subject to termination for failure to deliver as specified. Unless otherwise stated in this Contract, delivery must be made within thirty (30) days after the Effective Date.
- b. **Delivery of Services:** The Contractor shall proceed with all due diligence in the performance of the services with qualified personnel, in accordance with the completion criteria set forth in the Contract.

7. WARRANTY

The Contractor warrants that all item(s) furnished and all services performed by the Contractor, its agents and subcontractors shall be free and clear of any defects in workmanship or materials. Unless otherwise stated in the Contract, all item(s) are warranted for a period of one year following delivery by the Contractor and acceptance by the Commonwealth. The Contractor shall repair, replace or otherwise correct any problem with the delivered item. When an item is replaced, it shall be replaced with an item of equivalent or superior quality without any additional cost to the Commonwealth.

8. PATENT, COPYRIGHT, AND TRADEMARK INDEMNITY

The Contractor warrants that it is the sole owner or author of, or has entered into a suitable legal agreement concerning either: a) the design of any product or process provided or used in the performance of the Contract which is covered by a patent, copyright, or trademark registration or other right duly authorized by state or federal law or b) any copyrighted matter in any report document or other material provided to the commonwealth under the contract. The Contractor shall defend any suit or proceeding brought against the Commonwealth on account of any alleged patent, copyright or trademark infringement in the United States of any of the products provided or used in the performance of the Contract. This is upon condition that the Commonwealth shall provide prompt notification in writing of such suit or proceeding; full right, authorization and opportunity to conduct the defense thereof; and full information and all reasonable cooperation for the defense of same. As principles of governmental or public law are involved, the Commonwealth may participate in or choose to conduct, in its sole discretion, the defense of any such action. If information and assistance are furnished by the Commonwealth at the Contractor's written request, it shall be at the Contractor's expense, but the responsibility for such expense shall be only that within the Contractor's written authorization. The Contractor shall indemnify and hold the Commonwealth harmless from all damages, costs, and expenses, including attorney's fees that the Contractor or the Commonwealth may pay or incur by reason of any infringement or violation of the rights occurring to any holder of copyright, trademark, or patent interests and rights in any products provided or used in the performance of the Contract. If any of the products provided by the Contractor in such suit or proceeding are held to constitute infringement and the use is enjoined, the Contractor shall, at its own expense and at its option, either procure the right to continue use of such infringement products, replace them with non-infringement equal performance products or modify them so that they are no longer infringing. If

the Contractor is unable to do any of the preceding, the Contractor agrees to remove all the equipment or software which are obtained contemporaneously with the infringing product, or, at the option of the Commonwealth, only those items of equipment or software which are held to be infringing, and to pay the Commonwealth: 1) any amounts paid by the Commonwealth towards the purchase of the product, less straight line depreciation; 2) any license fee paid by the Commonwealth for the use of any software, less an amount for the period of usage; and 3) the pro rata portion of any maintenance fee representing the time remaining in any period of maintenance paid for. The obligations of the Contractor under this paragraph continue without time limit. No costs or expenses shall be incurred for the account of the Contractor without its written consent.

9. OWNERSHIP RIGHTS

The Commonwealth shall have unrestricted authority to reproduce, distribute, and use any submitted report, data, or material, and any software or modifications and any associated documentation that is designed or developed and delivered to the Commonwealth as part of the performance of the Contract.

10. ACCEPTANCE

No item(s) received by the Commonwealth shall be deemed accepted until the Commonwealth has had a reasonable opportunity to inspect the item(s). Any item(s) which is discovered to be defective or fails to conform to the specifications may be rejected upon initial inspection or at any later time if the defects contained in the item(s) or the noncompliance with the specifications were not reasonably ascertainable upon the initial inspection. It shall thereupon become the duty of the Contractor to remove rejected item(s) from the premises without expense to the Commonwealth within fifteen (15) days after notification. Rejected item(s) left longer than fifteen (15) days will be regarded as abandoned, and the Commonwealth shall have the right to dispose of them as its own property and shall retain that portion of the proceeds of any sale which represents the Commonwealth's costs and expenses in regard to the storage and sale of the item(s). Upon notice of rejection, the Contractor shall immediately replace all such rejected item(s) with others conforming to the specifications and which are not defective. If the Contractor fails, neglects or refuses to do so, the Commonwealth shall then have the right to procure a corresponding quantity of such item(s), and deduct from any monies due or that may thereafter become due to the Contractor, the difference between the price stated in the Contract and the cost thereof to the Commonwealth.

11. PRODUCT CONFORMANCE

The Commonwealth reserves the right to require any and all Contractors to:

- a. Provide certified data from laboratory testing performed by the Contractor, or performed by an independent laboratory, as specified by the Commonwealth.
- b. Supply published manufacturer product documentation.
- c. Permit a Commonwealth representative to witness testing at the Contractor's location or at an independent laboratory.
- d. Complete a survey/questionnaire relating to the bid requirements and specifications.
- e. Provide customer references.

- f. Provide a product demonstration at a location near Harrisburg or the using agency location.

12. REJECTED MATERIAL NOT CONSIDERED ABANDONED

The Commonwealth shall have the right to not regard any rejected material as abandoned and to demand that the Contractor remove the rejected material from the premises within thirty (30) days of notification. The Contractor shall be responsible for removal of the rejected material as well as proper clean-up. If the Contractor fails or refuses to remove the rejected material as demanded by the Commonwealth, the Commonwealth may seek payment from, or set-off from any payments due to the Contractor under this or any other Contract with the Commonwealth, the costs of removal and clean-up. This is in addition to all other rights to recover costs incurred by the Commonwealth.

13. COMPLIANCE WITH LAW

The Contractor shall comply with all applicable federal and state laws and regulations and local ordinances in performing its obligations under the Purchase Order.

14. ENVIRONMENTAL PROVISIONS

In the performance of the Contract, the Contractor shall minimize pollution and shall strictly comply with all applicable environmental laws and regulations, including, but not limited to, the Clean Streams Law Act of June 22, 1937 (P.L. 1987, No. 394), as amended 35 P.S. § 691.601 et seq.; the Pennsylvania Solid Waste Management Act, Act of July 7, 1980 (P.L. 380, No. 97), as amended, 35 P.S. § 6018.101 et seq.; and the Dam Safety and Encroachment Act, Act of November 26, 1978 (P.L. 1375, No. 325), as amended, 32 P.S. § 693.1.

15. POST-CONSUMER RECYCLED CONTENT

- a. Except as specifically waived by the Department of General Services in writing, any products which are provided to the Commonwealth as a part of the performance of the Contract must meet the minimum percentage levels for total recycled content as specified on the Department of General Services website at www.dgs.state.pa.us on the date of submission of the bid, proposal or contract offer.
- b. Recycled Content Enforcement: The Contractor may be required, after delivery of the Contract item(s), to provide the Commonwealth with documentary evidence that the item(s) was in fact produced with the required minimum percentage of post-consumer and recovered material content.

16. COMPENSATION

- a. Compensation for Supplies: The Contractor shall be required to furnish the awarded item(s) at the price(s) quoted in the Purchase Order. All item(s) shall be delivered within the time period(s) specified in the Purchase Order. The Contractor shall be compensated only for item(s) that are delivered and accepted by the Commonwealth.
- b. Compensation for Services: The Contractor shall be required to perform the specified services at the price(s) quoted in the Purchase Order. All services shall be performed

within the time period(s) specified in the Purchase Order. The Contractor shall be compensated only for work performed to the satisfaction of the Commonwealth. The Contractor shall not be allowed or paid travel or per diem expenses except as specifically set forth in the Purchase Order.

17. BILLING REQUIREMENTS

Unless the Contractor has been authorized by the Commonwealth for Evaluated Receipt Settlement or Vendor Self-Invoicing, the Contractor shall include in all of its invoices the following minimum information:

- a. Vendor name and "Remit to" address, including SAP Vendor number;
- b. Bank routing information, if ACH;
- c. SAP Purchase Order number;
- d. Delivery Address, including name of Commonwealth agency;
- e. Description of the supplies/services delivered in accordance with SAP Purchase Order (include purchase order line number if possible);
- f. Quantity provided;
- g. Unit price;
- h. Price extension;
- i. Total price; and
- j. Delivery date of supplies or services.

If an invoice does not contain the minimum information set forth in this paragraph, the Commonwealth may return the invoice as improper. If the Commonwealth returns an invoice as improper, the time for processing a payment will be suspended until the Commonwealth receives a correct invoice. The Contractor may not receive payment until the Commonwealth has received a correct invoice.

Contractors are required to establish separate billing accounts with each using agency and invoice them directly. Each invoice shall be itemized with adequate detail and match the line item on the Purchase Order. In no instance shall any payment be made for services to the Contractor that are not in accordance with the prices on the Purchase Order, the Contract, updated price lists or any discounts negotiated by the purchasing agency.

18. PAYMENT

- a. The Commonwealth shall put forth reasonable efforts to make payment by the required payment date. The required payment date is: (a) the date on which payment is due under the terms of the Purchase Order; (b) thirty (30) days after a proper invoice actually is received at the "Bill To" address. If a date on which payment is due is not specified in the Purchase Order [a "proper" invoice is not received until the Commonwealth accepts

the item(s)]; or (c) the payment date specified on the invoice if later than the dates established by (a) and (b) above. Payment may be delayed if the payment amount on an invoice is not based upon the price(s) as stated in the purchase order. If any payment is not made within fifteen (15) days after the required payment date, the Commonwealth may pay interest as determined by the Secretary of Budget in accordance with Act No. 266 of 1982 and regulations promulgated pursuant thereto. Payment should not be construed by the Contractor as acceptance of the items furnished by the Contractor. The Commonwealth reserves the right to conduct further testing and inspection after payment, but within a reasonable time after delivery, and to reject the item(s) if such post payment testing or inspection discloses a defect or a failure to meet specifications. The Contractor agrees that the Commonwealth may set off the amount of any state tax liability or other obligation of the Contractor or its subsidiaries to the Commonwealth against any payments due the Contractor under any contract with the Commonwealth.

- b. The Commonwealth shall have the option of using the Commonwealth purchasing card to pay for the items purchased under the Purchase Order. The Commonwealth's purchasing card is similar to a credit card in that there will be a small fee which the Contractor will be required to pay and the Contractor will receive payment directly from the card issuer rather than the Commonwealth. Any and all fees related to this type of payment are the responsibility of the Contractor. In no case will the Commonwealth allow increases in prices to offset credit card fees paid by the Contractor or any other charges incurred by the Contractor, unless specifically stated in the terms of the Purchase Order.
- c. The Commonwealth will make contract payments through Automated Clearing House (ACH).
 - 1) Within 10 days of award of the contract or purchase order, the contractor must submit or must have already submitted their ACH information within their user profile in the Commonwealth's procurement system (SRM).
 - 2) The contractor must submit a unique invoice number with each invoice submitted. The unique invoice number will be listed on the Commonwealth of Pennsylvania's ACH remittance advice to enable the contractor to properly apply the state agency's payment to the invoice submitted.
 - 3) It is the responsibility of the contractor to ensure that the ACH information contained in SRM is accurate and complete. Failure to maintain accurate and complete information may result in delays in payments.

19. TAXES

The Commonwealth is exempt from all excise taxes imposed by the Internal Revenue Service and has accordingly registered with the Internal Revenue Service to make tax free purchases under Registration No. 23740001-K. With the exception of purchases of the following items, no exemption certificates are required by Department of Revenue regulations and none will be issued: undyed diesel fuel, tires, trucks, gas guzzler emergency vehicles, and sports fishing equipment. The Commonwealth is also exempt from Pennsylvania state sales tax, local sales tax, public transportation assistance taxes and fees and vehicle rental tax. Nothing in this paragraph is meant to exempt a construction contractor from the payment of any of these taxes or fees which are required to be paid with respect to the purchase, use, rental, or lease of tangible personal

property or taxable services used or transferred in connection with the performance of a construction contract.

20. ASSIGNMENT OF ANTITRUST CLAIMS

The Contractor and the Commonwealth recognize that in actual economic practice, overcharges by the Contractor's suppliers resulting from violations of state or federal antitrust laws are in fact borne by the Commonwealth. As part of the consideration for the award of the Contract, and intending to be legally bound, the Contractor assigns to the Commonwealth all right, title and interest in and to any claims the Contractor now has, or may acquire, under state or federal antitrust laws relating to the products and services which are the subject of this Contract.

21. HOLD HARMLESS PROVISION

- a. The Contractor shall hold the Commonwealth harmless from and indemnify the Commonwealth against any and all third party claims, demands and actions based upon or arising out of any activities performed by the Contractor and its employees and agents under this Contract, provided the Commonwealth gives Contractor prompt notice of any such claim of which it learns. Pursuant to the Commonwealth Attorneys Act (71 P.S. Section 732-101, et seq.), the Office of Attorney General (OAG) has the sole authority to represent the Commonwealth in actions brought against the Commonwealth. The OAG may, however, in its sole discretion and under such terms as it deems appropriate, delegate its right of defense. If OAG delegates the defense to the Contractor, the Commonwealth will cooperate with all reasonable requests of Contractor made in the defense of such suits.
- b. Notwithstanding the above, neither party shall enter into any settlement without the other party's written consent, which shall not be unreasonably withheld. The Commonwealth may, in its sole discretion, allow the Contractor to control the defense and any related settlement negotiations.

22. AUDIT PROVISIONS

The Commonwealth shall have the right, at reasonable times and at a site designated by the Commonwealth, to audit the books, documents and records of the Contractor to the extent that the books, documents and records relate to costs or pricing data for the Contract. The Contractor agrees to maintain records which will support the prices charged and costs incurred for the Contract. The Contractor shall preserve books, documents, and records that relate to costs or pricing data for the Contract for a period of three (3) years from date of final payment. The Contractor shall give full and free access to all records to the Commonwealth and/or their authorized representatives.

23. DEFAULT

- a. The Commonwealth may, subject to the Force Majeure provisions of this Contract, and in addition to its other rights under the Contract, declare the Contractor in default by written notice thereof to the Contractor, and terminate (as provided in the Termination Provisions of this Contract) the whole or any part of this Contract or any Purchase Order for any of the following reasons:

- 1) Failure to begin work within the time specified in the Contract or Purchase Order or as otherwise specified;
 - 2) Failure to perform the work with sufficient labor, equipment, or material to insure the completion of the specified work in accordance with the Contract or Purchase Order terms;
 - 3) Unsatisfactory performance of the work;
 - 4) Failure to deliver the awarded item(s) within the time specified in the Contract or Purchase Order or as otherwise specified;
 - 5) Improper delivery;
 - 6) Failure to provide an item(s) which is in conformance with the specifications referenced in the Contract or Purchase Order;
 - 7) Delivery of a defective item;
 - 8) Failure or refusal to remove material, or remove and replace any work rejected as defective or unsatisfactory;
 - 9) Discontinuance of work without approval;
 - 10) Failure to resume work, which has been discontinued, within a reasonable time after notice to do so;
 - 11) Insolvency or bankruptcy;
 - 12) Assignment made for the benefit of creditors;
 - 13) Failure or refusal within 10 days after written notice by the Contracting Officer, to make payment or show cause why payment should not be made, of any amounts due for materials furnished, labor supplied or performed, for equipment rentals, or for utility services rendered;
 - 14) Failure to protect, to repair, or to make good any damage or injury to property;
 - 15) Breach of any provision of the Contract;
 - 16) Failure to comply with representations made in the Contractor's bid/proposal; or
 - 17) Failure to comply with applicable industry standards, customs, and practice.
- b. In the event that the Commonwealth terminates this Contract or any Purchase Order in whole or in part as provided in Subparagraph a. above, the Commonwealth may procure, upon such terms and in such manner as it determines, items similar or identical to those so terminated, and the Contractor shall be liable to the Commonwealth for any reasonable excess costs for such similar or identical items included within the terminated part of the Contract or Purchase Order.

- c. If the Contract or a Purchase Order is terminated as provided in Subparagraph a. above, the Commonwealth, in addition to any other rights provided in this paragraph, may require the Contractor to transfer title and deliver immediately to the Commonwealth in the manner and to the extent directed by the Contracting Officer, such partially completed items, including, where applicable, reports, working papers and other documentation, as the Contractor has specifically produced or specifically acquired for the performance of such part of the Contract or Purchase Order as has been terminated. Except as provided below, payment for completed work accepted by the Commonwealth shall be at the Contract price. Except as provided below, payment for partially completed items including, where applicable, reports and working papers, delivered to and accepted by the Commonwealth shall be in an amount agreed upon by the Contractor and Contracting Officer. The Commonwealth may withhold from amounts otherwise due the Contractor for such completed or partially completed works, such sum as the Contracting Officer determines to be necessary to protect the Commonwealth against loss.
- d. The rights and remedies of the Commonwealth provided in this paragraph shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.
- e. The Commonwealth's failure to exercise any rights or remedies provided in this paragraph shall not be construed to be a waiver by the Commonwealth of its rights and remedies in regard to the event of default or any succeeding event of default.
- f. Following exhaustion of the Contractor's administrative remedies as set forth in the Contract Controversies Provision of the Contract, the Contractor's exclusive remedy shall be to seek damages in the Board of Claims.

24. FORCE MAJEURE

Neither party will incur any liability to the other if its performance of any obligation under this Contract is prevented or delayed by causes beyond its control and without the fault or negligence of either party. Causes beyond a party's control may include, but aren't limited to, acts of God or war, changes in controlling law, regulations, orders or the requirements of any governmental entity, severe weather conditions, civil disorders, natural disasters, fire, epidemics and quarantines, general strikes throughout the trade, and freight embargoes.

The Contractor shall notify the Commonwealth orally within five (5) days and in writing within ten (10) days of the date on which the Contractor becomes aware, or should have reasonably become aware, that such cause would prevent or delay its performance. Such notification shall (i) describe fully such cause(s) and its effect on performance, (ii) state whether performance under the contract is prevented or delayed and (iii) if performance is delayed, state a reasonable estimate of the duration of the delay. The Contractor shall have the burden of proving that such cause(s) delayed or prevented its performance despite its diligent efforts to perform and shall produce such supporting documentation as the Commonwealth may reasonably request. After receipt of such notification, the Commonwealth may elect to cancel the Contract, cancel the Purchase Order, or to extend the time for performance as reasonably necessary to compensate for the Contractor's delay.

In the event of a declared emergency by competent governmental authorities, the Commonwealth by notice to the Contractor, may suspend all or a portion of the Contract or Purchase Order.

25. TERMINATION PROVISIONS

The Commonwealth has the right to terminate this Contract or any Purchase Order for any of the following reasons. Termination shall be effective upon written notice to the Contractor.

- a. **TERMINATION FOR CONVENIENCE:** The Commonwealth shall have the right to terminate the Contract or a Purchase Order for its convenience if the Commonwealth determines termination to be in its best interest. The Contractor shall be paid for work satisfactorily completed prior to the effective date of the termination, but in no event shall the Contractor be entitled to recover loss of profits.
- b. **NON-APPROPRIATION:** The Commonwealth's obligation to make payments during any Commonwealth fiscal year succeeding the current fiscal year shall be subject to availability and appropriation of funds. When funds (state and/or federal) are not appropriated or otherwise made available to support continuation of performance in a subsequent fiscal year period, the Commonwealth shall have the right to terminate the Contract or a Purchase Order. The Contractor shall be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the supplies or services delivered under the Contract. Such reimbursement shall not include loss of profit, loss of use of money, or administrative or overhead costs. The reimbursement amount may be paid from any appropriations available for that purpose
- c. **TERMINATION FOR CAUSE:** The Commonwealth shall have the right to terminate the Contract or a Purchase Order for Contractor default under the Default Clause upon written notice to the Contractor. The Commonwealth shall also have the right, upon written notice to the Contractor, to terminate the Contract or a Purchase Order for other cause as specified in the Contract or by law. If it is later determined that the Commonwealth erred in terminating the Contract or a Purchase Order for cause, then, at the Commonwealth's discretion, the Contract or Purchase Order shall be deemed to have been terminated for convenience under Subparagraph a.

26. CONTRACT CONTROVERSIES

- a. The final determination shall be issued within 120 days of the receipt of the claim, unless extended by consent of the contracting officer and the Contractor. The contracting officer shall send his/her written determination to the Contractor. If the contracting

- c. Within fifteen (15) days of the mailing date of the determination denying a claim or within 135 days of filing a claim if, no extension is agreed to by the parties, whichever occurs first, the Contractor may file a statement of claim with the Commonwealth Board of Claims. Pending a final judicial resolution of a controversy or claim, the Contractor shall proceed diligently with the performance of the Contract in a manner consistent with the determination of the contracting officer and the Commonwealth shall compensate the Contractor pursuant to the terms of the Contract.

- e. For the purposes of this Contract, the term "assign" shall include, but shall not be limited to, the sale, gift, assignment, pledge, or other transfer of any ownership interest in the Contractor provided, however, that the term shall not apply to the sale or other transfer of stock of a publicly traded company.

- j. For violation of any of these Contractor Integrity Provisions, the Commonwealth may terminate this and any other contract with Contractor, claim liquidated damages in an amount equal to the value of anything received in breach of these Provisions, claim damages for all additional costs and expenses incurred in obtaining another contractor to complete performance under this contract, and debar and suspend Contractor from doing business with the Commonwealth. Such notification shall be made within 15 days of the date of suspension or debarment.

- d. The failure of the Contractor to notify the Commonwealth of its suspension or debarment by the Commonwealth, any other state, or the federal government shall constitute an event of default of the Contract with the Commonwealth.
- e. The Contractor agrees to reimburse the Commonwealth for the reasonable costs of investigation incurred by the Office of State Inspector General for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the Commonwealth that results in the suspension or debarment of the contractor. For breach or violation of this warranty, the Commonwealth shall have the right to terminate the Purchase Order without liability or in its discretion to deduct from the contract price or consideration, or otherwise recover the full amount of such commission, percentage, brokerage, or contingent fee.

35. APPLICABLE LAW

This Contract shall be governed by and interpreted and enforced in accordance with the laws of the Commonwealth of Pennsylvania (without regard to any conflict of laws provisions) and the decisions of the Pennsylvania courts. The Contractor consents to the jurisdiction of any court of the Commonwealth of Pennsylvania and any federal courts in Pennsylvania, waiving any claim or

36. INTEGRATION

This Purchase Order, including all referenced documents, constitutes the entire agreement between the parties. No agent, representative, employee or officer of either the Commonwealth or the Contractor has authority to make, or has made, any statement, agreement or representation, oral or written, in connection with the Contract, which in any way can be deemed to modify, add to or detract from, or otherwise change or alter its terms and conditions. 38. CONTROLLING TERMS AND CONDITIONS

The terms and conditions of this Contract shall be the exclusive terms of agreement between the Contractor and the Commonwealth. All quotations requested and received from the Contractor are for obtaining firm pricing only. Other terms and conditions or additional terms and conditions included or referenced in the Contractor's quotations, invoices, business forms, or other documentation shall not become part of the parties' agreement and shall be disregarded by the parties, unenforceable by the Contractor and not binding on the Commonwealth.

39. CHANGES

The Commonwealth reserves the right to make changes at any time during the term of the Contract or any renewals or extensions thereof: 1) to increase or decrease the quantities resulting from variations between any estimated quantities in the Contract and actual quantities; 2) to make changes to the services within the scope of the Contract; 3) to notify the Contractor that the Commonwealth is exercising any Contract renewal or extension option; or 4) to modify the time of performance that does not alter the scope of the Contract to extend the completion date beyond the Expiration Date of the Contract or any renewals or extensions thereof. Any such change shall be made by the Contracting Officer by notifying the Contractor in writing. The change shall be effective as of the date of the change, unless the notification of change specifies a later effective date. Such increases, decreases, changes, or modifications will not invalidate the Contract, nor, if performance security is being furnished in conjunction with the Contract, release the security obligation. The Contractor agrees to provide the service in accordance with the change order. Any dispute by the Contractor in regard to the performance required by any notification of change shall be handled through Contract Controversies Provision.

40. BACKGROUND CHECKS

Background checks are to be conducted via the Request for Criminal Record Check form and procedure found at <http://www.psp.state.pa.us/psp/lib/psp/sp4-164.pdf>. The background check must be conducted prior to initial access and on an annual basis thereafter.
- b. Before the Commonwealth will permit access to the Contractor, the Contractor must provide written confirmation that the background checks have been conducted. If, at any time, it is discovered that a Contractor employee has a criminal record that includes a felony or misdemeanor involving terroristic behavior, violence, use of a lethal weapon, or breach of trust/fiduciary responsibility or which raises concerns about building, system or personal security or is otherwise job-related, the Contractor shall not assign that employee to any Commonwealth facilities, shall remove any access privileges already given to the employee and shall not permit that employee remote access unless the Commonwealth consents to the access, in writing, prior to the access. The Commonwealth may withhold its consent in its sole discretion. Failure of the Contractor to comply with the terms of this Section on more than one occasion or Contractor's failure to appropriately address any single failure to the satisfaction of the Commonwealth may result in the Contractor being deemed in default of its Contract.
- c. The Commonwealth specifically reserves the right of the Commonwealth to conduct background checks over and above that described herein.
- d. Access to certain Capitol Complex buildings and other state office buildings is controlled by means of card readers and secured visitors' entrances. Commonwealth contracted personnel who have regular and routine business in Commonwealth worksites may be issued a photo identification or access badge subject to the requirements of the contracting agency and DGS set forth in Enclosure 3 of Commonwealth Management Directive 625.10 Amended (January 30, 2008) Card Reader and Emergency Response Access to Certain Capitol Complex Buildings and Other State Office Buildings. 41. CONFIDENTIALITY

- a. The Contractor agrees to guard the confidentiality of the Commonwealth's confidential information with the same diligence with which it guards its own proprietary information. If the Contractor needs to disclose all or part of project materials to third parties to assist in the work or service performed for the Commonwealth, it may do so only if such third parties sign agreements containing substantially the same provisions as contained in this Section. The Commonwealth agrees to protect the confidentiality of Contractor's confidential information. In order for information to be deemed to be confidential, the party claiming confidentiality must designate the information as "confidential" in such a way as to give notice to the other party. The parties agree that such confidential information shall not be copied, in whole or in part, except when essential for authorized use under this Contract. Each copy of such confidential information shall be marked by the party making the copy with all confidentiality notices appearing in the original. Upon termination or cancellation of this Contract or any license granted hereunder, the receiving party will return to the disclosing party all copies of the confidential

information in the receiving party's possession, other than one copy, which may be maintained for archival purposes only. Both parties agree that a material breach of these requirements may, after failure to cure within the time frame specified in this Contract, and at the discretion of the non-breaching party, result in termination for default.

- b. The obligations stated in this Section do not apply to information:
 - 1) already known to the recipient at the time of disclosure other than through the contractual relationship;
 - 2) independently generated by the recipient and not derived from the information supplied by the disclosing party;
 - 3) known or available to the public, except where such knowledge or availability is the result of unauthorized disclosure by the recipient of the proprietary information;
 - 4) disclosed to the recipient without a similar restriction by a third party who has the right to make such disclosure; or
 - 5) required to be disclosed by the recipient by law, regulation, court order, or other legal process.
- c. There shall be no restriction with respect to the use or disclosure of any ideas, concepts, know-how, or data processing techniques developed alone or jointly with the Commonwealth in connection with services provided to the Commonwealth under this Contract.

42. MANUFACTURER'S PRICE REDUCTION

If, prior to the delivery of the awarded item(s) by the Contractor, a price reduction is announced by the original equipment manufacturer, a comparative price reduction will be given to the Commonwealth by the Contractor.

43. NOTICE

Any written notice to any party under this Contract shall be deemed sufficient if delivered personally, or by facsimile, telecopy, electronic or digital transmission (provided such delivery is confirmed), or by a recognized overnight courier service (e.g., DHL, Federal Express, etc.) with confirmed receipt, or by certified or registered United States mail, postage prepaid, return receipt requested, and sent to following:

- a. If to the Contractor: the Contractor's address as recorded in the Commonwealth's Supplier Registration system.
- b. If to the Commonwealth: the address of the Issuing Office as set forth on the Contract.

44. RIGHT TO KNOW LAW

- a. The Pennsylvania Right-to-Know Law, 65 P.S. §§ 67.101-3104, (“RTKL”) applies to this Contract. For the purpose of these provisions, the term “the Commonwealth” shall refer to the contracting Commonwealth agency.
- b. If the Commonwealth needs the Contractor’s assistance in any matter arising out of the RTKL related to this Contract, it shall notify the Contractor using the legal contact information provided in this Contract. The Contractor, at any time, may designate a different contact for such purpose upon reasonable prior written notice to the Commonwealth.
- c. Upon written notification from the Commonwealth that it requires the Contractor’s assistance in responding to a request under the RTKL for information related to this Contract that may be in the Contractor’s possession, constituting, or alleged to constitute, a public record in accordance with the RTKL (“Requested Information”), the Contractor shall:
 - 1) Provide the Commonwealth, within ten (10) calendar days after receipt of written notification, access to, and copies of, any document or information in the Contractor’s possession arising out of this Contract that the Commonwealth reasonably believes is Requested Information and may be a public record under the RTKL; and
 - 2) Provide such other assistance as the Commonwealth may reasonably request, in order to comply with the RTKL with respect to this Contract.
- d. If the Contractor considers the Requested Information to include a request for a Trade Secret or Confidential Proprietary Information, as those terms are defined by the RTKL, or other information that the Contractor considers exempt from production under the RTKL, the Contractor must notify the Commonwealth and provide, within seven (7) calendar days of receiving the written notification, a written statement signed by a representative of the Contractor explaining why the requested material is exempt from public disclosure under the RTKL.
- e. The Commonwealth will rely upon the written statement from the Contractor in denying a RTKL request for the Requested Information unless the Commonwealth determines that the Requested Information is clearly not protected from disclosure under the RTKL. Should the Commonwealth determine that the Requested Information is clearly not exempt from disclosure, the Contractor shall provide the Requested Information within five (5) business days of receipt of written notification of the Commonwealth’s determination.
- f. If the Contractor fails to provide the Requested Information within the time period required by these provisions, the Contractor shall indemnify and hold the Commonwealth harmless for any damages, penalties, costs, detriment or harm that the Commonwealth may incur as a result of the Contractor’s failure, including any statutory damages assessed against the Commonwealth.

All Assets that are invested in accordance with this Agreement, together with all securities and proceeds from the disposition of investments, shall be held by a custodian duly appointed by the Client (the "Custodian"). The Consultant is not authorized to give instructions to the Custodian.

5. Confidential Information.

(a) All information regarding the operations and investments of the Client shall be treated as confidential by the Consultant, except for information that (i) is publicly available other than as a result of disclosure by the Consultant or its representatives, (ii) becomes known to the Consultant from a source that, to the Consultant's knowledge, is not bound by a duty of confidentiality to the Client, or (iii) the Consultant is legally required to disclose; provided, however, that except in the case of reports required by law or regulation to be filed with, or information requested by a governmental or regulatory authority, the Consultant shall give prior timely notice of such request to the Client, to the extent legally permissible, to permit the Client to seek a protective order or other appropriate remedy. Notwithstanding the foregoing, the Consultant may disclose the identity of the Client and certain terms of this Agreement and any other information regarding the Client to the extent reasonably calculated to advance or protect the interests of the Client and/or facilitate investments of the Assets, including to the general partners or sponsors of Investments and their service providers.

(b) All information regarding the Consultant's analyses, opinions and conclusions with respect to the Client, including without limitation all qualitative and quantitative assessments of the individual or collective performance of the Investments and prospective Investments or their respective portfolio companies, and all information received from the Investments by the

Consultant and communicated to the Client, including the identity of all limited partners or co-investors in Investments and the amount of their respective capital commitments, the partnership agreements or other governing documents of the Investments, and due diligence materials and investor communications provided to the Client and its representatives, shall be treated as confidential by the Client and shall not be disclosed to any person or entity other than the Client's officers, employees and agents who agree to keep such information confidential, except for information that (i) is publicly available other than as a result of disclosure by the Client's officers, employees or agents, (ii) becomes known to the Client from a source that, to the Client's knowledge, is not bound by a duty of confidentiality to the Consultant or the sponsor of the Investment, or (iii) the Client is legally required to disclose; provided, however, that the Client shall give prior timely notice of such request, to the extent legally permissible, to the Consultant to permit the Consultant to seek a protective order or other appropriate remedy. Notwithstanding the foregoing, the Consultant acknowledges that Client is an administrative agency of the Commonwealth of Pennsylvania and may be required by law, including 24 Pa. C.S. §8502(e) and 65 P.S. §§67.101-67.3104 (Right-to-Know Law) to disclose to the public certain information that may be considered confidential under this Consulting Agreement ("Disclosure Obligations"). Therefore, notwithstanding anything to the contrary in this Consulting Agreement, the Consultant hereby agrees that Client, without prior notice to or approval of the Consultant, may disclose its Disclosure Obligations to the public and exclude sensitive investment or financial information from public disclosure to the extent permitted in 24 Pa. C.S. §8502(e). Consultant further acknowledges that Client may be required by law to disclose other information to the public. Client will not, without the prior written consent of the Consultant, disclose (i) any information regarding the identity, performance, or value of any Portfolio Company, proprietary business information relating to the services or products of any Portfolio Company, or the pending acquisition or pending disposition of a Portfolio Company or proposed investment in a Portfolio Company.

(c) The Client agrees that securities regulators, in the ordinary course of their examinations, have unrestricted access to all books, records, files and other materials in the possession of the Consultant, including confidential information, and disclosure of confidential information to such examiners solely for purposes of the examination process may occur without prior written notice to or authorization from Consultant. In addition, either party may disclose confidential information as required to comply with lawful requests or binding orders of regulators or other governmental entities that have jurisdiction over it; provided that the party upon whom such request is made (a) gives the other party reasonable written notice to allow the such party to seek a protective order or other appropriate remedy, (b) discloses only such confidential information as is required by the governmental entity, and (c) uses commercially reasonable efforts to obtain confidential treatment for any confidential information so disclosed.

(d) The Consultant shall not publish or otherwise disclose, except to Client and except matters of public record, any information or data obtained hereunder from private individuals, organizations, or public agencies, in a publication whereby the information or data furnished by or about any particular person or establishment can be identified as relating to Client or its responsibilities, except with the consent of such person or establishment.

6. Liability of the Consultant and the Client.

(a) The Consultant shall not be liable for any action approved in writing by the Client or for any error of judgment, mistake of law or act or omission or any loss suffered by the Client in connection with the performance of its duties under this Agreement in the absence of fraud, willful misconduct, bad faith or negligence. The Client acknowledges that the Consultant does not guarantee any rate of return on, or market value of, any investments of the Client pursuant to this Consulting Agreement.

(b) Indemnification. The Consultant shall hold and save harmless the Commonwealth of Pennsylvania, the Client, the Public School Employees' Retirement Board collectively and its members and their designees individually (together, the "Board"), their beneficiaries, directors, officers, agents, and employees, from and against claims, demands, actions, or liability of any nature, including attorneys' fees and court costs ("Losses"), based upon or arising out of any services performed, or the failure to perform services by the Consultant, its directors, officers, employees, and agents under this Agreement. The Consultant shall, at the request of the Client, defend at the Consultant's expense actions brought against the Commonwealth of Pennsylvania, the Client and/or the Board, based upon any such claims or demands, and the costs of such defense shall be borne by the Consultant and shall not constitute any expense of, nor shall be paid out of, the Client, Board or Commonwealth of Pennsylvania assets.

(c) Notwithstanding the foregoing, the Consultant shall have no liability for such Losses based upon or arising out of any services performed, or the failure to perform services by the Consultant, its directors, officers, employees, and agents under this Agreement except to the extent that such Losses were due to an act or omission of the Manager constituting willful misconduct, negligence, breach of agreement or violation of the law. The Client acknowledges that the Consultant does not guarantee any rate of return on, or market value of, any investments of the Assets.

(d) The Consultant shall not enter into any agreement by or on behalf of the Client that (i) (x) is binding on the Client or allows, either expressly or by operation of law, recourse to the Client and (y) creates any actual or potential liability on the part of the Client that exceeds the scope of authority delegated to the Consultant under this Agreement or (ii) waives any of the Client's rights, defenses, causes or action, or immunities. Liabilities that are not authorized by the Client and prohibited by this section include, without limitation, any obligation on the part of the Client to indemnify a third party or to pay attorney fees, legal expenses, penalties, or liquidated damages.

7. Client Representatives; Directions to the Consultant.

(a) Certain individuals will be identified from time to time by the Client as the "Client Representatives". The Client Representatives will be authorized to provide, on behalf of the Client, any approvals, consents or other actions that may be required under this Consulting Agreement. Until the Consultant is otherwise notified in writing, the Client hereby designates Glen R. Grell, the Executive Director of the Client as the authorized Client Representative.

(b) All directions by or on behalf of the Client to the Consultant shall be in writing signed by a Client Representative. For purposes of the foregoing, a writing sent via electronic

mail from the Client Representative's email address shall be considered a writing signed by the Client Representative. The Consultant shall be entitled to rely on any instruction, direction or approval so provided.

(c) The Consultant shall be fully protected in acting upon any instrument, certificate or document believed by it to be genuine and to be signed or presented by the proper person or persons, and the Consultant shall be under no duty to make any investigation or inquiry as to any statement contained in any such writing, but may accept such writing as conclusive evidence of the truth and accuracy of the statements contained therein.

8. Records.

(a) The Consultant shall maintain accurate and detailed records and accounts of all investments and other transactions relating to the Assets, which records and accounts may be maintained in electronic or paper format, or a combination thereof, in the sole discretion of the Consultant.

(b) The Consultant shall maintain such records, books, and accounts pertaining to services and payments hereunder in accordance with generally accepted accounting principles consistently applied. All such records, books, and accounts shall be maintained and preserved during the term of this Agreement and any extension thereof and for four years thereafter. During such period, the Client, or any other department or representative of the Commonwealth of Pennsylvania, from time to time upon reasonable notice, shall have the right to inspect, duplicate, and audit such records, books and accounts for all purposes authorized and permitted by law. Consultant may preserve such records, books, and accounts in original form or on microfilm, magnetic tape, or any other generally recognized and accepted process. Any expenses relating to such inspections and audits shall be paid by the Client.

9. Accounting and Reports. (a) Promptly following the end of each month, the Consultant shall send to the Client (i) a summary of the equity interests, cash and cash activity, securities and other properties comprising the Assets, (ii) a list of the transactions involving the Assets that have closed during the month, and (iii) the cost and market values for each investment as of the end of the month as reported by the respective fund managers. The Consultant shall send to the Client quarterly investment reports reflecting the Assets, the cost and market values for each investment included in the Assets as reported by the respective fund managers, and the internal rate of return for the Assets for the period commencing with the initial capital contribution or other investment to each such respective fund through the end of the applicable quarter. The Client shall instruct the investment fund managers to provide such information to the Consultant on a timely basis and shall assist and cooperate with the Consultant in seeking to obtain such other information from the investment funds as the Consultant may reasonably request from time to time.

(b) Such quarterly reports shall be delivered within 100 days following the end of each quarter, provided that the report with respect to the fourth quarter of each year shall be delivered within 150 days following the end of such quarter. Notwithstanding the foregoing, the Client acknowledges that the Consultant's ability to prepare such reports is dependent upon the timely receipt of financial information regarding the Assets from the fund managers. To the extent that the Consultant does not receive all necessary information from the fund managers within the

applicable time periods referred to above, the Consultant in its discretion may prepare and deliver the reports based on the most recently available information, adjusted for cash flows through the end of the reporting period.

(c) The Consultant (i) understands and acknowledges that it is subject to the reporting requirements set forth in 25 P.S. § 3260a., (ii) if required to file a report, confirms that it has submitted to the Client's Executive Director a copy of its current report to the Secretary of the Commonwealth of Pennsylvania and (iii) hereby agrees, if required to file a report, to submit a copy of each successive report to the Client's Executive Director by February 15 of each year during the term of this Agreement. Consultant further agrees that for each year in which Consultant is not required to file a report it will submit a letter to the Client's Executive Director by February 15 confirming that Consultant is not required to file a report for the year.

10. Fees and Expenses.

(a) In consideration of the services to be performed by the Consultant, the Consultant shall be entitled to the fees set forth on Schedule I hereto. Such fees shall be paid quarterly in arrears on the last day of March, June, September and December of each year with respect to the immediately preceding quarter in which each such date occurs, provided that the fee with respect to the first quarter of this Agreement shall be payable upon the execution of this Agreement. The fee for the first quarter of this Agreement and the final quarter of this Agreement shall be prorated in accordance with the number of days in the quarter for which the Consultant acts as investment Consultant. In the event this Agreement is terminated prior to the expiration of a period for which an advance fee has been paid to the Consultant, a pro rata portion of the fee for the period following the termination shall be promptly refunded by the Consultant.

(b) Reimbursement of Travel Expenses. Notwithstanding Section 8 hereof, the Consultant shall reimburse the Client for the reasonable travel expenses actually incurred by the Client, if any, for each contract year (i) for travel to Consultant's location for due diligence and/or to discuss performance results, economic outlook, investment strategy, organization changes and other pertinent matters and (ii) to attend investment conferences, training, seminars or similar events sponsored by Consultant. Reimbursable expenses shall include airfare, automobile rental, lodging, meals, advisor-sponsored meeting registration fees, and other travel-related expenses at maximum allowance rates established by the Commonwealth Management Directive 230.10 as revised, Travel and Subsistence Allowances. The reimbursable expenses for each of (i) or (ii), above, shall not exceed \$10,000 per calendar year. The Client shall submit a properly documented claim for reimbursement of such travel expenses, which Consultant shall pay within 30 days after receipt.

11. Termination.

(a) The performance of services may be terminated by the Client in whole or, from time to time, in part, whenever for any reason the Client Representative shall determine that such termination is in the best interest of the Client. Any such termination shall be effected by delivery to the Consultant of a written notice of termination specifying the extent to which performance of the work under the contract is terminated and the date on which such termination becomes effective. In the event of termination, fees for services shall be prorated and paid or

repaid. Such termination shall not relieve the Consultant of any liability that may be incurred for its activities in connection with the providing of services.

(b) This Agreement may be terminated at any time by the Consultant upon 90 days' written notice to the Client.

12. Distributions. In the event the Consultant receives a distribution of securities, the Consultant shall direct the Custodian to transfer the securities to the Client's designated broker or another Consultant for liquidation in a prudent manner or in accordance with written instructions from the Client.

13. Standard of Care of the Consultant.

(a) The Consultant shall perform investment consulting and administrative services under this Agreement subject to the exercise of that degree of judgment and care under the circumstances then prevailing which persons of prudence, discretion, and intelligence who are experts in such matters exercise in the management of like matters, not in regard to speculation but in regard to the permanent disposition of the Assets, considering the probable income to be derived therefrom as well as the probable safety of the invested capital. The Consultant acknowledges that it is a "fiduciary" with respect to the Client and the Assets as that term is defined in the Employee Retirement Income Security Act of 1974 ("ERISA"), regardless of the applicability of ERISA to this Agreement. For the avoidance of doubt, the obligations of the Consultant arising under the immediately preceding sentence shall not extend to the diversification requirements under ERISA.

(b) Except as disclosed in Part II of the Consultant's Form ADV and subject to this Agreement, the Consultant covenants that it presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of its services hereunder. Consultant further covenants that, in the performance of this Agreement, it will not knowingly engage any other person having such interest. Notwithstanding the foregoing, the Client understands that the Consultant performs investment advisory and management services for various clients. The Client agrees that the Consultant may give advice and take action with respect to any of its other clients that may differ from advice given, or differ in the timing or nature of action taken, with respect to the Client, so long as it is the Consultant's policy to allocate investment opportunities to the Client over the term of this Agreement on a prudent, fair and equitable basis subject to its allocation policy. The Consultant shall not have any obligation to purchase or sell, or to recommend the purchase or sale of, any security or investment that the Consultant or its affiliates may purchase or sell for the account of any other client, if in the opinion of the Consultant such transaction or investment appears unsuitable, impractical or undesirable for the Client.

(c) The Client acknowledges and agrees that, notwithstanding anything to the contrary in the Agreement, the Consultant is not authorized to seek to obtain on the Client's behalf, as an agent, allocations of limited partner commitments to underlying Primary Investments (as defined below) directly from the general partners of those funds. The Client acknowledges and agrees that the foregoing does not obligate the Consultant to allocate any investment opportunities to the Client and any allocation will be subject to the Consultant's allocation policy, as may be amended

from time to time, as well as any contractual obligations to its clients and managed accounts. In addition, the Client acknowledges that any proposed allocation to the Client will be subject to restrictions of underlying investment sponsors and such sponsors' discretion to accept or reject the Client as part of their aggregate allocation.

14. Representations.

(a) The Client and the Consultant each represent and warrant that: (i) they are duly authorized and fully empowered to execute, deliver and perform this Agreement, and when executed, this Agreement will be binding upon the Client and the Consultant, as the case may be, in accordance with its terms, and (ii) the terms of this Agreement do not violate any obligation for which they may be bound, whether arising by contract, operation of law, or otherwise, which would have a material adverse effect on the ability of the Client or the Consultant, as the case may be, to perform its obligations under this Agreement

(b) The Consultant represents and confirms that it is duly registered and in good standing as an investment advisor under the Investment Advisers Act of 1940 (and will maintain such registration).

(c) The Client hereby represents and warrants to, and covenants with, the Consultant as set forth on Exhibit A attached hereto. The Client shall promptly notify the Consultant in writing if any of the representations or warranties set forth on Exhibit A ceases to be true and correct. The Client further represents and warrants to the Consultant that the execution and delivery of this Agreement is permitted by the governing documents of the Client and any investment guidelines established by the Client's trustees.

15. Disclosure Statement. The Client acknowledges receipt of Part II of the Consultant's Form ADV in compliance with Rule 204-3(b) under the Investment Advisers Act of 1940, as amended.

16. Notices. Any notice, demand, direction, instruction, or other communication required or permitted hereunder shall be confirmed in writing and shall be sufficiently given for all purposes when sent (a) by certified or registered U.S. mail, postage prepaid, (b) by a nationally recognized courier service that maintains verification of actual delivery, (c) by facsimile, with a copy sent by first class U.S. mail (provided that if the date of dispatch is not a working day, the facsimile shall be deemed to have been received at the opening of business of the addressee on the next working day), (d) by electronic mail or (e) by delivering the same in person to any party at the following addresses or such other addresses as may be designated in writing from time to time by the parties:

The Consultant shall perform its services as an independent contractor, and Consultant acknowledges that it maintains Workers' Compensation Insurance and shall accept full responsibility for the payments of premiums for Workers' Compensation Insurance and Social Security, as well as all income tax deductions and other taxes or payroll deductions required by law for itself for performing services.

18. Ownership of Materials.

(a) Each party's proprietary information and materials existing prior to the execution of this Agreement that are the property of that party ("Pre-Existing Materials") shall remain exclusively owned by that party. To the extent that a party uses its own Pre-Existing Materials in performing services under this Agreement, such Pre-Existing Materials shall not become the property of the other party.

(b) The Consultant agrees that any specific plans, material, records, etc., developed during the performance of services relating to the Client's portfolio of private markets funds remain the property of the Client and reproduction or duplication of such materials may be done only with the approval of the Contracting Officer; provided, however, that the Consultant retains all ownership rights in any investment reports related to private markets funds or their sponsors; provided that the Consultant grants to the Client a perpetual, non-exclusive license to use such reports subject to the terms of this Agreement. For the avoidance of doubt, the documents that the Consultant prepares in making analyses of the private markets' performance of the Client's fund shall remain the property of the Client.

Unless otherwise approved by the Client, the maximum deductible on the errors and omissions policy shall be no greater than \$1,000,000. The Consultant shall submit copies of the actual policies of said insurance as directed by the Client, and the Client shall cause to be issued a written determination on compliance. Consultant shall thereafter maintain annual filings of current certificates of insurance with the Client. If the Consultant changes insurance carriers for insurance required hereunder, the Consultant shall submit copies of the actual policies of said insurance as directed by the Client. The errors and omissions policy shall contain a provision or endorsement that coverage afforded thereunder shall not be cancelled or changed until the underwriter has furnished Client at least 30 days prior written notice of any cancellation or change. The Client may, in its discretion, require such changes with respect to insurance coverage as it deems appropriate for the protection of the Fund by giving written notice of such changes to the Consultant at least 30 days in advance of the effective date for such changes.

21. Reservation of Immunities. The Client reserves all immunities, defenses, rights, or actions arising out of its status as a sovereign entity or from the Eleventh Amendment to the United States Constitution. No provision of this Agreement shall be construed as a waiver of any such immunities, defenses, rights, or actions.

22. No Direct Indemnification. The Consultant hereby confirms that notwithstanding anything to the contrary in this Consulting Agreement, this Consulting Agreement shall not be applied or construed to require Client to provide indemnification directly to any person or entity.

23. Tax Exempt Status. The Consultant acknowledges that Client is an administrative agency of the Commonwealth of Pennsylvania and claims an exemption from federal, state and local taxes.

24. Certification of Taxpayer Identification Number. Execution of this Agreement constitutes certification by Consultant that (a) the number appearing on the Proposal Cover Sheet attached hereto as Exhibit C is the Consultant's correct taxpayer identification number, and (b) the Consultant is not subject to backup withholding because (i) the Consultant is exempt from backup withholding, (ii) the Consultant has not been notified by the IRS that it is subject to backup withholding as a result of a failure to report all interest or dividends, or (iii), the IRS has notified the Consultant that it is no longer subject to backup withholding.

25. Severability. If any one or more of the covenants, agreements, provisions, or terms of this Agreement shall be held contrary to any express provision of law, or contrary to the policy of express law though not expressly prohibited, or against public policy, or shall for any reason whatsoever be held invalid, then such covenants, agreements, provisions, or terms shall be deemed severable from the remaining covenants, agreements, provisions, or terms of this Agreement and

shall in no way affect the validity or enforceability of the rights of the Consultant or the Commonwealth of Pennsylvania.

26. Assignment. No interest herein, nor any claim arising hereunder shall be transferred or assigned by either party to any other party or parties, without the express prior written consent of the other party.

27. Headings. The headings and captions in this Agreement are for convenience and reference purposes only and shall not be construed or deemed to explain, modify, amplify, or aid in the interpretation, construction, or meaning of the provisions hereof.

PART I

GENERAL INFORMATION

- I-1. Purpose.** This request for proposals (RFP) provides to those interested in submitting proposals for the subject procurement (“Offerors”) sufficient information to enable them to prepare and submit proposals for the Commonwealth of Pennsylvania, Public School Employees’ Retirement System’s (“PSERS”) consideration on behalf of the Commonwealth of Pennsylvania (“Commonwealth”) to satisfy a need for Private Markets Consulting Services (“Project”). This RFP contains instructions governing the requested proposals, including the requirements for the information and material to be included; a description of the service to be provided; requirements which Offerors must meet to be eligible for consideration; general evaluation criteria; and other requirements specific to this RFP.
- I-2. Issuing Office.** PSERS (“Issuing Office”) has issued this RFP on behalf of the Commonwealth. The sole point of contact in the Commonwealth for this RFP shall be Lenann T. Engler, Manager of Investment Processes, PSERS, 5 North 5th Street, Harrisburg, PA 17101, Lengler@pa.gov the Issuing Officer for this RFP. Please refer all inquiries to the Issuing Officer.
- I-3. Overview of Project.** The Commonwealth of Pennsylvania, Public School Employees’ Retirement System (PSERS) is the administrator of a cost-sharing multiple-employer defined benefit retirement system established by the Commonwealth of Pennsylvania to provide pension benefits for employees of the public school system in the Commonwealth. PSERS’ funding policy provides for periodic member contributions at statutory rates and periodic employer contributions at actuarially determined rates that are sufficient to accumulate assets to pay defined benefits when due. As provided by statutes, the PSERS’ Board of Trustees (Board) has exclusive control and management responsibility of PSERS’ fund and full power to invest the fund. In exercising its fiduciary responsibility to PSERS’ membership, the Board is governed by the “prudent investor” rule and has adopted an Investment Policy Statement to formally document investment objectives and responsibilities. This policy, as well as applicable state law, defines permissible investments for PSERS. The Investment Policy Statement, Objectives, and Guidelines can be obtained on the internet at <http://www.psers.pa.gov/About/Investment/Pages/Guide.aspx>.

The market value of the System’s net assets totaled approximately \$50 billion as of December 31, 2016. Based on this valuation of its assets, the System is the 14th largest defined benefit public pension fund in the nation. A copy of the Fund’s most recent comprehensive annual financial report can be obtained on the internet at <http://www.psers.pa.gov> under the Publications section. PSERS’ Private Equity, Venture Capital and Special Situations portfolio represents approximately 16% of total plan assets, including approximately \$8.0 billion NAV and approximately \$4.0 billion of unfunded commitments; invested across 77 managers. PSERS’ Private High Yield portfolio represents approximately 8% of total plan assets, including approximately \$4 billion NAV and approximately \$2.5 billion of unfunded commitments; invested across 15 managers. PSERS’ Co-Investment portfolio represents approximately 1% of total plan assets, including approximately \$459 million NAV and approximately

\$75 million of unfunded commitments; invested across 37 investments. The primary investment objective for the System's private markets portfolio is to achieve superior risk-adjusted returns relative to the traditional public markets. The Board is seeking investment consulting and performance measurement services for its private markets investments to fulfill its fiduciary duties with respect to the System.

I-4. Objectives.

A. General. The purpose of this RFP is to obtain the service or services of a contractor or contractors to provide non-discretionary private markets investment consulting and/or performance measurement services. For the purpose of this RFP, Private Markets includes: Private Equity, Venture Capital, Special Situations, Private High Yield, and In-House Co-Investment and Secondary programs related to private equity, high yield, real estate and a dedicated Pennsylvania program (which includes all of the above).

B. Specific. Additional detail is provided in **Part III** of this RFP.

I-5. Type of Contract. It is proposed that if the Issuing Office enters into a contract as a result of this RFP, it will be a five-year fee for service based purchase order containing the Standard Contract Terms and Conditions as shown in **Part VI** and the terms and conditions contained in **Appendix A**. The Issuing Office, in its sole discretion, may undertake negotiations with Offerors whose proposals, in the judgment of the Issuing Office, show them to be qualified, responsible and capable of performing the Project.

I-6. Rejection of Proposals. The Issuing Office reserves the right, in its sole and complete discretion, to reject any proposal received as a result of this RFP.

I-7. Incurring Costs. The Issuing Office is not liable for any costs the Offeror incurs in preparation and submission of its proposal, in participating in the RFP process or in anticipation of award of the contract.

I-8. Pre-proposal Conference. There will be no Pre-proposal conference for this RFP. If there are any questions, please forward them to the Issuing Officer in accordance with **Section I-9**.

I-9. Questions & Answers. If an Offeror has any questions regarding this RFP, the Offeror must submit the questions by email (**with the subject line "RFP PSERS RFP 2017- 1 Question"**) to the Issuing Officer named in **Part I, Section I-2** of the RFP. If the Offeror has questions, they must be submitted via email **no later than** the date indicated on the Calendar of Events. The Offeror shall not attempt to contact the Issuing Officer by any other means. The Issuing Officer shall post the answers to the questions on the DGS website by the date stated on the Calendar of Events. An Offeror who submits a question *after* the deadline date for receipt of questions indicated on the Calendar of Events assumes the risk that its proposal will not be responsive or competitive because the Commonwealth is not able to respond before the proposal receipt date or in sufficient time for the Offeror to prepare a responsive or competitive proposal. When submitted after the deadline date for receipt of questions indicated on the Calendar of Events, the Issuing Officer *may* respond to questions of an administrative nature by directing the questioning Offeror to specific

provisions in the RFP. To the extent that the Issuing Office decides to respond to a non-administrative question *after* the deadline date for receipt of questions indicated on the Calendar of Events, the answer must be provided to all Offerors through an addendum.

All questions and responses as posted on the DGS website are considered as an addendum to, and part of, this RFP in accordance with RFP **Part I, Section I-10**. Each Offeror shall be responsible to monitor the DGS website for new or revised RFP information. The Issuing Office shall not be bound by any verbal information nor shall it be bound by any written information that is not either contained within the RFP or formally issued as an addendum by the Issuing Office. The Issuing Office does not consider questions to be a protest of the specifications or of the solicitation. The required protest process for Commonwealth procurements is described in **Part I, Section I-26**.

I-10. Addenda to the RFP. If the Issuing Office deems it necessary to revise any part of this RFP before the proposal response date, the Issuing Office will post an addendum to the DGS website at <http://www.emarketplace.state.pa.us/Search.aspx>. It is the Offeror's responsibility to periodically check the website for any new information or addenda to the RFP. Answers to the questions asked during the Questions & Answers period also will be posted to the website as an addendum to the RFP.

I-11. Response Date. To be considered for selection, hard copies of proposals must arrive at the Issuing Office on or before the time and date specified in the RFP Calendar of Events. The Issuing Office will **not** accept proposals via email or facsimile transmission. Offerors who send proposals by mail or other delivery service should allow sufficient delivery time to ensure timely receipt of their proposals. If, due to inclement weather, natural disaster, or any other cause, the Commonwealth office location to which proposals are to be returned is closed on the proposal response date, the deadline for submission will be automatically extended until the next Commonwealth business day on which the office is open, unless the Issuing Office otherwise notifies Offerors. The hour for submission of proposals shall remain the same. The Issuing Office will reject, unopened, any late proposals.

I-12. Proposal Requirements.

A. Proposal Submission: To be considered, Offerors should submit a complete response to this RFP to the Issuing Office, using the format provided in **Section I-12B**, providing **15 paper copies [one marked "ORIGINAL"] of the Technical Submittal and one (1) paper copy of the Cost Submittal and two (2) paper copies of the Small Diverse Business and Small Business (SDB/SB) Participation Submittal and related Letter(s) of Intent**. The Offeror shall make no other distribution of its proposal to any other Offeror or

If the official signs the **Proposal Cover Sheet (Appendix B** to this RFP) and the Proposal Cover Sheet is attached to the Offeror's proposal, the requirement will be met. For this RFP, the proposal must remain valid for 120 days or until a contract is fully executed. If the Issuing Office selects the Offeror's proposal for award, the contents of the selected Offeror's proposal will become, except to the extent the contents are changed through Best and Final Offers or negotiations, contractual obligations.

Each Offeror submitting a proposal specifically waives any right to withdraw or modify it, except that the Offeror may withdraw its proposal by written notice received at the Issuing Office's address for proposal delivery prior to the exact hour and date specified for proposal receipt. An Offeror or its authorized representative may withdraw its proposal in person prior to the exact hour and date set for proposal receipt, provided the withdrawing person provides appropriate identification and signs a receipt for the proposal. An Offeror may modify its submitted proposal prior to the exact hour and date set for proposal receipt only by submitting a new sealed proposal or sealed modification which complies with the RFP requirements.

- a. Complete and include **Appendix G - SDB/SB Participation Submittal Form;** and
- b. Complete and include **Appendix H - SDB/SB Letter of Intent.** Offeror must provide a Letter of Intent for each SDB and SB listed on the SDB/SB Participation Submittal Form

The Issuing Office reserves the right to request additional information which, in the Issuing Office's opinion, is necessary to assure that the Offeror's competence, number of qualified employees, business organization, and financial resources are adequate to perform according to the RFP.

The Issuing Office may make investigations as deemed necessary to determine the ability of the Offeror to perform the Project, and the Offeror shall furnish to the Issuing Office all requested information and data. The Issuing Office reserves the right to reject any proposal if the evidence submitted by, or investigation of, such Offeror fails to satisfy the Issuing Office that such Offeror is properly qualified to carry out the obligations of the RFP and to complete the Project as specified.

- I-13. Economy of Preparation.** Offerors should prepare proposals simply and economically, providing a straightforward, concise description of the Offeror's ability to meet the requirements of the RFP.
- I-14. Alternate Proposals.** The Issuing Office has identified the basic approach to meeting its requirements, allowing Offerors to be creative and propose their best solution to meeting these requirements. The Issuing Office will not accept alternate proposals.
- I-15. Discussions for Clarification.** Offerors may be required to make an oral or written clarification of their proposals to the Issuing Office to ensure thorough mutual understanding and Offeror responsiveness to the solicitation requirements. The Issuing Office will initiate requests for clarification. Clarifications may occur at any stage of the evaluation and selection process prior to contract execution.
- I-16. Prime Contractor Responsibilities.** The contract will require the selected Offeror to assume responsibility for all services offered in its proposal whether it produces them itself or by subcontract. Further, the Issuing Office will consider the selected Offeror to be the sole point of contact with regard to contractual matters.
- I-17. Proposal Contents.**
 - A. Confidential Information.** The Commonwealth is not requesting, and does not require, confidential proprietary information or trade secrets to be included as part of Offerors' submissions in order to evaluate proposals submitted in response to this RFP. Accordingly, except as provided herein, Offerors should not label proposal submissions as confidential or proprietary or trade secret protected. Any Offeror who determines that it must divulge such information as part of its proposal must submit the signed written statement described in subsection c. below and must additionally provide a redacted version of its proposal on CD, which removes only the confidential proprietary information and trade secrets, for required public disclosure purposes. The CD should clearly identify the Offeror, note that it is a redacted copy and include the name and version number of the virus scanning software used to scan the CD before it was submitted. *If a written statement and redacted version of the proposal is not submitted at the time of the proposal submission, the proposal will be subject to release as submitted with only the financial capability redacted.*

- B. Commonwealth Use.** All material submitted with the proposal shall be considered the property of the Commonwealth of Pennsylvania and may be returned only at the Issuing Office's option. The Commonwealth has the right to use any or all ideas not protected by intellectual property rights that are presented in any proposal regardless of whether the proposal becomes part of a contract. Notwithstanding any Offeror copyright designations contained on proposals, the Commonwealth shall have the right to make copies and distribute proposals internally and to comply with public record or other disclosure requirements under the provisions of any Commonwealth or United States statute or regulation, or rule or order of any court of competent jurisdiction.
- C. Public Disclosure.** After the award of a contract pursuant to this RFP, all proposal submissions are subject to disclosure in response to a request for public records made under the Pennsylvania Right-to-Know-Law, 65 P.S. § 67.101, et seq. If a proposal submission contains confidential proprietary information or trade secrets, a signed written statement to this effect must be provided with the submission in accordance with 65 P.S. § 67.707(b) for the information to be considered exempt under 65 P.S. § 67.708(b)(11) from public records requests. Refer to **Appendix E** of the RFP for a **Trade Secret Confidential Proprietary Information Notice Form** that may be utilized as the signed written statement, if applicable. If financial capability information is submitted in response to **Part II** of this RFP such financial capability information is exempt from public records disclosure under 65 P.S. § 67.708(b)(26).

I-18. Best and Final Offers.

- A.** While not required, the Issuing Office reserves the right to conduct discussions with Offerors for the purpose of obtaining "best and final offers." To obtain best and final offers from Offerors, the Issuing Office may do one or more of the following, in any combination and order:
1. Schedule oral presentations;
 2. Request revised proposals;
 3. Conduct a reverse online auction; and
 4. Enter into pre-selection negotiations.
- B.** The following Offerors will **not** be invited by the Issuing Office to submit a Best and Final Offer:
1. Those Offerors, which the Issuing Office has determined to be not responsible or whose proposals the Issuing Office has determined to be not responsive.
 2. Those Offerors, which the Issuing Office has determined in accordance with **Part II, Section II-5**, from the submitted and gathered financial and other information, do not possess the financial capability, experience or qualifications to assure good faith performance of the contract.

3. Those Offerors whose score for their technical submittal of the proposal is less than 70% of the total amount of technical points allotted to the technical criterion.

The issuing office may further limit participation in the best and final offers process to those remaining responsible offerors which the Issuing Office has, within its discretion, determined to be within the top competitive range of responsive proposals.

- C. The Evaluation Criteria found in **Part II, Section II-4**, shall also be used to evaluate the Best and Final offers.
 - D. Price reductions offered through any reverse online auction shall have no effect upon the Offeror's Technical Submittal.
 - E. Any reduction to commitments to Small Diverse Businesses and Small Businesses must be proportional to the reduction in the total price offered through any BAFO process or contract negotiations unless approved by BDISBO.
- I-19. **News Releases.** Offerors shall not issue news releases, Internet postings, advertisements or any other public communications pertaining to this Project without prior written approval of the Issuing Office, and then only in coordination with the Issuing Office.
 - I-20. **Restriction of Contact.** From the issue date of this RFP until the Issuing Office selects a proposal for award, the Issuing Officer is the sole point of contact concerning this RFP. Any violation of this condition may be cause for the Issuing Office to reject the offending Offeror's proposal. If the Issuing Office later discovers that the Offeror has engaged in any violations of this condition, the Issuing Office may reject the offending Offeror's proposal or rescind its contract award. Offerors must agree not to distribute any part of their proposals beyond the Issuing Office. An Offeror who shares information contained in its proposal with other Commonwealth personnel and/or competing Offeror personnel may be disqualified.
 - I-21. **Issuing Office Participation.** Offerors shall provide all services, supplies, facilities, and other support necessary to complete the identified work, except as otherwise provided in this **Part I, Section I-21**.
 - I-22. **Term of Contract.** The term of the contract will commence on the Effective Date and will end five years after the Effective Date. The Issuing Office will fix the Effective Date after the contract has been fully executed by the selected Offeror and by the Commonwealth and all approvals required by Commonwealth contracting procedures have been obtained. The selected Offeror shall not start the performance of any work prior to the Effective Date of the contract and the Commonwealth shall not be liable to pay the selected Offeror for any service or work performed or expenses incurred before the Effective Date of the contract.
 - I-23. **Offeror's Representations and Authorizations.** By submitting its proposal, each Offeror understands, represents, and acknowledges that:

- A.** All of the Offeror's information and representations in the proposal are material and important, and the Issuing Office may rely upon the contents of the proposal in awarding the contract(s). The Commonwealth shall treat any misstatement, omission or misrepresentation as fraudulent concealment of the true facts relating to the Proposal submission, punishable pursuant to 18 Pa. C.S. § 4904.
- B.** The Offeror has arrived at the price(s) and amounts in its proposal independently and without consultation, communication, or agreement with any other Offeror or potential offeror.
- C.** The Offeror has not disclosed the price(s), the amount of the proposal, nor the approximate price(s) or amount(s) of its proposal to any other firm or person who is an Offeror or potential offeror for this RFP, and the Offeror shall not disclose any of these items on or before the proposal submission deadline specified in the Calendar of Events of this RFP.
- D.** The Offeror has not attempted, nor will it attempt, to induce any firm or person to refrain from submitting a proposal on this contract, or to submit a proposal higher than this proposal, or to submit any intentionally high or noncompetitive proposal or other form of complementary proposal.
- E.** The Offeror makes its proposal in good faith and not pursuant to any agreement or discussion with, or inducement from, any firm or person to submit a complementary or other noncompetitive proposal.
- F.** To the best knowledge of the person signing the proposal for the Offeror, the Offeror, its affiliates, subsidiaries, officers, directors, and employees are not currently under investigation by any governmental agency and have not in the last **four** years been convicted or found liable for any act prohibited by State or Federal law in any jurisdiction, involving conspiracy or collusion with respect to bidding or proposing on any public contract, except as the Offeror has disclosed in its proposal.
- G.** To the best of the knowledge of the person signing the proposal for the Offeror and except as the Offeror has otherwise disclosed in its proposal, the Offeror has no outstanding, delinquent obligations to the Commonwealth including, but not limited to, any state tax liability not being contested on appeal or other obligation of the Offeror that is owed to the Commonwealth.
- H.** The Offeror is not currently under suspension or debarment by the Commonwealth, any other state or the federal government, and if the Offeror cannot so certify, then it shall submit along with its proposal a written explanation of why it cannot make such certification.
- I.** The Offeror has not made, under separate contract with the Issuing Office, any recommendations to the Issuing Office concerning the need for the services described in its proposal or the specifications for the services described in the proposal.

- J.** Each Offeror, by submitting its proposal, authorizes Commonwealth agencies to release to the Commonwealth information concerning the Offeror's Pennsylvania taxes, unemployment compensation and workers' compensation liabilities.
- K.** Until the selected Offeror receives a fully executed and approved written contract from the Issuing Office, there is no legal and valid contract, in law or in equity, and the Offeror shall not begin to perform.
- L.** The Offeror is not currently engaged, and will not during the duration of the contract engage, in a boycott of a person or an entity based in or doing business with a jurisdiction which the Commonwealth is not prohibited by Congressional statute from engaging in trade or commerce.

I-24. Notification of Selection.

- A. Contract Negotiations.** The Issuing Office will notify all Offerors in writing of the Offeror selected for contract negotiations after the Issuing Office has determined, taking into consideration all of the evaluation factors, the proposal that is the most advantageous to the Issuing Office.
- B. Award.** Offerors whose proposals are not selected will be notified when contract negotiations have been successfully completed and the Issuing Office has received the final negotiated contract signed by the selected Offeror.

I-25. Debriefing Conferences. Upon notification of award, Offerors whose proposals were not selected will be given the opportunity to be debriefed. The Issuing Office will schedule the debriefing at a mutually agreeable time. The debriefing will not compare the Offeror with other Offerors, other than the position of the Offeror's proposal in relation to all other Offeror proposals. An Offeror's exercise of the opportunity to be debriefed does not constitute nor toll the time for filing a protest (See Section I-27 of this RFP).

I-26. RFP Protest Procedure. The RFP Protest Procedure is on the DGS website at <http://www.dgs.pa.gov/Documents/Procurement%20Forms/Handbook/Pt1/Pt%20I%20Ch%2058%20Bid%20Protests.pdf>. A protest by a party that has not or has not yet submitted a proposal must be filed no later than the proposal submission deadline specified in the Calendar of Events of the RFP. Offerors may file a protest within **seven** days after the protesting Offeror knew or should have known of the facts giving rise to the protest, but in no event may an Offeror file a protest later than **seven** days after the date the notice of award of the contract is posted on the DGS website. The date of filing is the date of receipt of the protest. A protest must be filed in writing with the Issuing Office. To be timely, the protest must be received by 4:00 p.m. on the seventh day.

I-27. Use of Electronic Versions of this RFP. This RFP is being made available by electronic means. If an Offeror electronically accepts the RFP, the Offeror acknowledges and accepts full responsibility to insure that no changes are made to the RFP. In the event of a conflict between a version of the RFP in the Offeror's possession and the Issuing Office's version of the RFP, the Issuing Office's version shall govern.

PART II

CRITERIA FOR SELECTION

- II-1. Mandatory Responsiveness Requirements.** To be eligible for selection, a proposal must be:
- A. Timely received from an Offeror; (see Part I, Section I-11);
 - B. Properly signed by the Offeror (see Part I, Section I-12A); and
 - C. Meet all of the Mandatory Minimum Qualifications outlined in Section III-3.
- II-2. Technical Nonconforming Proposals.** The three (3) Mandatory Responsiveness Requirements set forth in **Section II-1** above (A through C) are the only RFP requirements that the Commonwealth will consider to be *non-waivable*. The Issuing Office reserves the right, in its sole discretion, to (1) waive any other technical or immaterial nonconformities in an Offeror's proposal, (2) allow the Offeror to cure the nonconformity, or (3) consider the nonconformity in the scoring of the Offeror's proposal.
- II-3. Evaluation.** The Issuing Office has selected a committee of qualified personnel to review and evaluate timely submitted proposals. Independent of the committee, BDISBO will evaluate the Small Diverse Business and Small Business Participation Submittal and provide the Issuing Office with a rating for this component of each proposal. The Issuing Office will notify in writing of its selection for negotiation the responsible Offeror whose proposal is determined to be the most advantageous to the Commonwealth as determined by the Issuing Office after taking into consideration all of the evaluation factors.
- II-4. Evaluation Criteria.** The following criteria will be used in evaluating each proposal:
- A. **Technical:** The Issuing Office has established the weight for the Technical criterion for this RFP as **60%** of the total points. Evaluation will be based upon the following in order of importance: **Soundness of Approach, Personnel Qualifications and Offeror Qualifications.** The final Technical scores are determined by giving the maximum number of technical points available to the proposal with the highest raw technical score. The remaining proposals are rated by applying the Technical Scoring Formula set forth at the following webpage: <http://www.dgs.pa.gov/Businesses/Materials%20and%20Services%20Procurement/Procurement-Resources/Pages/default.aspx>.
 - B. **Cost:** The Issuing Office has established the weight for the Cost criterion for this RFP as **20%** of the total points. The cost criterion is rated by giving the proposal with the lowest total cost the maximum number of Cost points available. The remaining proposals are rated by applying the Cost Formula set forth at the following webpage: <http://www.dgs.pa.gov/Businesses/Materials%20and%20Services%20Procurement/Procurement-Resources/Pages/default.aspx>.

C. Small Diverse Business and Small Business Participation: BDISBO has established the minimum evaluation weight for the Small Diverse Business and Small Business Participation criterion for this RFP as 20% of the total points.

1. The Small Diverse and Small Business point allocation is based entirely on the percentage of the contract cost committed to Small Diverse Businesses and Small Businesses.
2. A total combined SDB/SB commitment less than one percent (1%) of the total contract cost is considered de minimis and will receive no Small Diverse Business or Small Business points.
3. Two thirds (2/3) of the total points are allocated to Small Diverse Business participation

(SDB %).
4. One third (1/3) of the total points is allocated to Small Business participation (SB %).
5. Based on a maximum total of 200 available points for the Small Diverse Business and Small Business Participation Submittal, the scoring mechanism is as follows:

Small Diverse Business and Small Business Raw Score =

$$200 (\text{SDB}\% + (1/3 * \text{SB } \%))$$

6. Each Offeror's raw score will be pro-rated against the Highest Offeror's raw score by applying the formula set forth on the following webpage:
http://www.dgs.pa.gov/Businesses/Materials%20and%20Services%20Procurement/Procurement-Resources/Pages/RFP_SCORING_FORMULA.aspx.
7. The Offeror's prior performance in meeting its contractual obligations to Small Diverse Businesses and Small Businesses will be considered by BDISBO during the scoring process. To the extent the Offeror has failed to meet prior contractual commitments, BDISBO may recommend to the Issuing Office that the Offeror be determined non-responsible for the limited purpose of eligibility to receive Small Diverse Business and Small Business points.

D. Domestic Workforce Utilization: Any points received for the Domestic Workforce Utilization criterion are bonus points in addition to the total points for this RFP. The maximum amount of bonus points available for this criterion is 3% of the total points for this RFP.

To the extent permitted by the laws and treaties of the United States, each proposal will be scored for its commitment to use domestic workforce in the fulfillment of the contract. Maximum consideration will be given to those Offerors who will perform the contracted direct labor exclusively within the geographical boundaries of the United States or within the geographical boundaries of a country that is a party to the World Trade Organization Government Procurement Agreement. Those who propose to perform a portion of the direct labor outside of the United States and not within the geographical boundaries of a party to the World Trade Organization Government Procurement Agreement will receive a correspondingly smaller score for this criterion. See the following webpage for the Domestic Workforce Utilization Formula:

<http://www.dgs.pa.gov/Businesses/Materials%20and%20Services%20Procurement/Procurement-Resources/Pages/default.aspx>.

- E. Iran Free Procurement Certification and Disclosure.** Prior to entering a contract worth at least \$1,000,000 or more with a Commonwealth entity, an offeror must: a) certify it is not on the current list of persons engaged in investment activities in Iran created by the Pennsylvania Department of General Services (“DGS”) pursuant to Section 3503 of the Procurement Code and is eligible to contract with the Commonwealth under Sections 3501-3506 of the Procurement Code; or b) demonstrate it has received an exception from the certification requirement for that solicitation or contract pursuant to Section 3503(e). All offerors must complete and return the Iran Free Procurement Certification form, (**Appendix D, Iran Free Procurement Certification Form**), which is attached hereto and made part of this RFP. The completed and signed Iran Free Procurement Certification form must be submitted as part of the Technical Submittal.

See the following web page for current Iran Free Procurement list:

<http://www.dgs.pa.gov/businesses/materials%20and%20services%20procurement/procurement-resources/pages/default.aspx#.WDNfJJgo6Ht>

- II-5. Offeror Responsibility.** To be responsible, an Offeror must submit a responsive proposal and possess the capability to fully perform the contract requirements in all respects and the integrity and reliability to assure good faith performance of the contract.

In order for an Offeror to be considered responsible for this RFP and therefore eligible for selection for best and final offers or selection for contract negotiations:

- A.** The total score for the technical submittal of the Offeror’s proposal must be greater than or equal to **70%** of the **available technical points**; and
- B.** The Offeror’s financial information must demonstrate that the Offeror possesses the financial capability to assure good faith performance of the contract. The Issuing Office will review the Offeror’s previous three financial statements, any additional information received from the Offeror, and any other publicly-available financial information concerning the Offeror, and assess each Offeror’s financial capacity based on calculating and analyzing various financial ratios, and comparison with

industry standards and trends.

An Offeror which fails to demonstrate sufficient financial capability to assure good faith performance of the contract as specified herein may be considered by the Issuing Office, in its sole discretion, for Best and Final Offers or contract negotiation contingent upon such Offeror providing contract performance security for the first contract year cost proposed by the Offeror in a form acceptable to the Issuing Office. Based on the financial condition of the Offeror, the Issuing Office may require a certified or bank (cashier's) check, letter of credit, or a performance bond conditioned upon the faithful performance of the contract by the Offeror. The required performance security must be issued or executed by a bank or surety company authorized to do business in the Commonwealth. The cost of the required performance security will be the sole responsibility of the Offeror and cannot increase the Offeror's cost proposal or the contract cost to the Commonwealth.

Further, the Issuing Office will award a contract only to an Offeror determined to be responsible in accordance with the most current version of Commonwealth Management Directive 215.9, Contractor Responsibility Program.

II-6. Final Ranking and Award.

- A.** After any best and final offer process conducted, the Issuing Office will combine the evaluation committee's final technical scores, BDISBO's final Small Diverse Business Participation scores, the final cost scores, and (when applicable) the domestic workforce utilization scores, in accordance with the relative weights assigned to these areas as set forth in this Part.
- B.** The Issuing Office will rank responsible offerors according to the total overall score assigned to each, in descending order.
- C.** The Issuing Office must select for contract negotiations the offeror with the highest overall score.
- D.** The Issuing Office has the discretion to reject all proposals or cancel the request for proposals, at any time prior to the time a contract is fully executed, when it is in the best interests of the Commonwealth. The reasons for the rejection or cancellation shall be made part of the contract file.

PART III

TECHNICAL SUBMITTAL

Work Statement

The Commonwealth of Pennsylvania, Public School Employees' Retirement System (PSERS) is the administrator of a cost-sharing multiple-employer defined benefit retirement system established by the Commonwealth of Pennsylvania to provide pension benefits for employees of the public school system in the Commonwealth. PSERS' funding policy provides for periodic member contributions at statutory rates and periodic employer contributions at actuarially determined rates that are sufficient to accumulate assets to pay defined benefits when due. As provided by statute, the PSERS' Board of Trustees (Board) has exclusive control and management responsibility of PSERS' fund (Fund) and full power to invest the Fund. In exercising its fiduciary responsibility to PSERS' membership, the Board is governed by the "prudent investor" rule and has adopted an investment policy statement to formally document investment objectives and responsibilities. This policy, as well as applicable state law, defines permissible investments for PSERS. The Investment Policy Statement, Objectives, and Guidelines can be obtained on the internet at <http://www.psers.pa.gov/About/Investment/Pages/Guide.aspx>.

The market value of PSERS's net assets totaled approximately \$50 billion as of December 31, 2016. Based on this valuation of its assets, PSERS is the 14th largest defined benefit public pension fund in the nation. A copy of the Fund's most recent comprehensive annual financial report can be obtained on the internet at <http://www.psers.pa.gov> under the Publications section. PSERS' Private Equity, Venture Capital and Special Situations portfolio represents approximately 16% of total plan assets, including approximately \$8.0 billion NAV and approximately \$4.0 billion of unfunded commitments; invested across 77 managers. PSERS' Private High Yield portfolio represents approximately 8% of total plan assets, including approximately \$4.0 billion NAV and approximately \$2.5 billion of unfunded commitments; invested across 15 managers. PSERS' Co-Investment portfolio represents approximately 1% of total plan assets, including approximately \$459 million NAV and approximately \$75 million of unfunded commitments, invested across 37 investments. The primary investment objective for PSERS' private markets portfolio is to achieve superior risk-adjusted returns relative to the traditional public markets. The Board is seeking investment consulting and performance measurement services for its private markets investments to fulfill its fiduciary duties with respect to PSERS.

- A.** Offerors must indicate their status as a Small Diverse Business and as a Small Business through selection of the appropriate checkboxes.

V-3. Contract Requirements—Small Diverse Business and Small Business Participation.

All contracts containing Small Diverse Business and Small Business Participation must contain the following contract provisions to be maintained through the initial contract term and any subsequent options or renewals:

- A. Each Small Diverse Business and Small Business commitment which was credited by BDISBO and the total percentage of such Small Diverse Business and Small Business commitments made at the time of proposal submittal, BAFO or contract negotiations, as applicable, become contractual obligations of the selected Offeror upon execution of its contract with the Commonwealth.
- B. All Small Diverse Business and Small Business subcontractors credited by BDISBO must perform at least 50% of the work subcontracted to them.
- C. The individual percentage commitments made to Small Diverse Businesses and Small Businesses cannot be altered without written approval from BDISBO.
- D. Small Diverse Business and Small Business commitments must be maintained in the event the contract is assigned to another prime contractor.

- E.** The selected Offeror and each Small Diverse Business and Small Business for which a commitment was credited by BDISBO must submit a final, definitive subcontract agreement signed by the selected Offeror and the Small Diverse Business and/or Small Business to BDISBO within 30 days of the final execution date of the Commonwealth contract. A Model Subcontract Agreement which may be used to satisfy this requirement is provided in **Appendix I – Model Form of Small Diverse and Small Business Subcontract Agreement**. The subcontract must contain:
1. The specific work, supplies or services the Small Diverse Business and/or Small Business will perform; location for work performed; how the work, supplies or services relate to the project; and the specific timeframe during the initial term and any extensions, options and renewals of the prime contract when the work, supplies or services will be provided or performed.
 2. The fixed percentage commitment and associated estimated dollar value that each Small Diverse Business and/or Small Business will receive based on the final negotiated cost for the initial term of the prime contract.
 3. Payment terms indicating that the Small Diverse Business and/or Small Business will be paid for work satisfactorily completed within 14 days of the selected Offeror's receipt of payment from the Commonwealth for such work.
 4. Commercially reasonable terms for the applicable business/industry that are no less favorable than the terms of the selected Offeror's contract with the Commonwealth and that do not place disproportionate risk on the Small Diverse Business and/or Small Business relative to the nature and level of the Small Diverse Business' and/or Small Business' participation in the project.
- F.** If the selected Offeror and a Small Diverse Business or Small Business credited by BDISBO cannot agree upon a definitive subcontract within 30 days of the final execution date of the Commonwealth contract, the selected Offeror must notify BDISBO.
- G.** The Selected Offeror shall complete the Prime Contractor's Quarterly Utilization Report and submit it to the contracting officer of the Issuing Office and BDISBO within ten (10) business days at the end of each quarter of the contract term and any subsequent options or renewals. This information will be used to track and confirm the actual dollar amount paid to Small Diverse Business and Small Business subcontractors and suppliers and will serve as a record of fulfillment of the contractual commitment. If there was no activity during the quarter, the form must be completed by stating "No activity in this quarter." A late fee of \$100.00 per day may be assessed against the Selected Offeror if the Utilization Report is not submitted in accordance with the schedule above.
- H.** The Selected Offeror shall notify the Contracting Officer of the Issuing Office and BDISBO when circumstances arise that may negatively impact the selected Offeror's ability to comply with Small Diverse Business and/or Small Business commitments and

to provide a corrective action plan. Disputes will be decided by the Issuing Office and DGS.

- I.** If the Selected Offeror fails to satisfy its Small Diverse Business and/or Small Business commitment(s), it may be subject to a range of sanctions BDISBO deems appropriate. Such sanctions include, but are not limited to, one or more of the following: a determination that the selected Offeror is not responsible under the Contractor Responsibility Program; withholding of payments; suspension or termination of the contract together with consequential damages; revocation of the selected Offeror's Small Diverse Business status and/or Small Business status; and/or suspension or debarment from future contracting opportunities with the Commonwealth.

SAMPLE RIDER INCLUDING TERMS AND CONDITIONS

RIDER __

TERMS AND CONDITIONS

The following terms and conditions shall apply at all times to the provision of private markets investment consulting services by _____ (“CONSULTANT”) pursuant to any purchase order:

1. Reimbursement of Travel Expenses. CONSULTANT shall reimburse PSERS for the reasonable travel expenses actually incurred by PSERS, if any, for each contract year (i) for travel to CONSULTANT’s location for due diligence and/or to discuss performance results, economic outlook, investment strategy, organization changes and other pertinent matters and (ii) to attend investment conferences, training, seminars or similar events sponsored by CONSULTANT. Reimbursable expenses shall include airfare, automobile rental, lodging, meals, advisor-sponsored meeting registration fees, and other travel-related expenses at maximum allowance rates established by the Commonwealth Management Directive 230.10 as revised, Travel and Subsistence Allowances. The reimbursable expenses for each of (i) or (ii), above, shall not exceed \$10,000 per calendar year. PSERS shall submit a properly documented claim for reimbursement of such travel expenses, which CONSULTANT shall pay within 30 days after receipt.

2. Compensation. The CONSULTANT’S compensation for performing services shall be at a fixed rate per year, billed quarterly in arrears.

3. Indemnification. The CONSULTANT shall hold and save harmless the Commonwealth of Pennsylvania, PSERS, the Public School Employees’ Retirement Board collectively and its members and their designees individually (together, the “Board”) and the Fund, their beneficiaries, directors, officers, agents, and employees, from and against claims, demands, actions, or liability of any nature, including attorneys' fees and court costs, based upon or arising out of any services performed, or the failure to perform services by the CONSULTANT, its directors, officers, employees, and agents under the Purchase Order taken together with any attachments thereto including this Rider (this “Agreement”). The CONSULTANT shall, at the request of PSERS, defend at CONSULTANT’s expense actions brought against the Commonwealth of Pennsylvania, PSERS, the Board and/or the Fund, based upon any such claims or demands, and the costs of such defense shall be borne by the CONSULTANT and shall not constitute any expense of, nor shall be paid out of, Fund, Board or Commonwealth of Pennsylvania assets.

4. Unauthorized Liabilities. The CONSULTANT shall not enter into any agreement by or on behalf of PSERS that (i) is binding on PSERS or allows, either expressly or by operation of law, recourse to PSERS and (ii) creates any actual or potential liability on the part of PSERS that exceeds the scope of authority delegated to the CONSULTANT under this Agreement or (iii) waives any of PSERS’ rights, defenses, causes or action, or immunities.

Liabilities that are not authorized by PSERS and prohibited by this section include, without limitation, any obligation on the part of PSERS to indemnify a third party or to pay attorney fees, legal expenses, penalties, or liquidated damages.

5. Standard of Care. The CONSULTANT shall perform investment consulting and administrative services under this Agreement subject to the exercise of that degree of judgment and care under the circumstances then prevailing which persons of prudence, discretion, and intelligence who are experts in such matters exercise in the management of like matters, not in regard to speculation but in regard to the permanent disposition of the Fund, considering the probable income to be derived therefrom as well as the probable safety of the invested capital. The CONSULTANT acknowledges that it is a “fiduciary” with respect to PSERS and the Fund as that term is defined in the Employee Retirement Income Security Act of 1974 (ERISA), regardless of the applicability of ERISA to this Agreement.

6. The CONSULTANT’s Insurance. The CONSULTANT shall maintain during any period in which it is providing services a policy of errors and omissions insurance for the protection of the Fund, with a limit of liability of at least \$5,000,000, to cover the CONSULTANT, its officers, and its affiliates to the extent any affiliate performs services under this Agreement. Unless otherwise approved by PSERS, the maximum deductible on the errors and omissions policy shall be no greater than \$1,000,000. The CONSULTANT shall submit copies of the actual policies of said insurance as directed by PSERS, and PSERS shall cause to be issued a written determination on compliance. CONSULTANT shall thereafter maintain annual filings of current certificates of insurance with PSERS. If the CONSULTANT changes insurance carriers for insurance required hereunder, CONSULTANT shall submit copies of the actual policies of said insurance as directed by PSERS. The errors and omissions policy shall contain a provision or endorsement that coverage afforded thereunder shall not be canceled or changed until the underwriter has furnished PSERS at least 30 days’ prior written notice of any cancellation or change. PSERS may, in its discretion, require such changes with respect to insurance coverage as it deems appropriate for the protection of the Fund by giving written notice of such changes to the CONSULTANT at least 30 days in advance of the effective date for such changes.

7. Registration. The CONSULTANT represents and confirms that it is duly registered and in good standing as an investment advisor under the Investment Advisers Act of 1940 or is exempt therefrom (and will maintain such registration or exemption). If registered pursuant to said Act, the CONSULTANT has furnished to PSERS Part II of the Consultant’s current Form ADV filed with the Securities and Exchange Commission pursuant to Section 203(c) of the Investment Advisers Act of 1940. PSERS hereby acknowledges having received a copy of Part II of the Consultant’s Form ADV.

8. The CONSULTANT as an Independent Contractor. The CONSULTANT shall perform its services as an independent contractor, and CONSULTANT acknowledges that it maintains Workers’ Compensation Insurance and shall accept full responsibility for the payments of premiums for Workers’ Compensation Insurance and Social Security, as well as all income tax deductions and other taxes or payroll deductions required by law for itself for performing services.

9. Changes in the CONSULTANT’s Status. The CONSULTANT shall provide

immediate written notice to PSERS of any change in the Consultant's status, including, without limitation, change in directors, officers, or employees who consult on PSERS' account; modification of the business organization; material change in SEC or other government or private registration, accreditation, or licensing; material deterioration of financial condition including but not limited to the filing of petition in bankruptcy; the Consultant's awareness that its representations and warranties herein cease to be true; and litigation alleging the Consultant's negligence or fraud.

10. Conflict of Interest. The CONSULTANT covenants that it presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of its services hereunder. CONSULTANT further covenants that, in the performance of this Agreement, it will not knowingly engage any other person having such interest.

11. Assignment or Transfer. No interest herein, nor any claim arising hereunder shall be transferred or assigned by either party to any other party or parties.

12. Reporting Political Contributions. The CONSULTANT (i) understands and acknowledges that it is subject to the reporting requirements set forth in 25 P.S. § 3260a., (ii) if required to file a report, confirms that it has submitted to PSERS' Executive Director a copy of its current report to the Secretary of the Commonwealth of Pennsylvania, and (iii) hereby agrees, if required to file a report, to submit a copy of each successive report to PSERS' Executive Director by February 15 of each year during the term of this Agreement. CONSULTANT further agrees that for each year in which CONSULTANT is not required to file a report, it will submit a letter to PSERS' Executive Director by February 15 confirming that CONSULTANT is not required to file a report for the year.

13. Contracting Officer. The Contracting Officer on behalf of PSERS shall be PSERS' Executive Director.

14. Termination. The performance of services may be terminated by PSERS in whole or, from time to time, in part, whenever for any reason the Contracting Officer shall determine that such termination is in the best interest of PSERS. Any such termination shall be effected by delivery to the CONSULTANT of a written notice of termination specifying the extent to which performance of the work under the contract is terminated and the date on which such termination becomes effective. In the event of termination, fees for services shall be prorated and paid or repaid. Such termination shall not relieve CONSULTANT of any liability that may be incurred for its activities in connection with the providing of services.

15. Confidentiality. The CONSULTANT shall not publish or otherwise disclose, except to PSERS and except matters of public record, any information or data obtained hereunder from private individuals, organizations, or public agencies, in a publication whereby the information or data furnished by or about any particular person or establishment can be identified as relating to PSERS or its responsibilities, except with the consent of such person or establishment.

16. Ownership of Reports, etc. The CONSULTANT agrees that any specific plans, material, records, etc., developed during the performance of services remain the

property of PSERS, and reproduction or duplication of such materials may be done only with the approval of the Contracting Officer.

17. Maintenance, Preservation, and Review of Records. CONSULTANT shall maintain such records, books, and accounts pertaining to services and payments hereunder in accordance with generally accepted accounting principles consistently applied. All such records, books, and accounts shall be maintained and preserved during the term of this Agreement and any extension thereof and for four years thereafter. During such period, PSERS, or any other department or representative of the Commonwealth of Pennsylvania, from time to time upon reasonable notice, shall have the right to inspect, duplicate, and audit such records, books and accounts for all purposes authorized and permitted by law. CONSULTANT may preserve such records, books, and accounts in original form or on microfilm, magnetic tape, or any other generally recognized and accepted process.

18. Notices. Any notice, demand, direction, instruction, or other communication required or permitted hereunder shall be confirmed in writing and shall be sufficiently given for all purposes when sent (a) by certified or registered U.S. mail, postage prepaid, (b) by a nationally recognized courier service that maintains verification of actual delivery, (c) by facsimile, with a copy sent by first class U.S. mail (provided that if the date of dispatch is not a working day, the facsimile shall be deemed to have been received at the opening of business of the addressee on the next working day), or (d) by delivering the same in person to any party at the following addresses or such other addresses as may be designated in writing from time to time by the parties:

The Parties shall give full and free access to all such records to the Commonwealth and/or its authorized representatives.

(a) The Parties will attempt to resolve any dispute arising out of or relating to this Subcontract through friendly negotiations.

(1) The Parties expressly acknowledge and confer upon the Bureau and Contracting Officer the authority to adjudicate disputes that the Parties cannot resolve amicably concerning the Parties' compliance with their Small Diverse Business and Small Business Commitments as provided in the Prime Contract and this Subcontract.

(b) Nothing herein shall be construed to prevent either party from seeking such relief as provided by law in a court or tribunal of competent jurisdiction.

18. Notices. No failure or delay to exercise any right by a party upon another's default shall prevent that party from later exercising that right, nor shall such failure or delay operate as a waiver of any default.

20. Severability. If any provision of this Subcontract shall be held to be invalid or unenforceable for any reason, the remaining provisions shall continue to be valid and enforceable. If a court finds that any provision of this Subcontract is invalid or unenforceable, but that by limiting such provision it would become valid and enforceable, then such provision shall be deemed to be written, construed, and enforced as so limited.

21. Assignment. Neither party may assign or transfer this Subcontract without the prior written consent of the Commonwealth. If Contractor's Prime Contract with the Commonwealth is assigned to another contractor, the new contractor must maintain the Small Diverse Business and Small Business Commitment set forth in the Prime Contract as implemented through this Subcontract.

Commonwealth of Pennsylvania Public School Employees' Retirement System (PSERS)

Request for Proposal for Private Markets Investment
Consulting Services

April 2017

PART III TECHNICAL SUBMITTAL

Work Statement

The Commonwealth of Pennsylvania, Public School Employees' Retirement System (PSERS) is the administrator of a cost-sharing multiple-employer defined benefit retirement system established by the Commonwealth of Pennsylvania to provide pension benefits for employees of the public school system in the Commonwealth. PSERS' funding policy provides for periodic member contributions at statutory rates and periodic employer contributions at actuarially determined rates that are sufficient to accumulate assets to pay defined benefits when due. As provided by statute, the PSERS' Board of Trustees (Board) has exclusive control and management responsibility of PSERS' fund (Fund) and full power to invest the Fund. In exercising its fiduciary responsibility to PSERS' membership, the Board is governed by the "prudent investor" rule and has adopted an investment policy statement to formally document investment objectives and responsibilities. This policy, as well as applicable state law, defines permissible investments for PSERS. The Investment Policy Statement, Objectives, and Guidelines can be obtained on the internet at <http://www.psers.pa.gov/About/Investment/Pages/Guide.aspx>.

The market value of PSERS's net assets totaled approximately \$50 billion as of December 31, 2016. Based on this valuation of its assets, PSERS is the 14th largest defined benefit public pension fund in the nation. A copy of the Fund's most recent comprehensive annual financial report can be obtained on the internet at <http://www.psers.pa.gov> under the Publications section. PSERS' Private Equity, Venture Capital and Special Situations portfolio represents approximately 16% of total plan assets, including approximately \$8.0 billion NAV and approximately \$4.0 billion of unfunded commitments; invested across 77 managers. PSERS' Private High Yield portfolio represents approximately 8% of total plan assets, including approximately \$4.0 billion NAV and approximately \$2.5 billion of unfunded commitments; invested across 15 managers. PSERS' Co-Investment portfolio represents approximately 1% of total plan assets, including approximately \$459 million NAV and approximately \$75 million of unfunded commitments, invested across 37 investments. The primary investment objective for PSERS' private markets portfolio is to achieve superior risk-adjusted returns relative to the traditional public markets. The Board is seeking investment consulting and performance measurement services for its private markets investments to fulfill its fiduciary duties with respect to PSERS.

III-1. Requested Services. The contractor will provide non-discretionary private markets investment consulting and/or performance measurement services for the period August 8, 2017 thru August 7, 2022. The contractor will serve in a fiduciary capacity and will acknowledge in writing the contractor's fiduciary status, without qualification. In all cases, the private markets consultant and its staff will offer its advice to the Board in conformity with the Board's policies, and in the interest of the PSERS' participants and beneficiaries. The requested services include:

A. Private markets Consulting Services:

- 1. The consultant will review private markets investment objectives, policies, and asset allocation and will make recommendations on private markets investment objectives, policies, and asset allocation changes, if any, by September 1, 2017.**

Hamilton Lane is able to review PSERS' private markets investment objectives, policies, and asset allocation and will make recommendations on private markets investment objectives, policies, and asset allocation changes by September 1, 2017.

As we begin a relationship with a new client, we approach portfolio development by first thoroughly understanding the client's investment objectives, risk profile, fit within the broader portfolio and other sensitivities (tax, legal, social, etc.). We then overlay that

information with our perspective on the private markets, as well as our views on the macroeconomic environment. Lastly, we factor in current availability of investment opportunities on a global basis. Aggregating this information, Hamilton Lane constructs a strategic plan that serves as our roadmap for the creation of the portfolio. The Strategic Planning process is described in more detail in [Section III-6, B, Questions 1 & 2](#).

- 2. The consultant will prepare a written annual, three- and ten-year investment plan by February 1 of each calendar year for PSERS' private markets program.**

We will annually prepare a written one-, three- and ten-year investment plan by February 1 of each calendar year for PSERS' private markets program.

As described in [Section III-6, B, Questions 1 & 2](#), our Strategic Plans are customized to client staff and board member preferences. Please reference a sample strategic plan as [Attachment A](#) for a peer public pension plan. This plan also highlights the changes made over the six year relationship from the inception of Hamilton Lane's partnership with the client. **[Attachment A is considered confidential].**

- 3. The consultant will prepare and deliver, by March 1 of each year, an annual written report that contains a comparative analysis of PSERS' private markets program results with the annual investment plan provided for in subsection 2 above.**

We will prepare and deliver, by March 1 of each year, an annual written report that contains a comparative analysis of PSERS' private markets program results with the annual investment plan. The annual portfolio review is typically included in the strategic plan, however, we serve multiple clients with various timelines and requirements, and as such, we can accommodate any annual schedule for PSERS.

- 4. The consultant will recommend appropriate private markets investment strategies, tactics, procedures, and practices.**

We will recommend appropriate private markets investment strategies, tactics, procedures, and practices. Our approach to working with clients is to customize each portfolio to meet the unique goals and objectives of that client. We believe that this customization allows us to construct portfolios with a strong base of core managers but also to make prudent changes as the market or the client's objectives might change.

While most strategic and tactical recommendations are made in the context of the strategic plan, Hamilton Lane is accustomed to completing many ad hoc special project and procedural reviews as needed. We have provided a sample special projects memo as [Attachment B](#). **[Attachment B is considered confidential].**

- 5. The consultant will review and make recommendations regarding the total private markets program guidelines at least annually.**

We will review and make recommendations regarding the total private markets program guidelines at least annually. We are more than happy to re-evaluate the Strategic Plan as often as PSERS wants or needs. We have also collaborated with clients to create investment guidelines and/or investment policy statements. Please see [Attachment C](#) as an example. **[Attachment C is considered confidential].**

- 6. The consultant will maintain a disciplined and comprehensive process to screen institutional quality private market managers for consideration by PSERS.**

We will maintain a disciplined and comprehensive process to screen institutional quality private market managers for consideration by PSERS. Please reference [Section III-6, C, Question 2](#) for more information on our comprehensive due diligence process.

7. **The consultant will maintain a focus list and forward-looking calendar of private markets investment opportunities for PSERS, consistent with the statutory investment authority of PSERS and any internal investment guidelines or policies adopted by PSERS.**

We will maintain a focus list and forward-looking calendar of private markets investment opportunities for PSERS, which will be consistent with the statutory investment authority of PSERS and any internal investment guidelines or policies adopted by PSERS.

We have a proactive fund sourcing program in which considerable time and effort is spent on the development of a complete, three-year forecast of future funds coming to market via our Funds Coming to Market Tracking System. Long before a fund is scheduled to come to market, we begin working to cement an early relationship with the fund sponsor. This assists us in obtaining the desired allocation in the firms with which we choose to invest. The Funds Coming to Market List is readily available to clients and can be sorted by timeframe, strategy, geography, fund size, sector focus, among other attributes.

8. **On a non-discretionary basis, the consultant will provide “gate-keeper” services which may include: sourcing, screening, securing allocations, conducting due diligence, assisting in contract negotiations, and providing manager selection recommendations.**

We will provide “gate-keeper” services on a non-discretionary basis which may include: sourcing, screening, securing allocations, conducting due diligence, assisting in contract negotiations, and providing manager selection recommendations

We have a long history as a provider of “gate-keeper” services for public pension plans. We were founded in 1991 as a private equity advisory firm for large public pension plans. Our firm’s roots are in consulting and our advisory business remains an integral and valued portion of our business. Today, we are proud to serve 74 advisory accounts, of which 32 are public pension funds.

9. **The consultant will work with the Board and staff to identify new private markets investment opportunities, including in-depth investment due diligence, covering areas including investment strategy, operational due diligence and personnel. Any recommendation for investment will be supported by appropriate written due diligence summaries. It is expected that full due diligence will be performed on 8-12 private market fund opportunities and 4-8 private high yield fund opportunities each year.**

Any recommendation for investment will be supported by appropriate written due diligence summaries. We will perform full due diligence on approximately 10-15 private market fund opportunities and 4-8 private high-yield fund opportunities each year.

We work with 32 unique public pension clients (including both discretionary and non-discretionary) all of whom we perform diligence on an average of about 15 opportunities per year. We are accustomed to managing strict timeframes from investment committees and/or board approvals.

10. **The consultant must perform due diligence on co-investments in underlying equity securities, debt instruments, real property, or other investments with or alongside a sponsor with whom the Offeror or PSERS has a relationship in the PA Pennsylvania Co-Investment Fund, LP. Hamilton Lane's due diligence process is multi-tiered and places significant emphasis on those elements of risk and financial analysis that distinguish the private markets from the more conventional asset classes. The same thorough and time-tested process is utilized for every opportunity regardless of prior investments with the general partner. Our due

diligence approach ensures that every important area of analysis is thoroughly reviewed, and it also provides the flexibility to discover new and/or unique areas of potential concern and opportunity. The process includes the following steps:

After the initial screening process, a meeting is held with the fund manager in our offices, allowing members of our investment team to ask questions regarding the group's investment philosophy, process and view of the market opportunity. Additionally, the firm conducts a day-long site visit at the manager's office to go through, in detail, its track record, portfolio companies and investment strategy/philosophy. Further, this allows us to meet and evaluate the entire team.

The extensive data we track, used in assessment of managers during diligence and thereafter, is a crucial element of diligence and is used in our fund investment reports. Our databases provide a broad perspective to assist in diligence, including benchmarking peers, assessing competitive strategies, and understanding management changes over time.

Specific reviews and data are shared with clients in various ways, primarily electronically. Fund screenings, investment reports, meeting notes, update meetings, annual meetings and advisory board meetings are tracked in our Deal Manager database and shared with clients, as relevant. All of this data can be posted electronically on iLEVEL Solutions™, our online reporting system, available to clients 24 hours per day.

We have provided more information on our due diligence reviews in [Section III-6, C, Question 2](#).

12. **The consultant will conduct thorough and independent operational due-diligence reviews on private market fund managers, including, but not limited to, qualitative assessments that thoroughly depict the organizations and teams that contribute to the investment process, operations, all internal control (including compliance and conflict of interest mitigation policy development and application), overall risk management (including, but not limited to, infrastructure management, regulatory monitoring and management, valuation policy development and application, business continuity/disaster recovery/cybersecurity plan development, application and testing), service provider confirmation and review, financial statement review, fund and key personnel regulatory and disciplinary filing review, partnership agreement review.**

- 15. The consultant will assist in developing pacing studies.**

We are able to assist in developing pacing studies for PSERS' private markets program. Hamilton Lane works with each client to create a structure and investment program customized to the client's needs.

16. The consultant will recommend a performance benchmark for the total private markets program as well as individual private markets portfolios.

Hamilton Lane

Hamilton Lane will work with PSERS' to determine a performance benchmarks for the total private markets program, as well as individual private markets portfolios.

There are several characteristics that make private markets fund managers difficult to benchmark:

- Limitations on the amount and quality of publicly available information
- The illiquidity of the asset class
- The infrequency of valuations relative to public markets
- Inconsistent valuation standards in the industry
- The irregularity of cash flow profiles

Our benchmarking is a combination of two complementary approaches, ensuring that we are ranking both a manager's absolute and relative performance and appropriately risk weighting:

1. *Relative Performance to Peers:* Utilizing our database, in combination with third party sources, we measure each fund relative to other funds from the same vintage year, strategy and geography. We look at various metrics including IRRs, distribution multiples and total value multiples. We also focus on measuring risk and dispersion of return – comparing fund managers against peers, as well as industry metrics.
2. *Public Market Equivalent:* We examine performance against public markets, thinking of this as a Public Market Equivalent (PME) analysis. Given the fact that private equity represents, for many, an alternative to a public equity strategy, measuring a manager's performance against the public markets is a useful evaluation tool. This approach involves measuring performance through a complex invested cash flow method – ensuring an “apples to apples” timing comparison.

As an example of our extensive research on benchmarking, we have provided a white paper on private equity benchmarking in **Attachment E**. **[Attachment E is confidential.]**

17. **The consultant will recommend suitable private markets investment opportunities and practical implementation methods.**

Hamilton Lane has a successful history of transitioning client data and portfolio information from other managers or consultants dating back to the early 1990s. Over the past five years, we have completed more than 35 transitions from other service providers/clients. These transitions include all the essential data necessary to effectively monitor and report on a private equity portfolio such as cash activity since the inception of each underlying investment, quarterly fund level market valuations and complete underlying company cost and market value history and details.

We employ a five-step data conversion and parallel processing plan to aid our clients in the transfer of data to our platform. The first step is crucial to the goals of the transfer process, as steps 2-5 are customized based on the needs and requirements of the client in transition. Generally, the average time for completion is highly correlated to the number of funds and scope of service. We expect the entire process to take approximately 6-8 weeks, but we are often able to accomplish the transition more quickly.

The steps of the process are outlined below.

**Boxed details denote client involvement*

Hamilton Lane practices the concept of "four eyes" on all data entry, meaning that all data input by an analyst is reviewed by a team leader to ensure accuracy. This applies to all data, including fund valuations, cash flows, and portfolio company data. There are 15 employees assigned data entry tasks, as well as four team leaders reviewing data integrity controls. The data manager reviews data integrity controls and issues as well as key processing metrics. There are a number of key control points to ensure data integrity beyond the team leader review:

- Data is reviewed through financial quality controls to ensure accuracy.
- Data is audited daily via automated exception reports to ensure large IRR movements are rationalized, which ties directly into general partner valuations and capital accounts.
- Data also is reconciled against third party records such as custodians, in a timely manner, to remediate counter party risk exposure and ensure a proper control environment.

A summary of the activities performed is provided below:

Cash Flows and Reconciliation Processes

For each cash flow, the following details are extracted and entered into our reporting database:

- Date and amount of transaction
- Accounting treatment of transaction
- Notes regarding capital call/distribution purpose, including fees and expenses etc.
- Management of distributed securities is driven by the client though Hamilton Lane is able to stock distribution management to our clients as an ancillary service

Monthly reconciliation reports are generated to ensure that Hamilton Lane and the client's custodian have accurately recorded all activity. The reconciliation outlines the following:

- Partnership-level beginning and ending cost basis
- Cash flows
- Realized and unrealized gains
- Ending market values of each investment

The Hamilton Lane Horizon Model (the "Model") is a proprietary tool that guides in the allocation and construction of private markets portfolios. The Model analyzes the current composition of a client's portfolio and utilizes an algorithmic approach to help estimate future cash flows and changes in portfolio value over time. It can then generate an annual

commitment pacing plan designed to help achieve and maintain a client's target private markets exposure.

The Model's projections incorporate historical performance information from Hamilton Lane's vast database of monitored funds. Furthermore, the Model has the ability to adjust for various market conditions, which gives it the flexibility to incorporate current economic trends, such as an expansionary or recessionary market environment, into projections.

A. Emergency Preparedness.

To support continuity of operations during an emergency, including a pandemic, the Commonwealth needs a strategy for maintaining operations for an extended period of time. One part of this strategy is to ensure that essential contracts that provide critical business services to the Commonwealth have planned for such an emergency and put contingencies in place to provide needed goods and services.

1. Describe how you anticipate such a crisis will impact your operations.

We anticipate that we can maintain near full operations during an emergency, including a pandemic. Our firm has protocols in place which allows us to use various back-up options in terms of our network and systems, business functions, as well as office space.

If an emergency were to occur at our headquarters in Bala Cynwyd, we would have immediate access to a back-up office site located approximately five miles from our offices. The facility seats approximately fifty employees and provides adequate desk space, as well as telephone and internet access. This contracted office space is under a shared service arrangement; however, our remote access system allows for our employees to work effectively from any internet-connected computer around the globe.

Further, we spread various business functions across our 12 global offices (as of December 31, 2016) and would be able to provide back-up support if employees from one office were to become incapacitated. Additionally, our systems are replicated in real time to our secondary data center (for redundancy and disaster recovery purposes). This secondary data center is located in our London, UK office.

2. Describe your emergency response continuity of operations plan. Please attach a copy of your plan, or at a minimum, summarize how your plan addresses the following aspects of pandemic preparedness:

Hamilton Lane has a business continuation plan that has a primary goal of resuming critical business functions as soon as possible following a major disruptive event that threatens normal business operations.

The plan is prepared and updated quarterly by the head of Information Technology. The plan sets forth detailed actions during and immediately following a major disruptive event:

- Official disaster declaration by a member of the management or technology team
- Notification of management/authorities
- Initiation of emergency response plan
- Site stabilization & damage assessment
- Restoration of communication functions
- Restoration of network and computer functions
- Resumption of critical administrative functions
- Resumption of critical production functions
- Off-site temporary business facility
- Inform employees
- Inform satellite offices

A copy of the Business Continuation Plan is included as **Attachment H. [Attachment H is considered confidential]**.

a. Employee training (describe your organization's training plan, and how frequently your plan will be shared with employees)

All Hamilton Lane employees are required to complete security training upon employment. Additionally, employees must attend an annual security awareness training session. Attendance is mandatory and recorded.

As mentioned above, Hamilton Lane's Business Continuation Plan is reviewed and updated quarterly, and available to all employees. Any essential changes are communicated to employees on an as-needed basis.

b. Identified essential business functions and key employees (within your organization) necessary to carry them out

As described above, our Business Continuation Plan sets forth details regarding, among other things, offsite back-up systems for the company's IT network and procedures for management to declare an emergency, establish an emergency operations center, and coordinate a firm-wide response, including damage assessment and client and employee notification. Please reference [Attachment H](#) for a copy of the Business Continuation Plan.

c. Contingency plans for:

i.) How your organization will handle staffing issues when a portion of key employees are incapacitated due to illness.

As mentioned above in [Question 1](#), we have multiple back-up options in the case of an emergency such as a pandemic, including remote system access for all employees, system redundancy across our global offices, and contracted back-up office space.

We have substantial back-up support in the rare instance that illness would affect multiple key employees. We have a large, deep and global investment team with the next level of leadership already in place. We seek to build a core group of employees at each level of the firm and cross-train within these levels so employees are well-versed in various business functions at the firm.

ii.) How employees in your organization will carry out the essential functions if contagion control measures prevent them from coming to the primary workplace.

If illness were to occur in the region of one of our offices, we would be able to continue operations at our other global office locations. Additionally, our remote access system allows for all of our employees to work effectively from any internet-connected computer around the globe. Employees would be able to work remotely from home if contagion control measures prevented them from coming into the primary workplace.

d. How your organization will communicate with staff and suppliers when primary communications systems are overloaded or otherwise fail, including key contacts, chain of communications (including suppliers), etc.

Our Employee Relations Team, which is comprised of Human Resources, Administrative, and Managerial personnel would be responsible for communicating company status to Hamilton Lane employees, such as the notification of the disaster, where and when employees should meet, and any next steps.

We have a designated Client Relations Team which consists of Human Resources, Administrative, and Marketing personnel who would be responsible for

Hamilton Lane

communicating to outside clients, contacts, and suppliers in the event of an emergency.

If primary communications systems are overloaded, we have access to remote back-up systems and communication tools that would allow us to get in touch with employees and key contacts.

e. How and when your emergency plan will be tested, and if the plan will be tested by a third-party.

Our emergency plan is frequently tested. We employ a third-party to perform extensive testing no less than twice a year. The latest data recovery test was performed in October 2016 by PPT Consulting. The head of Information Technology reviews all testing and data recovery results with Hamilton Lane systems administrators. The latest test results were favorable.

F. Explain your firm's goals for expansion and accepting new client business. How will the firm control the quality of service to clients? Include the following:

1. Total number of accounts that will be accepted.

While we do not have specific limits on the number of accounts or assets, we plan to continue the measured, disciplined growth of our business (both domestically and internationally) by adding accounts that will complement existing client relationships, as well as by expanding our relationship management/client service resources as needed. We evaluate prospective business relationships according to many factors, including managing access/allocation as well as firm coverage capabilities. Our aim is always to achieve the highest level of client service and to ensure that investment capacity keeps pace with the best investment opportunities. Senior management meets regularly to review the firm's growth plans and ensure that each new account is incorporated into our business seamlessly.

Our investment teams consist of 97 investment professionals* dedicated solely to developing optimal portfolio and investment due diligence. Because of the size and diverse experience of our investment teams, we do not foresee investment capacity or the ability to invest across the various private equity categories to be an issue now or in the future. Further, these individuals are able to focus just on investment processes, because all client relationship management responsibilities are handled by a separate team of relationship managers.

Our team of top relationship managers exemplifies superior communication skills, coupled with an impressive knowledge of the industry, which in turns provides our clients with one of the best customer service experiences possible.

We believe that the separation of these responsibilities provides us with a unique competitive advantage. We recognized the importance of these different skill-sets early in the firm's existence, and it is this important organizational difference that has allowed our firm to deliver superior client service.

2. Total assets that will be accepted.

As described in [Question F.1](#), we do not have specific limits on the number of accounts or assets that we will accept, however, we plan to continue the measured, disciplined growth of our business (both domestically and internationally) by adding accounts that will complement existing client relationships.

3. Plans for additions to professional staff and approximate timing in relation to growth of accounts and/or assets.

We are focused on maintaining a growing, successful organization. The private markets industry is becoming more global and more complex, requiring firms to draw upon increasingly global resources. As the industry has expanded, we have systematically expanded our geographic footprint. We currently have 12 offices operating around the world (as of December 31, 2016), giving us the global resources necessary to examine and make investment decisions that we believe will generate the highest returns. Led by our CEO, Mario Giannini, we are continually focused on growing these resources in a reasonable manner to maintain Hamilton Lane's culture of success.

We typically hire staff well in advance of need to allow for a period of training before taking on new clients. The key areas of hiring are: relationship managers to work with clients, fund

Hamilton Lane

investment team analysts, transaction team analysts for secondaries and co-investments, and operations personnel to ensure a smoothly running operation. New hires are largely focused on mid- and junior-level resources due to our focus on developing senior talent from within.

Senior staff regularly reviews each relationship manager's account level to ensure that their time is appropriately managed and to budget for near and long-term requirements. There are no set limits on the number of accounts a relationship manager can handle. However, we carefully limit both the number and complexity of clients our team members manage in order to maintain the highest standards of service, responsiveness and quality. Typically, account managers have a blend of discretionary and non-discretionary accounts with primary responsibility for four to eight client accounts at any given point.

G. What is the location(s) of firm headquarters and branch offices? If several locations, what quality controls does the firm use to ensure consistency of services among clients, and how does the firm handle research, information processing and databases?

Hamilton Lane's headquarters are in Bala Cynwyd, Pennsylvania. Our firm was founded more than 25 years ago in Philadelphia and we have demonstrated a strong dedication to the state and region. We have won numerous local awards over the years based on our commitment to our employees, such as Best Places to Work in Philadelphia (2007), Best Places to Work in Pennsylvania (2012-2016), and in 2014 we were given the Advancing Women Company Award by the *Philadelphia Business Journal*.

While the majority of our employee base is located in Pennsylvania, we also have 11 other global offices, which we have listed below:

We have several processes in place throughout our organization to ensure consistency of our operations and services for our clients. None of our offices act as silos, and we encourage constant collaboration and communication across our global offices. Further, whenever we open a new office, we typically staff our office with at least one existing Hamilton Lane employee from our headquarters or other established office, to act as a culture carrier and to ensure consistency with our established methods of operations. Additionally, employees located outside of our headquarters visit our main office at least once a year, most notably at our firm-wide offsite which is held annually in Philadelphia. The Hamilton Lane offsite is a three-day event in which all employees gather to network with one another, attend firm-wide update sessions, and receive education on the industry.

In addition, Hamilton Lane's back office and IT controls with regard to quality and consistency of data have been tested in accordance with SSAE 16 review by an independent audit firm. Hamilton Lane has an independent auditor perform the review every 2 fiscal years.

We operate in a SOC1 certified environment and have built a proprietary reporting platform that allows our clients to spend time focusing on investment activities and analysis, while our team ensures the integrity of their private markets data.

Most recently we completed an updated SOC1 (formerly known as an SAS 70 report) through June 30, 2016. The report reflects a test of our controls by our auditor Arena, Snyder & Dunlap. No issues were reported.

I. Describe any other service not included in Part III “Work Statement” that you believe would be beneficial to PSERS and you are proposing to provide for PSERS.

In addition to our customized non-discretionary and discretionary strategies and specialized funds-of-funds products, Hamilton Lane provides private markets distribution management services to our clients. We work with our clients to enhance the realized value of their distributions of publicly-traded stock through active portfolio management, that may increase overall private equity returns.

Hamilton Lane’s distribution management business represents an investment solution focused on performance coupled with a strong service component. We provide our distribution management clients with investment research coverage, discretionary liquidation of publicly-traded positions, and seamless trading and operations management.

Moreover, we are able to tailor our distribution management services to suit the particular needs of our clients:

- By employing a managed liquidation strategy designed to quickly return cash to the limited partner, or
- By opting for an active management solution intended to enhance overall private markets returns.

These services complement our portfolio reporting and monitoring activities and help to further enhance our clients’ overall investment experience.

J. Specifically discuss your research breadth and depth. How is your operational due diligence process independent from investment due diligence? Please discuss manager risk identification and mitigation analyses conducted. What do you consider to be your firm's consulting specialties, strengths, and limitations?

Hamilton Lane has a dedicated Research Group that works closely with the Investment and Client Service teams. The Research Group consists of seven professionals (as of December 31, 2016) and is separate and distinct from our investment teams, who are responsible for our core investment due diligence process (outlined in [Section III-6, C,2](#)). Leveraging our robust internal database and external resources, the Research Group helps the firm develop better investment insights around portfolio construction and risk management with topical papers and provision of data from internal and external sources. This complements qualitative input from our experienced investment professionals.

In addition to tracking global economic and financial market trends, the Research Group works to develop sophisticated models and tools to aid our internal teams and external clients in areas such as fund diligence, investment pacing, and portfolio allocation. The group uses publicly available data, subscription-based third party resources, and our extensive internal databases.

Our commitment to invest in research underscores the knowledge that both investment selection and portfolio allocation collectively drive our investments.

Operational Due Diligence (ODD) has become an increasing area of focus of the firm. While Hamilton Lane has been focused on ODD for years through our rigorous due diligence process, we recently created a dedicated ODD team to focus on this function exclusively. Our dedicated ODD team is led by Julie Shenkman, Vice President, and Patrick Kotras, Senior Associate. Please reference **Section III-6, H** for more information on our ODD process and the background of our dedicated ODD team members.

As part of our investment and operations due diligence processes, we evaluate risk at the time of investment. We measure risks at the portfolio company level (leverage, cyclicalities, duration, valuation, etc.) and at the manager level (track record, GP longevity, quality assessment) to determine the risk profile for a particular investment, allowing us to calibrate the required return relative to risk.

Importantly, our monitoring of an investment does not end once we invest; we are active in our communication with general partners, holding regular update meetings, phone calls, and attending annual meetings. In doing this, we are able to track investments, and recognize any issues early.

Our approach to research and diligence include key differentiating factors that separate us from our competition. Why clients often choose Hamilton Lane are as follows:

- We customize our client's portfolio strategy and execute that strategy based on the needs and objectives of the client. We do not employ a "one-size-fits-all" approach.
- We believe our due diligence process is superior to that of our competitors, and this is evidenced by the performance generated on behalf of our clients. We are more than happy to compare our performance to that of our competitors.
- We are an independent firm with significant employee ownership. We believe this type of ownership structure creates a more stable organizational environment for our employees and our clients. In contrast, some of our competitors may be owned by a small number of their employees and/or have capital from private markets investors. We feel that these situations can lead to unstable environments, as significant liquidity events are forced by the necessity of private markets funds to realize investments and/or large owner estate events.
- Some of our competitors may employ organizational structures such that the client relationship managers are also the same professionals responsible for developing optimal portfolio and investment due diligence. We strongly believe that the skills required for industry leading relationship managers versus the skills needed for top investment professionals are significantly different. We believe two of the differences include:
 - High-performing investment professionals can exhibit superior analytical attributes to identify the subtle nuances that separate top quartile general partners from the rest of the managers in the industry.
 - Top relationship managers require a strong financial acumen coupled with superior communication skills and the ability to deliver an entire organization, to achieve the best experience for the client.

Hamilton Lane

Hamilton Lane recognized the importance of these different skill-sets early in the firm's existence, and it is this important organizational difference that has allowed our firm to deliver superior client service.

Amid an increasingly challenging atmosphere, marked by a constantly changing regulatory environment, greater volatility in the global equity and credit markets and a rationalized fund raising environment among other factors, Hamilton Lane has continued to grow and evolve our organization. Nonetheless, because of the strength of the Hamilton Lane team, we have been able to recognize these industry forces, adapting as necessary, to enable us to offer our clients the superior service they deserve. We have increased our total assets under management (including non-discretionary accounts) to over \$332 billion (as of December 31, 2016), opened new offices around the globe and raised and begun investing a variety of new commingled products.

K. Please quantify the alpha generation of your recommended funds versus public markets and the median industry benchmarks.

We have provided this information in the attached excel file, **Attachment L. [Attachment L is considered confidential]**.

L. How does your firm evaluate the quality of its consulting services?

Hamilton Lane is focused on providing private markets advisory services that are not only best in class, but more importantly, exceed the expectations of our clients. We strive to measure and achieve this in a variety of ways:

Reaching Client Objectives: Each year, we work with our clients to set clear and specific objectives in their strategic plan. Such objectives may include: annual pacing targets, sector/industry/geographic focus, reducing the number of manager relationships, etc. We continually review the strategic plan throughout the year to ensure that we are on track to meet these goals. In the subsequent year's strategic plan, we go back and review whether or not we reached all prior year objectives and what we did to get there. These are not just the objectives of our clients - we hold ourselves accountable for the development of these goals.

Client Performance: A large part of our success is ultimately measured by the returns of our clients. As private markets advisors, we are proud of our clients' returns and aim to assist clients in the development of their private markets strategy, in building long-term portfolios, and in bringing the extensive resources necessary to invest a multi-billion dollar private markets program.

Tracking Client Feedback: Our CCO oversees a program to monitor and track all written client complaints. Any such complaint is then relayed to a senior manager to ensure that the complaint is resolved immediately. Additionally, every two to three years, we distribute an investor survey to current clients and consultants in order to further evaluate the effectiveness of various aspects of our full service approach. We gather both quantitative and qualitative insight into the firm's performance on topics relating to our client service, reporting capabilities, investment expertise, and beyond. Upon receiving the results, we analyze the resulting data and create a strategic plan to address weaker areas and implement changes in order to improve our results.

Client Retention: In an industry where client turnover can be fairly high, we are proud to say that we have higher than average retention rates. Last year, we had a 98% retention rate (as of December 31, 2016) in our advisory business. We believe this is a direct result of our focus on superior client service, a deep and global investment team, and the wide array of resources at our clients' disposal.

Q. Describe your disaster recovery plan and facilities.

As described in [Section III-2](#), Hamilton Lane has a business continuation plan that has a primary goal of resuming critical business functions as soon as possible following a major disruptive event that threatens normal business operations.

The plan is prepared and updated quarterly by the head of Information Technology. The plan sets forth details regarding, among other things, offsite back-up systems for the company's IT network and procedures for management to declare an emergency, establish an emergency operations center, and coordinate a firm-wide response, including damage assessment and client and employee notification. The plan also provides for offsite office facilities and full telecommunications and computer services for the management team.

The latest data recovery test was performed in October 2016 by PPT Consulting. The head of Information Technology reviews all testing and data recovery results with Hamilton Lane systems administrators. The latest test results were favorable.

A copy of the Business Continuation Plan is included as [Attachment H](#).

J. Describe the job qualifications required by your firm when hiring investment professionals. Are there specific qualifications unique to those involved in private markets consulting?

Hamilton Lane has a detailed candidate selection and hiring process. We use a number of channels when sourcing candidates including recruitment firms specialized in different functions or practice areas such as private equity or investments. All candidates undergo a behavioral and motivational screening interview process, which serves to qualify skills as presented on their resume. Once a candidate is through that screening process, he or she is brought into the office for interviews that focus on work experience, skills, intelligence, learning agility and culture fit. Investment employees are tested on their Excel skills and given a case study to complete. Reference calls provide a final way to assess a candidate's skills and competencies. This complex and time-consuming process produces new hires who are immediately productive.

K. Describe your internal training procedures for consultants and research analysts.

Upon hire, new analysts go through a rigorous training course during which they are introduced to our various systems and procedures. They receive technical and analytical training to prepare them from a procedural standpoint, followed by several job shadowing exercises with peers within the department. New hires are also enrolled in an interdepartmental mentorship program where they are paired with a senior member of the team. We have found that the mentorship program has helped new employees to more easily transition and grow within the firm.

Additionally, Hamilton Lane encourages the external development of our employees through educational assistance and certification assistance programs. We expect our employees to have a thorough knowledge of the global private markets industry and be well versed in private equity, real estate, real assets and infrastructure.

Hamilton Lane

Hamilton Lane believes it is able to attract, motivate and retain strong candidates for a number of reasons, some of which include the firm's market position and reputation, as well as its culture of teamwork and collaboration. Hamilton Lane's culture is one of our most important assets and our single greatest differentiator in the market. The firm's culture is built around a team orientation focused on achieving client objectives, whether for investment returns, reporting or client service.

In conjunction with our competitive compensation structure, the firm also offers certain employees the opportunity to spend several months working in various office locations around the world. Additionally, individuals are encouraged to gain exposure to other departments within the firm through collaborative projects and training sessions. In many cases, this has led to individuals being promoted to other areas of the firm.

Furthermore, we have recently created the Hamilton Lane Analyst Development Program (ADP). We selectively target recent college graduates who have demonstrated a commitment to developing their intellectual, analytical, social and professional abilities for a three-year program. Each ADP class of 10-15 members goes through an intensive 9-week training program after which they are assigned to a department and role that matches their abilities and interests. The most outstanding analysts may be offered permanent positions within the firm while others often transition into graduate school programs.

L. Describe your continuity plan and procedures in the event that key personnel for this assignment should leave the firm, or otherwise be unable to perform their duties.

Hamilton Lane uses a team approach across all business lines. From a client team perspective, we build in support. We assign a back-up senior Relationship Manager and an active Senior Executive to ensure redundancy for the account. Additionally, we create extensive investment plans (with client staff, as appropriate) that are shared throughout the Hamilton Lane organization to ensure that our firm knows and understands the client's program and objectives.

As described in **Question D** above, PSERS' dedicated Relationship Management Team will be comprised of Michael Koenig, Managing Director, who will provide Executive Oversight of the account. Corina English, Vice President, and Sean Barber, Senior Associate, will act as the primary consultants for PSERS account, and serve as the day-to-day contacts for PSERS. In addition to Michael, Corina, and Sean, there will be a dedicated team of junior-level client service professionals (senior associate and below) who will also assist with day-to-day tasks involved with managing the account. Because of the number of professionals dedicated to the account, there will always be ample back-up support should any of the relationship managers become temporarily unavailable.

M. Are any of the activities related to your private markets consulting services outsourced to a third party? If so, please describe each arrangement including the compensation structure. How is the quality of work performed by third parties assessed?

None of investment-related activities or relationship management services are outsourced to third-parties. We perform all consulting services in-house.

A. General

1. What differentiates your firm from other competing firms? Please identify your competitive advantages and disadvantages.

Within our peer group, we believe very few firms have a dedicated platform similar to ours. Outside of the importance of returns, Hamilton Lane's distinct competitive advantage comes from the worldwide footprint of our network. This network includes our people, our clients, and, to some extent, the funds with which we invest. A client of Hamilton Lane is considered a part of the firm. We encourage cross-client communication and sharing, combining global perspective with on-the-ground resources. We believe this information loop, coupled with the substantial information advantage gained through both the relationships we have as well as our clients' fund relationships, brings a substantial advantage to our firm and our clients' investment programs.

We believe the key differentiating factors that separate us from our competition include:

Experience: Hamilton Lane is completely dedicated to the private markets asset class and is considered a leader in terms of fund access and diligence. We have provided private markets consulting services since 1991.

Global Presence: With 12 offices, 97 due diligence professionals (as of December 31, 2016), an experienced Investment Committee and clients around the world, we are uniquely positioned to ensure global deal flow, allowing us to truly select those managers we believe to be the best-in-class across strategies and geographies.

Detailed Diligence: We provide our clients with frequent communication regarding their portfolio needs combined with a structured, in-depth investment process and a history of success. Access: Our access to brand name and oversubscribed funds comes from our market position, global network, prestigious client roster and proactive efforts to find and source the best opportunities available.

Legal Resources: Hamilton Lane has a full-time in-house legal team with extensive experience in partnership negotiations. We provide a significant value-added service to our clients through our review and negotiation of economic and legal terms of new investments in comparison with the most recent standard market terms.

Client Service, Integrity and Full Transparency: We consider each client a partner, acting as an extension of their staff. It is crucial for us to uphold the highest level of controls and integrity in the services provided. Hamilton Lane employs a comprehensive set of procedures and controls overseen by our general counsel: monitoring client service levels, adherence to LPAs, investment allocation and conflict of interest, among other processes. This ensures fair and ethical treatment of all clients. As further evidence of our commitment to transparency, our partnership with iLEVEL Solutions™ provides our clients access to an unparalleled level of detail and custom analysis.

2. Discuss the challenges generally involved in designing, implementing, and monitoring a private markets program for a very large client with substantial capital to deploy.

There are several challenges involved with designing, implementing, and monitoring a private markets program for large clients. For clients with significant capital to deploy, there is the challenge of a program becoming too diversified, or conversely, under-diversified. Another

Hamilton Lane

challenge is access to top-tier funds, as well as limited deal flow. Additionally, many large clients may not have the internal resources necessary to monitor such a large program or the expertise in specific sub-strategies, such as secondaries and co-investments.

We believe Hamilton Lane is well equipped to handle these challenges and we have successfully implemented programs for large clients across the globe. We address the above challenges in the following ways:

Diversification: Hamilton Lane's goal is to construct a prudently diversified portfolio for each of our clients. By allocating assets among a number of different fund sponsors, the portfolio will seek to limit its exposure to any one particular general partner.

We believe one of the greatest mistakes investors make in private markets is over-diversification in the number of funds with which they choose to invest; we believe that too often investors commit to a large number of general partners and end up with an over-diversified and unwieldy portfolio. Conversely, we believe that investors often pay too little attention to diversification by time and run the risk of having too many investments which are concentrated in certain vintage years relative to others. For this reason, we exercise the appropriate amount of caution in regards to diversification and we are extremely selective during our investment process and to promote appropriate vintage year diversification.

Access: Hamilton Lane is completely dedicated to the private markets asset class and is considered a leader in terms of fund access and diligence. We have provided private markets consulting services since 1991. Our access to brand name and oversubscribed funds comes from our market position, global network, prestigious client roster and proactive efforts to find and source the best opportunities available. In serving public pension advisory clients for over 25 years, we have significant experience in facilitating introductions to potential new managers.

Deal Flow: Our deal flow primarily results from our market position, global network, prestigious client roster and a proactive effort to find and source what we feel are the best opportunities available. We have a history of success in gaining new access and expanding relationships for existing clients. Furthermore, our access to brand name and oversubscribed funds provides clients with the potential for exposure to investments otherwise unavailable. However, we believe strongly in a discipline that subjects each manager to a similar process regardless of whether the fund is a brand name, a first-time fund or someone with whom we have invested.

Expertise in assisting clients with limited internal resources: Hamilton Lane has extensive experience and expertise across the private markets asset class, particularly with specific sub-strategies such as secondaries, co-investments, and real assets. We have longstanding relationships with premier investment managers, access to significant deal flow, and a rigorous due diligence and monitoring process. We have dedicated teams that specialize in these specific strategies, with dedicated investment committees for each strategy. We also have ample experience in implementing specific and customized programs for clients who have an interest in specific sub-strategies and we have the resources equipped to design, monitor, and implement a fully customized program. Please refer to **Section III-1, Question 10** for an in-depth look at the in-state co-investment programs we have built for many peer pension plans.

4. Provide a sample investment policy statement covering a private markets program for a large pension plan that you developed for that client.

A sample investment policy has been included as [Attachment C](#) [Attachment C is considered confidential].

5. Discuss your views on utilizing funds of funds vs. direct private markets investments and provide your rationale.

The appropriate mix of investments varies on portfolio and client needs. While there is no “one-size-fits-all” approach, we have provided below our thoughts on utilizing fund of funds vs. direct private markets investments.

Funds-of-funds (FOF): Funds-of-funds can be advantageous for small investors with limited to no dedicated resources, or they can be used strategically by larger investors in niche sectors that may be more difficult to access. FOF provide enhanced diversification within a single commitment and less administrative responsibility. However, they have a double layer of fees, may lack transparency in reporting, and may be over-diversified.

Primary Funds: Primary funds are the solid core to a private equity program. They provide for long-term returns in excess of private markets and can provide thoughtful diversification with a focused number of commitments. They are accessible for small to large investors, and investors can increase exposures to primaries as the program develops. Like all private markets investments, they are illiquid, and information and access can be a challenge, though outside advisory resources can be helpful in this regard. Investing successfully through primary funds requires a long-term commitment to the asset class and a clear ability to execute and monitor the program’s development.

Direct Investments: Investing directly in companies independently requires a fundamentally different set of resources than the approaches discussed above. A well-executed direct investment program can provide attractive returns. However, sourcing, investment resources, diligence expenses, legal, structuring and investment skills are more akin to those of a fund manager. In particular, public investors need to consider FOIA requirements in establishing a direct investment program. The programs outlined above are all more common in U.S. public pension funds than in direct investment programs, for these reasons.

Co-Investments: Co-investments can provide an enhanced multiple of capital and actively increase capital deployment (and therefore assist to actively manage PE exposure). They also provide lower average asset class costs. However, co-investments require either an outsourced manager to access or a large primary program to provide deal flow. Additionally, investment skills required to assess co-investments are distinct from fund investing. Deal access, allocation constraints and diversification are all factors to be considered in developing a co-investment exposure.

6. Discuss your views on applying additional leverage, or increasing the leverage ratios to private market investments.

With fund leverage, we are typically cautious as leverage increases risk significantly due to its collateral nature. Leverage should be seen as a performance enhancer not a driver; we do not want to rely on it, especially since there are times where it is not available. Additionally, leverage tends to be expensive - carried interest is paid on the returns generated by leverage. Some credit strategies lend themselves to longer term leverage, but this is evaluated on a GP-by-GP basis, and we generally assess the general partner’s ability to generate attractive returns on an unlevered basis. Generally, if a strategy needs leverage to make the return hurdles, we would lean negatively.

7. Discuss your views on registration/regulatory issues with respect to private markets. How are such issues monitored by your firm?

Hamilton Lane is constantly monitoring for any changes to the regulatory environment, as well as any legislative matters that could affect the firm. We are proactive in preparing for any anticipated changes, so that we can easily adapt to any new requirements. At this time, we

Hamilton Lane

do not anticipate any regulatory reform or legislation that could impact the firm in the near term.

Hamilton Lane has appointed Frederick Shaw to serve as chief compliance officer ("CCO") as of April 1, 2017. Prior to the retirement of Robert Cleveland, the firm's former General Counsel and Chief Compliance Officer, on March 31, 2017, Mr. Shaw served as the firm's Director of Compliance. Mr. Cleveland and Mr. Shaw worked closely together to ensure a seamless transition. Lydia Gavalis was appointed to General Counsel at that time as well. The CCO is supported by the compliance officers who handle many of the day-to-day responsibilities of the department. The Compliance Department's mission is to ensure that the firm is following the rules and regulations applicable to its business in the various jurisdictions in which it operates and to ensure that the policies and procedures outlined in the firm's Compliance Manual and Code of Ethics are being followed.

The Compliance Department reviews the firm's policies and procedures on an ongoing basis to determine whether they are accurate and sufficient, and if necessary, to make changes or updates. The firm's policies and procedures are also tested and assessed periodically. Compliance testing includes more than 30 different types of monthly, quarterly, semi-annual and annual assessments of the firm's business areas.

To keep employees up-to-date on relevant issues, the Compliance Department conducts required annual training to review the firm's Code of Ethics, Compliance Manual and developments in the industry related to compliance.

9. Do you host any client events or conferences? If so, please describe them. Are private markets managers invited to attend?

Each year Hamilton Lane hosts a variety of conferences and meetings for our clients and the general partners in which we invest. Some examples of these events include our Market Overview and Annual Investors' Meetings, which we present at various locations around the globe. Additionally, our advisory and separate account clients have access to the Hamilton Lane Private Summit. This is an annual event that allows our clients the ability to interact in roundtable discussions with some of our most senior investment professionals. The event takes place over the course of two days and spans a variety of topics within private markets, including our annual market overview. We neither ask for nor accept any fees from our clients or general partners for attendance at any event sponsored by Hamilton Lane.

10. Discuss your willingness to establish a knowledge transfer relationship with PSERS and describe the activities and information that this would entail, including data sharing and analytics.

We are happy to establish a knowledge transfer relationship and provide ongoing training for PSERS. Hamilton Lane believes clients should be knowledgeable and informed about the alternative asset class because of its differences from traditional asset classes and the limited information available from other sources. Accordingly, we make a concerted effort to educate and train the staff and trustees of our clients. Our goal is to create open dialogue with our clients, which is intended to facilitate information flow and benefit from the resources and information of each.

We offer several services to facilitate education and transfer of knowledge on the private markets asset class including educational sessions, in-office training and periodic meetings or phone calls. The firm customizes these options based on the client's needs. Our educational sessions range from the basics of private markets investments to advanced topics on strategy and trends in the market. Clients can also visit our offices for one to five-day sessions to assist them with their understanding of the private markets.

In addition, we offer our clients the opportunity to attend our Hamilton Lane University. Hamilton Lane University is designed to further our clients' knowledge and technical skill set in the private markets asset class as a way of helping them effectively build and develop their

Hamilton Lane

portfolios. All instruction is taught by Hamilton Lane professionals and takes place at Hamilton Lane's headquarters outside of Philadelphia. Our comprehensive and diversified program provides staff with a more comprehensive understanding and appreciation of the inner-workings of the private markets as an asset class. During the week long sessions attendees gain the following:

- Further exposure to history of the asset class and strategies
- Understanding of due diligence process and deal sourcing
- Further insight into portfolio management and construction
- Tools to assess the performance of private markets investments
- In-depth knowledge of benchmarking and enhanced skills in private markets accounting

Additional information on Hamilton Lane University has been provided in [Attachment G](#).

11. Describe the access and interaction PSERS would have with members of your staff, other than the assigned consultant and backup.

PSERS' Relationship Management team would act as a PSERS' voice within the firm and serve as a conduit to the worldwide resources, including our investment teams, research, legal, administration, and reporting. The team would be able to set up various types of educational sessions and knowledge transfer opportunities for PSERS' by coordinating with senior professionals from our various groups. Additionally, PSERS would have direct access to various professionals across the company, including experts in our research department and investment groups.

12. Briefly summarize your philosophy regarding the consultant's relationships with boards, staff, and investment managers.

Collaboration is the key to our relationship with our clients, which includes both the board and staff. A successful program is built through a thorough understanding of the objectives of our clients and maintained through a collaborative process that involves periodic confirmation (and adjustment as needed) of our clients' goals and objectives for the investment program. This philosophy is the guiding principle behind our efforts in creating a strategic plan and reconfirming the plan at least annually. We also are proponents of full disclosure and transparency. This comes from our roots in working with public pension plans and our intimate knowledge of the demands put on these types of organizations. Our clients are privy to all of our investment related activity, and information is conveyed regularly by our relationship managers. We take great pride in having built strong relationships with each of our clients. We believe this, along with generating attractive returns, has kept our client loss ratio to a nominal number over the more than 25 years of our existence.

Hamilton Lane also believes it is important to maintain solid working relationships with general partners, while maintaining a high level of independence and objectivity. Good working relationships are necessary to secure investment opportunities for our clients and to facilitate efficient and complete access to information about fund performance. Objectivity and independence allow us to maintain a consistent evaluation approach for new funds and re-ups. We make a concerted effort to communicate each step of our due diligence process with general partners. When delivering a "no" to a general partner, we make every effort to be both courteous and constructive.

13. List all standard services provided in a typical pension plan consulting assignment and any specialized services that you have provided to meet other needs of specific clients. Specifically discuss your firm's operational due diligence process and review outputs, including reports related to operations and infrastructure, regulatory and compliance, ADV or other regulatory reports review, financial statements, private placement and/or partnership agreement review and comparisons, and other significant documents.

Hamilton Lane

Our advisory business covers all private markets strategies and caters to large institutions with internal staff dedicated to private markets. We provide a wide array of services tailored to complement the client's internal capabilities and address specific needs, including due diligence, strategic portfolio planning, legal, research, monitoring and reporting, board presentations, performance analysis and benchmarking. Each of our advisory clients typically commits \$300 million to \$1+ billion to private markets investments per year. The chart below lists some of the features of an advisory relationship, but can be customized further to address the comprehensive needs of PSERS.

We have provided detailed information on our Operational Due Diligence (ODD) services in [Section III-6, C](#). Our ODD services have become an increasing area of focus for the firm and we anticipate growing our services significantly in the near- and long-term. Currently, much of our ODD process is handled by our respective investment teams during the larger due diligence process, however, we have a dedicated team focused exclusively on the area. Julie Shenkman, Vice President, and Patrick Kotras, Senior Associate, lead our operational due diligence efforts.

14. Discuss your views on public pension plans making secondary sales from their private markets portfolios. Please summarize any experience you have advising clients on secondary sales.

From time-to-time Hamilton Lane has also advised clients with regard to secondary sales of legacy investments and provided analysis on potential pricing of a secondary sale. Our dedicated secondary team of 15 investment professionals is well-experienced in providing this type of analysis (as of December 31, 2016). Additionally, we have modeled the potential impact on future cash flows, NAV, performance and commitment pacing for our clients. Please refer to [Attachment A](#) for an example.

Hamilton Lane does not broker on secondary transactions and we do not sell private markets assets in the secondary market. For the execution of secondary sales, we have always utilized a recognized secondary market intermediary to achieve a market price.

If PSERS needed assistance with a secondary sale from their portfolio, we would seek to identify a third-party intermediary to work with Hamilton Lane on the analysis and execution of secondary transactions. This would ensure that PSERS' is obtaining market pricing for its assets. We have worked with a number of secondary intermediaries in a similar capacity and, while the third-party is yet to be determined, we would partner with a group that embodies the same level of high-quality service and performance as Hamilton Lane.

B. Portfolio Construction

1. It is the Board's desire that the private markets portfolio complement, or diversify, the primary holdings of the Fund. How would you ensure the private markets program is structured in this manner? How would you monitor the private markets program in relation to PSERS' total investments on an ongoing basis to ensure the private markets program is truly providing diversification?

4. Describe the private markets program construction framework and process, including how recommended allocations to private markets strategy types, geographic regions and individual managers are derived. Do you develop forecasts for distinct strategy types that form the basis of allocation decisions?

Hamilton Lane's philosophy regarding investing in private markets is embodied in our portfolio construction approach, which aims to take advantage of various economic cycles. Using managers as building blocks, we search for complementary managers by style and strategy and prudent diversification by industry and geography to allow for appropriate risk-return. For example, we recognize that mid-market comprises managers taking varying amounts of risk – the value buyer, the buy-and-build manager, the turnaround specialist and the growth equity player. All of these managers have their place in the portfolio, but recognizing their unique differences, risk-return profile and portfolio fit is crucial to portfolio construction.

Hamilton Lane's allocation methodology is both a top-down and bottom-up process. From a macro perspective, we take into account the following:

- performance history of the sub-asset class;
- our perspective on the market's future return and other economic & industry trends;
- the client's or product's risk-return profile and desired cash flow pattern; and
- desired geographic, vintage year and industry diversification.

Then our analysis drops down to the fund level, where we conduct quantitative and qualitative analysis on the appropriateness of individual investments for the portfolio. Such an approach allows us to make opportunistic investments in fund managers with compelling performance or in sectors that seem poised to outperform. Among our managers we are seeking unique, yet complementary return streams.

5. Are there any strategy types or geographic regions that you specifically target or avoid? If so, why?

No. Private markets are a long-term asset class, and we invest through various economic cycles. Fundamentally, we believe in a diversified approach using in-depth diligence to identify managers that can create alpha in various market conditions. In addition, we are mindful of global trends and disruptive events which may create unique investment opportunities. These trends and events may identify specific strategies or geographies to overweight or avoid. We maintain flexibility in our investment approach to take advantage of these opportunities as they arise and we are constantly revising our long-term market outlook to adjust allocations as fundamentals shift over time.

As a global firm, Hamilton Lane screens and evaluates many investment opportunities to determine which are the best available to our clients. All of these funds must pass the same scrutiny of Hamilton Lane's rigorous due diligence process and our Investment Committee. We employ a comprehensive approach to private markets, covering managers of all geographies, strategies, and sizes. Hamilton Lane looks at each of the components of private markets, measures a relative risk reward ratio for each, and then constructs a portfolio around those measures. For each strategy, we examine the current market environment and give an outlook over the next five to seven years.

6. How do you identify style drift in a private markets portfolio? When style drift is identified how is it evaluated and what actions are taken?

Style drift is identified during our comprehensive investment monitoring program. Our monitoring process combines both quantitative and qualitative components to provide continuous assessment of performance. Our investment teams are in frequent contact with general partner groups – conducting frequent phone calls, visiting their offices, or inviting managers to our offices for updates. We conduct on average close to 200 official update meetings per year.

Further, we employ a rigid data verification process that ensures data integrity and general partner compliance of terms. The manager of our investment analyst pool is responsible for monitoring general partner compliance with partnership terms. Additionally, our dedicated reporting team tracks the cost basis and reported value for each portfolio company from the partnership's quarterly financial statements, which allows us to see movements in valuations from period to period. To the extent a general partner is not marking its portfolio to account for changes in company performance, or consistent with our understanding of such performance, Hamilton Lane will contact the general partner for an explanation.

Additionally, seeking an advisory board seat can be beneficial to help drive change if there are concerns that style drift is occurring. Sitting on an advisory board helps us to have a better understanding of general partner groups and act as an advocate for our clients. As of December 31, 2016, Hamilton Lane sits on more than 300 advisory boards on behalf of our clients. Our firm typically seeks an advisory board seat when significant capital has been allocated to the fund (more than 10%). An advisory board position can provide significant insight into the activities and philosophy of a general partner group, as well as ensure that the general partner recognizes the concerns and interests of institutional clients.

7. Describe the variables and methodology you will consider in recommending private markets performance benchmark(s) for PSERS. Provide samples of benchmarks

8. Describe the methodology you would use to construct a private markets portfolio.

Hamilton Lane's philosophy regarding private markets consulting is embodied in our portfolio construction approach. Using managers as building blocks, we search for complementary managers by style and strategy and prudent diversification by industry and geography to allow for appropriate risk-return. For example, we recognize that mid-market comprises managers taking varying amounts of risk – the value buyer, the buy-and-build manager, the turnaround specialist and the growth equity player. All of these managers have their place in the portfolio, but recognizing their unique differences, risk-return profile and portfolio fit is crucial to portfolio construction.

Hamilton Lane's allocation methodology is multi-leveled to take into consideration macroeconomic conditions as well as the private markets environment. This top-down and bottom-up approach begins with factoring in the macro perspective. This includes reviewing the performance history of the asset class, the current global market and our perspective on future return, client specific items such as risk adversity and cash flow needs, and is rounded out with diversification targets for geography, vintage year, and strategy.

Then our analysis drops down to the fund level, where we conduct quantitative and qualitative analysis on the suitability of individual investments for the portfolio. Such an approach allows us to make investments in fund managers with compelling performance or in sectors and/or geographies that seem poised to outperform. Among our managers we are seeking unique, yet complementary return streams. This fund-level analysis and evaluation of fund manager investment style typically lasts three months from initial screening to final investment recommendation. Of the analysis completed during this time, we consider the following topics crucial to our decision:

- **Strategy** - Has the manager demonstrated the ability to invest with a consistent strategy across market cycles?
- **Team** - Does the team operate as a cohesive unit and have the professionals worked together before?
- **"True" Track Record** – In addition to understanding absolute returns, how does a manager compare to other managers on a risk-adjusted basis when fund features such as leverage, recycling of capital, or treatment of cash flows are normalized?
- **Differentiators** – Relative to other fund managers in the same space (e.g. opportunistic strategies), what is different about the manager's strategy? How will these differences complement investments in the client's existing portfolio? How does this position the group against other opportunities currently available in the market?

We are more than happy to perform due diligence on managers that are not in our database. It is important to note that whether an investment opportunity is identified by Hamilton Lane or a client directly, all must go through the same rigorous due diligence process.

The same thorough and time-tested process is utilized for every opportunity regardless of prior investments with the general partner. Our due diligence approach ensures that every important area of analysis is thoroughly reviewed, and it also provides the flexibility to discover new and/or unique areas of potential concern and opportunity.

We do not charge extra for diligence on managers that are not in our database.

8. Describe your pre-investment due diligence process including the groups or individuals, deliverables, decision points and timeframe associated with each component.

During pre-investment due diligence, our investment teams screen and review every private placement memorandum for potential investment. A memo is then drafted, identifying potential merits and issues of the fund. The memo captures relevant high-level information that will be used as a framework for conducting in-depth diligence.

This information includes:

- Fund strategy
- Investment approach
- Track record
- Team/Organization

The memo is presented at the bi-weekly Investment Committee, and the most attractive opportunities are approved for further diligence.

A typical due diligence team is comprised of a senior lead (Managing Director, Principal, Vice President), a mid-level professional (Sr. Associate, Associate) and 1 to 2 junior level professionals (Sr. Analyst, Analyst). Our due diligence process typically lasts three months from initial screening to final investment recommendation.

9. Please provide a sample investment due diligence summary report/memo.

A sample investment report has been included in [Attachment P](#). **[Attachment P is considered confidential.]**

10. If you use a questionnaire as part of your private markets manager due diligence process, please attach as an appendix to your response.

We utilize a detailed questionnaire during our due diligence process. Once an investment is screened, the investment team and the Investment Committee will then determine if the private markets manager has reached the full diligence phase in the due diligence process. At that point, the investment team will send the private markets manager a full questionnaire that is specific to its investment strategy. We have provided a sample questionnaire in [Attachment N](#). **[Attachment N is considered confidential.]**

11. Describe how your firm interacts with placement agents.

Hamilton Lane has certain selling arrangements with third party marketing firms, predominately in non-U.S. markets, where the firms are paid a percentage of revenues that they originate. It is possible that such selling arrangements could be expanded to other markets in the future but will likely continue to be focused outside the U.S. These arrangements are established with the provision that the payment arrangements are fully disclosed to the end clients. Hamilton Lane does not have any soft dollar or similar arrangements with brokers or other third parties.

As part of our extensive due diligence process, Hamilton Lane has consistently requested that general partners disclose their relationships with placement agents. We have further expanded the depth of our due diligence questionnaire, comparing it to other placement agent questionnaires being distributed by various state pension plans to ensure that Hamilton Lane is requesting similar levels of detail.

12. Describe the systems and procedures used to store and access manager-related information (performance, portfolio exposures, research notes, due diligence reports, etc.), including any third-party and internally developed databases or document storage utilities.

- a. How is the information collected? (i.e. surveys, due diligence questionnaires, meetings, etc.)? How is it verified?

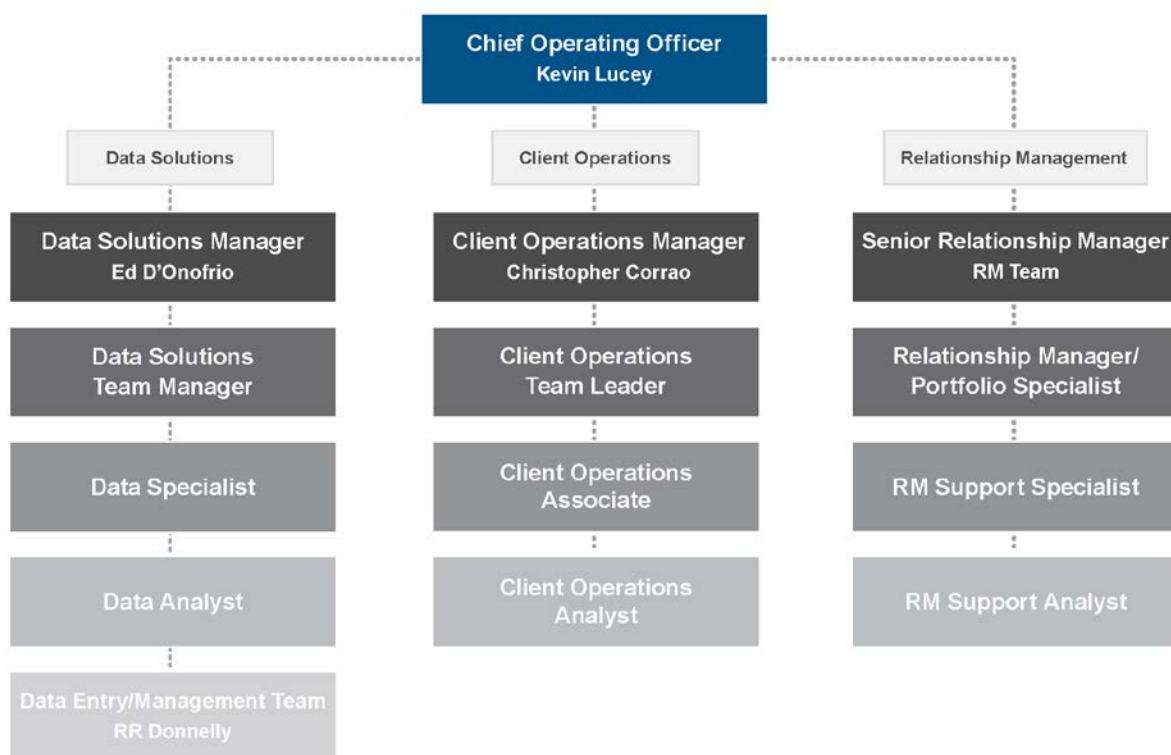

b. How many unique funds are covered by your database?

c. Do you have dedicated support staff and/or technology professionals that focus on data management?

Yes, we have several teams at Hamilton Lane that are solely focused on database management – from both information technology and database management perspectives. Led by Kevin Lucey, COO, and Michael Koenig, Head of Client Services, we have a team of more than 50 dedicated, back office professionals focused on maintaining, directing, and reporting on our clients' alternative asset portfolios (as of December 31, 2016).

In order to effectively support our clients, we have taken a three pillar approach to staffing our back office: data solutions, client operations, and relationship management. Our data solutions group, led by Ed D'Onofrio, is responsible for data collection and accuracy of the data. Using SOC 1 controls, this team enters and reviews the data on a daily basis to ensure accuracy in all of our reporting deliverables. The client operations group, overseen by Christopher Corrao, is responsible for day-to-day maintenance and meeting all client reporting needs. This group oversees the portfolio cash flow activity and prepares all monthly, quarterly, and annual reporting deliverables for the client. The relationship management group is in charge of portfolio construction and strategic planning. Using many internal models, they are able to predict future portfolio activity, and thus, work with the client to maintain their preferred allocation to the private markets.

An organizational chart of the team is provided below.

- d. If you maintain an internal manager database, do you sell it to third parties? How is the compensation for access structured?

We do not offer access to our internal manager database to third parties. However, we do offer access to our exclusive portfolio analytics software, Cobalt, for a fee.

Cobalt is Hamilton Lane's exclusive portfolio analytics software, which was launched in October 2016. Hamilton Lane entered into a strategic partnership with Bison (Boston Illiquid Securities Offering Network, Inc.), a company focused on creating innovative analytical systems for the private markets industry. Together, Hamilton Lane and Bison launched Cobalt, a cutting-edge analytics platform designed to meet the evolving needs of all private markets constituents by offering enhanced portfolio analytics, fund due diligence, peer analysis and cash-flow forecasting. For more information on Cobalt, please reference [Section G, Question 6](#).

- e. What fees or other consideration, if any, do you receive from managers who wish to be maintained in your database?

Not applicable. We do not charge managers to be included in our database.

D. Risk Management and Monitoring

1. Do you have dedicated individuals or a team separately responsible for risk management?

Risk management is a core function incorporated into every department and is not treated as a stand-alone function. Each department faces unique risks, and senior department managers are charged with managing those specific risks throughout their functional area. This includes functional

redundancy, quantitative tools and back-up systems. Risk management oversight and direction across the firm is provided by the firm's CEO, Vice Chairman, General Counsel, COO, CFO, and Head of International. These officers, together with the other members of senior management of the firm, meet on a regular basis to identify and discuss the risks associated with proposed initiatives, on-going projects and individual departments.

We have processes in place throughout our organization to measure and manage several types of risk related to both our clients' capital and our operations: investment risk management, operational risk management and legal risk management.

Risk Management Strategies	
Investment	
Strategy Planning	The strategic plan outlines the goals and constraints appropriate to the risk appetite of the client. In setting target weights for strategy and geographic exposures, we seek to balance opportunities in the present investment environment with the appropriate amount of risk. We use propriety tools to help assess risks and examine how the economic and financial environment may affect the drivers of return within each strategy.
Investment Selection	The due diligence on individual investment decisions is focused on risks taken in the historical portfolio and prospective risks going forward. We play an ongoing role in investment risk management as an active member of many LP advisory boards – monitoring potential manager conflicts and serving as an active voice to mitigate them.
Portfolio Building	We focus on the underlying drivers of performance within funds and how these drivers may be related across managers or strategies. We are attuned to the strategies and value-added capabilities of our investment managers and strive to assemble a portfolio of complementarily exposures and uncorrelated alphas.
Ongoing Monitoring	We play an ongoing role in investment risk management as an active member of many limited partner advisory boards; monitoring potential conflicts and serving as an active voice to mitigate them. It is important not to give 'rubber stamp' approval to actions that are not in line with industry best practices.
Operational	
Systems	Our IT team carries out protocols to protect against electronic and physical intrusion, maintains redundant systems and external connections for voice and data communications, and keeps daily offsite backups of key systems for client and internal data. All of this is done with the goal of maintaining continuous system uptime for our global operations.
Business Continuation	Our business interruption plan provides for temporary services and facilities from Quantum from our headquarters location and remote network access for other global offices.
General Business Risk	Management of operational risk is overseen by the firm's risk management committee, consisting of 6 members of senior management. The committee meets periodically to consider risks in all the company's departments and the controls designed to mitigate those risks.
Legal and Regulatory	
RIA Requirements	Legal and regulatory risk management are coordinated by our general counsel, who is supported by our Director of Compliance and compliance managers. Our Compliance Department provides on-going education throughout the firm and ensures enforcement of our documented Code of Ethics and Compliance Manual.
Securities Law Compliance	The Compliance Department ensures that we adhere to the requirements necessary to maintain our Registered Investment Advisor status with the U.S. SEC as well as compliance with securities regulations and laws in jurisdictions where we do business.

2. Do you employ stress testing and/or scenario analysis? If so, please describe.

We utilize a number of quantitative tools and systems to conduct risk analysis on our investments. Risk measurement and management in private markets is unlike other asset classes where risk is measured by volatility of investment returns. Given that private equity investments are illiquid and valued only periodically, the data to make accurate judgments on risk using traditional methods (standard deviation, Sharpe Ratio, etc.) either do not exist or are not statistically sound enough to draw meaningful conclusions.

As described in more detail in **Question 3** below, we seek to quantify risk for private equity at three levels: the macro level, the manager selection level, and the portfolio construction level. At the macro level, we do extensive market and sector research. We bring clear market perspective and opinion on the relevant areas of private equity that should be considered for investment in an upcoming year.

At the manager selection level, our due diligence process includes a rigorous evaluation of the fund manager's prior performance on an absolute and relative basis, identifying risk attributes related to the types and structures of deals. We also examine operational infrastructure. Hamilton Lane also leverages our data to optimally construct portfolios. Using the information gathered in our due diligence process, we determine the appropriate portfolio fit for a given fund.

- 3. List any quantitative risk metrics you utilize along with a description of how they are used and why you believe they are useful. Specifically discuss views on diversification, private markets program construction, style drift, fit within the fund allocation, and risk adjusted return considerations.**

From an investment standpoint, we evaluate risk at the time of investment as part of our diligence process. We measure risks at the portfolio company level (leverage, cyclical, duration, valuation, etc.) and at the manager level (track record, general partner longevity, quality assessment) to determine the risk profile for a particular investment, allowing us to calibrate the required return relative to risk.

Risk Management

Risk measurement and management in private markets is unlike other asset classes where risk is measured by volatility of investment returns. Given that private equity investments are illiquid and valued only periodically, the data to make accurate judgments on risk using traditional methods (standard deviation, Sharpe Ratio, etc.) either do not exist or are not statistically sound enough to draw meaningful conclusions.

At Hamilton Lane, we seek to quantify risk for private markets at three levels:

- the macro level;
- the manager selection level; and
- the portfolio construction level.

From a macro perspective, we seek to understand the market and what is driving investment returns. It is our view that the investment cycles in private markets run about the length of the investment periods in the underlying partnerships; approximately 4 to 6 years. Looking back from the early 1980s to the current environment, private markets show a fairly clear pattern of these types of cycles.

To ensure that we have the best available information, our dedicated Research Team maintains a robust database and library of information on the private markets compiled from more than 90 unique data sources. Equipped with this information, our Investment Committee and investment professionals develop a framework for our views of the sub-asset classes and private markets as a whole. This research is complemented by our global market reach, through which we review 600 to

700 new fund offerings per year and maintain close relationships with the major private markets participants.

Due to the long-term nature of a private markets partnership, where the investors' options for liquidity are minimal, the evaluation of each fund manager prior to investing is crucial. Hamilton Lane's due diligence process is multi-tiered and places significant emphasis on those elements of risk and financial analysis that distinguish private markets from the more conventional asset classes.

Market Volatility and Risk/Return Considerations

Hamilton Lane believes private equity allocation is an important component in structuring a successful well-diversified portfolio, given its lower volatility and higher risk adjusted. We work closely with clients to consider how their private equity program fits into the larger portfolio. As it relates to other asset classes, the following are arguments to include private equity as part of overall portfolio allocation:

- Fixed income yields are relatively low historically. To achieve target plan returns, portfolio managers must search for higher returning asset classes.
- Public equity returns have been quite strong recently, but have experienced two major corrections in the past 15 years and have underperformed private equity on a long-term basis (10+ years).
- Private equity provides diversification to an overall portfolio with exposure to other asset classes. While there is some correlation to public markets, a well-constructed private equity portfolio can act as a diversifier in up and down markets.
- Hamilton Lane is able to use our market-leading database and analytical tools to measure the quarterly returns of private equity and "de-smooth" these returns using commonly accepted algorithms for adjusting smoothed volatility in other alternative assets classes. Even after "de-smoothing" private equity returns, private equity still has had lower volatility and higher risk-adjusted returns than most other asset classes available to portfolio managers. Over long-term horizons, private equity continues to outperform other asset classes on an absolute and risk-adjusted basis.

The HFRI Fund Weighted Composite Index does not include Funds of Hedge Funds.

Desmoothing is a mathematical process to remove serial autocorrelation in the return stream of assets that experience infrequent appraisal pricing, such as private equity. Desmoothed returns may more accurately capture volatility than reported returns. The formula used here for desmoothing is:

$$r_D(t) = (r(t) - r(t-1) * p) / (1 - p)$$

where: $r_D(t)$ = the desmoothed return for period t
 $r(t)$ = the return for period t
 p = the autocorrelation

4. Provide an overview of any third-party or internally developed risk systems or tools, how they are used and the standard output/reports they generate. Please include a standard risk report as an appendix to your response.

Please refer to the chart above which utilizes our internal database to generate risk-adjusted performance among varying asset classes. Furthermore, there are several examples of internally developed measurements of risk within our investment reports. 5. Describe your process of reviewing investment manager risk adjusted performance and consistency of investment approach.

As mentioned above in [Question 3](#), we review investment manager risk-adjusted performance as part of our diligence process. We measure risks at the portfolio company level (leverage, cyclicality, duration, valuation, etc.) and at the manager level (track record, GP longevity, quality assessment) to determine the risk profile for a particular investment, allowing us to calibrate the required return relative to risk.

Hamilton Lane's due diligence process is multi-tiered and places significant emphasis on those elements of risk and financial analysis that distinguish the private markets from the more conventional asset classes. The same thorough and time-tested process is utilized for every opportunity regardless of prior investments with the general partner.

6. How do you ensure the accuracy of manager-reported data? How is this information collected and processed?

Hamilton Lane Monitoring and Reporting professionals handle all financial documents received from the general partners. Anytime a general partner sends a capital call notice, distribution notice, quarterly financial statement, investor capital account balance, or any general correspondence, the Monitoring and Reporting professionals are responsible for saving the document electronically and preparing the notice for the data entry team's receipt so it can in turn be processed into iLEVEL™. These documents are sent from the general partners via e-mail, hard copy mail, fax, or as excel data sheets as we prefer.

When correspondence comes in from a general partner, our Data Integrity Team saves the document based on a priority scale (a. Stock Distribution, b. Cash Distribution, etc.). An analyst reviews an internal matrix that lists Hamilton Lane clients by partnership to ensure all appropriate investor documents are received and processed. If an investor notice is missing, or further investment detail is needed, a Hamilton Lane analyst will contact the general partner.

The Hamilton Lane Data Entry Team next processes the notice into iLEVEL™. This team is responsible for the entry of cash flows, stock distributions, client market values, and portfolio company holdings and metrics.

Hamilton Lane practices the concept of four eyes review. Every data point that is entered or uploaded into our system is reviewed by the enterer as well as a supervisor. The manager of our investment analyst pool is responsible for monitoring general partner compliance with partnership terms and consistency with the investment approach. Further, additional quality controls around the Data Entry Team's entries are executed by both the Data Integrity Team and the larger Client Reporting Team.

These quality controls range from daily to quarterly and include the following reviews to further provide our clients comfort in our reporting:

- Daily IRR check
- Daily cash flows check
- Daily portfolio company holdings changes check
- Weekly distributions report
- Quarterly client exposure check

These controls are completed by several Data Integrity and Client Reporting Team members, which allows for sufficient redundancy and coverage at different stages of the reporting process.

Additionally, General partners value their portfolio investments in accordance with the valuation policy outlined in their respective partnership agreements.

When negotiating partnership agreements, our in-house legal team requires the use of Generally Accepted Accounting Principles (GAAP) financial statements, which inherently require a fair value presentation of the portfolio investments.

We continually review the quarterly and annual financial reports provided by the general partner groups to ensure accuracy and compliance with the partnership agreement. The review includes a reconciliation of the cash activity during the latest reporting period as stated by the general partner to the activity in our performance database, and a compliance review of the valuation of the portfolio holdings. Discrepancies are raised with the general partner groups for resolution.

Our Client Services Team logs every cash flow and quarterly valuation into the Fund Investment Database, and also tags each fund and general partner with descriptive data such as strategy, vintage, size, and geographic focus. More information on the Fund Investment Database is described above in [Section C, Question 3](#).

7. Describe your process for providing ongoing monitoring and oversight related to investment objectives, contract and guideline compliance, account restrictions, conflicts of interest and reporting requirements.

As described in [Question 5](#), Hamilton Lane practices the concept of four eyes review. Every data point that is entered or uploaded into our system is reviewed by the enterer as well as a supervisor. Further, additional quality controls around the Data Entry Team's entries are executed by both the Data Integrity Team and the larger Client Reporting Team.

Additionally, PSERS' dedicated Relationship Management team will provide continuous oversight of the plan's investment objectives, providing monitoring and oversight over specific compliance guidelines and reporting requirements.

Increased transparency is a growing need for all limited partners. We are at the forefront of providing portfolio and company level detail to our clients by increasing the number of reportable and meaningful data points we provide. We track portfolio information at both the investment and investment company level.

- **Investment Level:** funds, co-investments, secondary and direct investments within a portfolio
- **Portfolio investment level cash flows with specific usage detail:** Management fees, organizational costs, fund expenses, capital calls for investments indicating the investment

name when available, return of capital, return of management fees, income, gain/loss, GP carry, recallable/recyclable capital and more

- **Portfolio Investment Identifiers:** Strategies, sub-strategies, geographies, vintage years, closing dates, management fee terms, terms of the partnership, carry percentages, fund descriptions, and more
- **Investment Performance:** Individual investment, total portfolio, and custom set reporting available using IRR, TWR, total return and various performance multiples
- **Underlying Investment Company Level:** Investment companies within each fund investment in the portfolio
- **Company Identifiers:** Cross partnerships, stock exchange, ticker symbol, location (region, country, city and state when applicable), GICS industry sector and industry group
- **Cost/Valuation Metrics:** Total invested cost, remaining cost, fair market value, total investment proceeds, realization status

Data Integrity

The process of entering data into our system includes a number of controls designed to increase data integrity. As quarterly financial information and periodic cash flow transactions become available from the general partners, documents are uploaded to SharePoint, a web-based system for housing and sharing files. Through SharePoint, workflow processes allow the data integrity managers to effectively monitor daily activity, from receipt of financial information to data entry and quality control.

Our Data Integrity Team conducts data entry in a SOC1 (formerly SAS 70 Type II) certified back office operational environment. The team is well versed in many valuation, accounting, and performance standards such as U.S. GAAP, UK GAAP, IFRS and ILPA. In order to ensure the accuracy of data in our system, we have developed daily IRR reports, which indicate the IRR movements of fund market values quarter over quarter. We review cash flow reports daily to ensure that all transactions have been entered and reviewed across our client base.

Cash flows normally are entered within 24 hours of receipt. Quarterly financial information is contingent upon the issuance of reports by the fund managers. On average, receipt and entry of data is 8% complete after 30 days past quarter end, 75% after 60 days, and 97% after 90 days past quarter end. In an effort to increase transparency and timing, Hamilton Lane's Data Integrity Team inquires about the availability of quarterly financials at 30 days past the quarter end in interim quarters and at 75 days past year end for audited information.

8. Describe your approach to post-investment due diligence including the groups or individuals, deliverables, decision points and timeframe associated with each component. 10. How do you evaluate leverage within private markets investments?

During diligence, we assess a manager's ability to generate returns by considering various factors including volatility (e.g., write-off ratios, loss-ratios), attribution, and factors within each deal. On a deal-by-deal basis, we look at a manager's historical returns generated from EBITDA growth, debt reduction or multiple arbitrage.

We also look at a manager's use of leverage at entry and exit as well as multiples of leverage by deal. Every fund manager is different in the amount of leverage used and its ability to use leverage effectively. Some managers have been very successful employing leverage to inflate returns, while other investments have seen leverage negatively impact performance. Our investment team spends a considerable amount of time during fund diligence getting comfortable with a manager's use of leverage and whether it has been able to generate strong performance using this tool.

While it is hard to pinpoint one factor that consistently propels a manager's returns, we find through our extensive track record analysis that we can assess a manager's ability to repeat such performance in various market cycles. For instance, we have a preference for value-oriented

managers who bring operational capabilities to bear on portfolio company development as opposed to managers who typically buy high with high leverage.

Below is an example of Hamilton Lane's value creation analysis for a fund investment. This analysis is included in every investment report.

11. Has a private markets manager that your firm recommended to a client ever announced they were not raising another fund or otherwise gone out of business? If so, describe each instance, how the news was handled, the lessons that were learned and any subsequent changes that were made in response to these events.

E. Reporting

1. List investment research reports or studies that you have provided clients in the past 12 months. Describe your capability to carry out special projects requested by PSERS. Provide a sample report that best represents your research capabilities.

As described previously, Hamilton Lane's dedicated Research Group works closely with the Investment and Client Service teams to develop research materials for our clients. Leveraging our robust internal database and external resources, the Research Group helps the firm develop better investment insights around portfolio construction and risk management with topical papers and provision of data from internal and external sources. The team produces numerous reports and studies ranging on a variety of topics, some client-specific and some for broad distribution. As an example of their work, we have provided sample research materials in [Attachment E](#).

[Attachment E is considered confidential.]

2. Please provide a sample of the periodic reports produced for a typical public pension fund client (i.e., quarterly report, pacing analysis, performance, exposures, risk).

Please reference [Attachment F](#) for a copy of a sample quarterly client report, which is typical for a public pension client. This report can be fully customized to fit the needs of a particular client, but can include performance, quarterly reports, risks, etc.) **[Attachment F is considered confidential.]**

We have also provided a sample strategic plan ([Attachment A](#)) which demonstrates our pacing analysis capabilities. **[Attachment A is considered confidential.]**

3. What types of general research reports or white papers do you produce and distribute to clients? Please attach the three most recent reports. Outline the sources used to obtain data for publication of newsletters or periodicals. Include samples of your publications.

As described above, we produce general research reports and white papers on a variety of topics that affect the private markets, such as global economic events, financial market trends, and specific Issues affecting various private markets sub-strategies. Additionally, each quarter we produce Hamilton Lane FINDS, which are quarterly insights from Hamilton Lane's Fund Investment Database.

We typically use our extensive, proprietary database as a basis for our research reports, however, we supplement this data with widely recognized third party resources and external research reports, such as Venture Economics, Cambridge, NCREIF, Thompson Reuters, NAREIT and REIS. Other than for benchmarking purposes, we also will refer to freely available or peripherally acquired external white papers for further market perspective and intelligence, while not relying on them to form any key opinions or decisions regarding our market stance or investments.

We have provided three recent research reports in [Attachment E](#). **[Attachment E is considered confidential.]**

4. How do you communicate important developments and relevant information to clients outside of standard reporting packages and board meetings?

We take great pride in building long-term, productive relationships with our clients, which can be attributed to our open lines of communication and transparency.

PSERS' dedicated Relationship Management Team will be proactive in communicating important developments and relevant information outside of routine communication processes and board meetings. As described previously, our communication plans are completely customizable and PSERS and we will adjust the frequency of our interactions as determined by PSERS. For example, we can accommodate clients who want to be more involved and have daily/weekly interactions, and we can also accommodate clients who prefer to keep communications to monthly check-ins. We will come up with a customized communications plan to fit the need of PSERS at the onset of the relationship.

F. Conflicts of Interest

- 1. Describe in detail any potential conflicts of interest your firm may have in providing consulting services to PSERS. Include any activities of affiliated or parent organizations, brokerage activities, investment banking activities, or other relevant functions. Include any other pertinent activities, actions, or relationships not specifically outlined in this question.**

We do not foresee any potential conflicts of interest in providing the services outlined for PSERS. As a registered investment adviser, Hamilton Lane discloses potential conflicts of interest in our Form ADV. Potential conflicts involving Hamilton Lane funds are discussed with the fund's advisory board. If potential conflicts arise in connection with our review and consideration of actions proposed by fund managers, such as amendments to fund documents or waivers of covenants, our policy is to disclose the conflict to the applicable clients and act only in accordance with their instructions.

We are one of the most experienced service providers in the private markets industry and take any potential conflict of interest very seriously. We have built a business model that allows us to provide our services with the utmost integrity and openness. We have found that our business lines are complementary and are set up to benefit all of our clients. As a recognized leader in private markets, we have been successfully managing these business lines for more than a decade.

Nevertheless, the firm has policies in place to avoid potential conflicts of interest such as using company assets only for company business and not for personal gain; allocating investment opportunities in a manner that is fair and does not favor or disfavor any client; avoiding outside financial interests, employment and other activities that could interfere with Hamilton Lane business; and prohibiting employees from using their position with Hamilton Lane to take advantage of business opportunities that properly belong to Hamilton Lane.

We do not believe our advisory, separate account, fund-of-funds or fund administration business lines create a material conflict of interest for the following reasons:

- 1) Our investment team is structured to search the globe and identify what we believe are the best private markets investment opportunities to meet each client's needs. Investment professionals are separate from relationship managers, who manage client-specific needs.
- 2) As a manager of multiple clients and fund vehicles, Hamilton Lane is charged with allocating potential investment opportunities among our various client entities. This process is managed by the firm's Allocation Committee, with substantial input from the relationship managers and Investment Team. The integrity of the process is ensured by the oversight of the Chief Compliance Officer.
- 3) Our process is time tested and transparent. We do not favor one type of client or product over any other type of client or product, and we have clients that review us annually on every fund investment made for that given year.

2. Has your firm adopted the CFA Institute's Code of Ethics and Standards of Professional Conduct?

While we have not adopted the CFA Institute's specific Code of Ethics and Standards of Professional Conduct, we do have a written Code of Ethics. Our Code of Ethics and Compliance Manual outline the guidelines for professional behavior. For additional information, please refer to [Attachment R](#) and [S](#) for our Code of Ethics and Compliance Manual. **[Attachments R & S are considered confidential.]**

3. Does your firm maintain a comparable written ethics or compliance manual or policy? If so, please provide a copy and a description of any similar management control tools.

Yes. Hamilton Lane maintains a written Compliance Manual and Code of Ethics outlining guidelines for professional behavior. The policy specifically prohibits employees from accepting or receiving cash gifts, bonuses, fees or commissions of any amount from persons or firms with which Hamilton Lane does business.

Each employee is required to review the Code of Ethics and sign an Acknowledgment & Agreement to Comply. The firm's Compliance Department monitors adherence to these documents and enforces any breach of the agreement. In addition, the Compliance Department conducts required annual training to ensure employees are up-to-date on current compliance trends and issues. All employees are required to certify that their actions have been in accordance with Hamilton Lane's compliance procedures annually.

For additional information, please refer to [Attachment R](#) and [S](#) for our Code of Ethics and Compliance Manual. **[Attachments R & S are considered confidential.]**

4. Does the firm or any employees of the firm invest their own capital in investment opportunities that they also recommend for clients? If yes, please explain how potential conflicts that arise from these activities are mitigated, and how they are communicated to clients.

5. Are there any circumstances under which your organization or any of its employee's receives compensation, finder's fees, or any other benefit from investment managers or third parties? If yes, please describe these arrangements in detail.

No. We do not receive compensation, finder's fees, or any other benefits from any investment managers or third parties.

6. Describe how your firm is compensated on discretionary accounts you manage for clients.

Fee schedules for our discretionary accounts are entirely customizable based on the services provided to each discretionary client. Because we customize the services provided based on the goals and objectives of each client, fees can vary widely. When determining fees for our discretionary services, we take into account several variables, such as the client's current private markets program, the types of investments managed, how many funds are being monitored, and the extent of our various services utilized (to name a few).

Please refer to the attached sample client report (**Attachment F**) for more information. In addition, below is a description of our quarterly financial data integrity process to show further our commitment to our clients' portfolio data integrity.

When correspondence comes in from a general partner, our Data Integrity Team saves the document based on a priority scale (a. Stock Distribution, b. Cash Distribution, etc.). An analyst reviews an internal matrix that lists Hamilton Lane clients by partnership to ensure all appropriate investor documents are received and processed. If an investor notice is missing, or further investment detail is needed, a Hamilton Lane analyst will contact the general partner.

The Hamilton Lane Data Entry Team next processes the notice into iLEVEL™. This team is responsible for the entry of cash flows, stock distributions, client market values, and portfolio company holdings and metrics.

Hamilton Lane practices the concept of four eyes review. Every data point that is entered or uploaded into our system is reviewed by the enterer as well as a supervisor. Further, additional quality controls around the Data Entry Team's entries are executed by both the Data Integrity Team and the larger Client Reporting Team.

These quality controls range from daily to quarterly and include the following reviews to further provide our clients comfort in our reporting:

- Daily IRR check
- Daily cash flows check
- Daily portfolio company holdings changes check
- Weekly distributions report
- Quarterly client exposure check

These controls are completed by several Data Integrity and Client Reporting Team members, which allows for sufficient redundancy and coverage at different stages of the reporting process.

H. Operational Due Diligence (ODD) Philosophy and Process

1. Please discuss your firm's philosophy on the structuring and performance of ODD for investment managers.

Our operational due diligence ("ODD") program is designed to assess and help mitigate the initial and ongoing operational risks associated with the private equity industry. The operational diligence team resides in the client services department of the firm (separate from the investment team), and its members are former big four public accountants who have over twenty years of combined operational experience in the financial services industry.

While ODD resides in a separate department of the firm, the team works in conjunction with the investment team to perform pre-investment diligence procedures on primary investments.

Our firm also employs an on-going rigid data verification process that ensures data integrity and general partner term compliance. We have a team dedicated to monitoring general partner's compliance with key terms of limited partnership agreements. Our customized approach is designed to mitigate risk, increase transparency and safeguard invested and committed capital.

2. Is ODD considered to be part of the overall due diligence processes? Please describe.

Yes, we consider ODD to be a key part of our overall diligence program. Our ODD team is incorporated into our diligence process once a potential investment reaches the full diligence phase.

3. Describe the ODD review process for the asset classes for which you will be contracted to cover. Some of the items that should be addressed in this process include:

a. What is the process for meeting and conducting on-site visits with investment managers?

When a potential investment reaches the full diligence phase of our diligence process, the questionnaire package issued to the manager includes a separate questionnaire solely focused on operational diligence. Please refer to [Attachment O](#) for our ODD Questionnaire.

[Attachment O is considered confidential.]

The ODD team reviews and analyzes the manager's response and identifies items which need to be addressed by the investment team during on-site visits.

The investment team conducts a day-long site visit at the manager's office to go through, in detail, the group's back-office practices, track record, portfolio companies and investment strategy/philosophy. Further, this allows us to meet and evaluate the entire team. During meetings at our offices and on-site visits, we seek to meet as many members of the team as possible, as their individual abilities and collective cohesion are often crucial drivers of success. Understanding how staff is developed and compensated across the organization, how the future direction of the firm is considered, and the positioning of the firm in the current market are all crucial to forming a judgment as to the caliber of the organization.

It should be noted that by this stage in the process, we have already conducted an initial meeting with the manager in our offices. If the investment team and the Investment Committee then determine that a private markets manager has reached the full diligence phase in the due diligence process, the investment team will send the private markets manager a full questionnaire that is specific to its investment strategy. Once the data has been submitted, the investment team reviews the responses, analyzes the quantitative data that was sent and prepares it in a proprietary track record. If the analysis confirms that the private markets

manager is top quartile and all of the information meets the investment team's expectations, Hamilton Lane will conduct a day-long site visit at the fund manager's office.

b. When and how are phone interviews performed?

Depending on the results of the ODD questionnaire assessment and site visit, the ODD team may conduct additional phone interviews to resolve open issues. Phone interviews are typically held with senior management and technical positions of the fund manager, including CFOs, CCOs, COOs, IT professionals, etc.

c. How are responsibilities divided if the engagement is staffed by two or more individuals?

A typical due diligence team is comprised of a Senior Lead (Managing Director, Principal, Vice President), a mid-level professional (Sr. Associate, Associate), 1 to 2 junior level professionals (Sr. Analyst, Analyst), and a member of the ODD team (Sr. Associate). Due diligence at Hamilton Lane is handled by a group of 97 investment professionals (as of December 31, 2016), who are divided into the following teams: Fund Investment Team, Co-Investment Team, Secondaries Team and Research. This group is overseen by our Investment Committee, which makes all investment decisions. Investment approval requires a formal committee vote. Investments are deemed approved unless more than two Investment Committee members vote against it. All investment professionals work exclusively on private markets, and 100% of their time is dedicated to manager research. Our due diligence process typically lasts three months from initial screening to final investment recommendation.

d. How does your firm assess, detect and report on managers operational /non-portfolio risk factors?

When a potential investment reaches the full diligence phase in the due diligence process, an ODD questionnaire is issued to the manager which focuses on the manager's policies, procedures, and controls within the following key operational areas:

- Valuation and accounting
- Legal and compliance
- Internal oversight and governance
- Staff and service providers
- Technology

The ODD team performs a risk assessment based on the manager's response, which includes approximately 50 separate quantitative assessments to assess the operational risk at the manager. A member of the ODD team will collaborate with the investment team to follow-up on specific issues which identified in the risk assessment during the on-site visit. If needed, a member of the ODD team may also hold a phone interview with the fund manager to resolve open issues. The ODD team issues a report to the fund investment team for inclusion in their final investment report to the Investment Committee.

e. What data do you collect from each manager and what other sources of information do you utilize for ODD assessment purposes?

As mentioned, we request that each general partner respond to specific questions about their policies, procedures and controls within key operational areas. In addition to these responses, we ask that manager's provide their valuation policy, compliance manual, code of ethics, recent correspondence from regulators, internal and third-party independent exams of internal controls, auditor management letters, litigation questionnaires, recent financial statements, and other applicable policies and procedures.

Outside of manager provided data, we also query databases in broad news, financial service archive systems, and legal and public record archive systems. The search terms are typically the key personnel at the general partner and the firm itself, and are designed to identify any litigation or other risk inherent in the general partner that can be identified in publicly available documents.

f. Describe what aspects, if any, of the operational review are outsourced to third parties.

We do not outsource any aspects of our operational review to third parties. All operational due diligence at Hamilton Lane is handled in-house.

4. How long does the average ODD report take to complete? What's been the quickest and longest turn-around time for such reports?

We utilize the same thorough and time-tested due diligence process for every opportunity regardless of prior investments with a general partner. Our due diligence process typically lasts three months from initial screening to final investment recommendation.

5. Do you have dedicated individuals or teams separately responsible for investment, operational, and legal/compliance due diligence? If so, does each group have authority to “veto” a prospective investment before a recommendation is made to a client or at any time thereafter?

Although our respective investment teams coordinate all diligence activities, we do have separate groups responsible for investment, operational, and legal/compliance due diligence.

As described above in [Question 1](#), we have dedicated resources for ODD.

Hamilton Lane's due diligence process is multi-tiered and places significant emphasis on those elements of risk and financial analysis that distinguish the private markets from the more conventional asset classes. The same thorough and time-tested process is utilized for every opportunity regardless of prior investments with the general partner. Our due diligence approach ensures that every important area of analysis is thoroughly reviewed, and it also provides the flexibility to discover new and/or unique areas of potential concern and opportunity.

In terms of legal due diligence, Hamilton Lane has a full-time in-house legal team with extensive experience in partnership negotiations that reviews economic and legal terms of new investments in comparison with the most recent standard market terms. Our legal team focuses on the management fee and partnership expenses, certain investment diversification and concentration terms, priority of distributions and carried interest (including the manager's claw-back and credit support), limitations on a manager's authority, no-fault divorce and “for cause” termination rights, and key person terms. In addition, we scrutinize client-specific issues such as FOIA disclosure, ERISA, and unrelated business taxable income.

Without exception, every investment opportunity that is received is presented to the Investment Committee. Our Investment Committee is at the center of our investment decision-making process and is responsible for reviewing the opportunity during each phase of the due diligence process. They take the recommendations of each due diligence group into account before making an informed decision whether or not the opportunity should move forward with the diligence process. Over the course of due diligence, all issues are discussed prior to the final decision. For final approval of an investment, the designated Investment Committee requires a majority. Investments are deemed approved unless more than two Investment Committee member vote against it. These

steps prevent any one individual from having undue influence on an opportunity throughout the process.

- a. **If so, what are the 3-5 most important factors that would cause the ODD team to otherwise suggest that a manager/fund not be recommended for investment to a client that would otherwise be attractive from an investment due diligence perspective?**

Our ODD team analyzes and considers a number of factors during its comprehensive review. The team takes into account the responses to the operational due diligence questionnaire, the operational risk assessment, onsite visits, and phone interviews when forming its independent assessment and recommendation.

- b. **If not, please explain why.**

Not applicable.

6. **How is your firm able to demonstrate risk reduction improvement through the application of your ODD assessments, either at the portfolio of manager's level or at the individual manager level?**

Hamilton Lane has hosted six Back Office Best Practices events in our global offices. We use the event to strengthen our relationship with general partners and help convey to them what we believe to be best practices across several back office functions. Our goal of this event is to strengthen the understanding of what our limited partners demand from the general partners with whom they invest.

Topics covered during the events are J-curve management and the standardization of reporting cash flows, limited partners growing demand for more granular cash flow and company data points, performance standardization, ILPA topics, operational diligence, AIFMD and Cybersecurity compliance issues, financial statement transparency, valuations procedures, and tax reporting best practices.

In addition, when holding phone interviews with investment managers as described in [Question 3b](#), managers are often eager to learn and implement best practices that we're seeing in the industry.

7. **How frequently does your firm update its ODD reviews on investment managers?**

We perform a full operational diligence review each time an investment manager raises a new fund, which is typically every 3-5 years. In the intervening period, we continuously monitor fund managers through the following procedures:

- Advisory board representation
- Annual meeting attendance
- LPA amendment review
- GP communications
- GP update meetings
- Cash flow review
- Financial statement review
- IRR checks

8. **How frequently does your firm review and update its ODD program process, structure and reporting?**

We continually refine our ODD program and process to be responsive to industry trends and issues. We initially implemented our ODD processes in response to requirements for public pension plans and we continue to hone our program in response to specific client and industry requirements.

- 9. Describe your objective and subjective standards used in an ODD assessment. Describe how you develop an opinion of the internal control environment of a manager, noting the tools and methods involved.**

Our ODD team analyzes and considers a number of factors during its comprehensive review. When reviewing manager responses to the ODD questionnaire, our team performs approximately 50 separate quantitative assessments to assess the operational risk and the control environment at the manager, which is analyzed in conjunction with the results of on-site visits, outside database queries, and phone interviews when the ODD team forms its independent assessment and recommendation.

- 10. Please discuss how your firm addresses the following topics within their ODD program:**

- a. Manager's personnel background checks. Please describe your approach to performing reference checks on prospective managers, including both named and informal references. Please discuss the specific roles/titles of key individuals (i.e., CIO, portfolio managers, CEO, CFO, etc.) typically checked, the specific red flags your firm attempts to identify for use in evaluating these key individuals, and which service provider(s) your firm utilizes to perform these background checks.**

Hamilton Lane validates the background of the general partners it recommends through several steps of our diligence process. The lengthy questionnaire that forms a central part of fund review contains multiple facets designed to get to the core of risks related to the key personnel at the general partner. Those steps are highlighted as follows.

Reference Checking: Hamilton Lane undertakes a reference checking process with each investment diligence it performs. We meet with or interview the CEOs and management teams of portfolio companies in order to gain insight into the general partner's operations. We contact other managers who may have co-invested with the manager in question, or who may have bought or sold companies to the manager. We also perform reference checks with industry contacts and with other committed or prospective investors.

Database Queries: Hamilton Lane queries databases in broad news, financial service archive systems, and legal and public record archive systems. The search terms are typically the key personnel at the general partner and the firm itself, and are designed to identify any litigation or other risk inherent in the GP that can be identified in publicly available documents.

Legal and Litigation Review: A litigation questionnaire is required as part of Hamilton Lane's investment diligence. We review and require verification and sign off of any potential legal issues within a general partner's organization or with its senior staff.

Full Site Visit: Hamilton Lane conducts a full site visit of the general partner's key office or offices. The visit includes a physical inspection of the space, and may include a review of the historical files and documents relating to the operations of the general partner and its funds. Further, Hamilton Lane requests individual meetings with multiple personnel at the general partner and asks each of those parties a series of questions related to their competence and credibility.

- b. The fund's corporate and organizational structure.**

As part of the diligence process, we obtain and review the manager's corporate and organizational charts. These structures are reviewed by our investment, ODD, and legal teams to determine the appropriateness of firm resources and entity structures.

c. Key personnel competency, succession planning, and retention/turnover.

We conduct extensive reference checking on all general partners going through our diligence process. To perform these checks, we use industry contacts, committed/prospective investors, as well as other managers that may have co-invested with, or bought or sold companies to the manager.

We investigate key personnel competency through a thorough review of educational background and job background. We also review the firm's succession plans and analyze employee turnover rates.

d. The fund's trade/transaction execution, allocation, recording and reconciliation processes and controls.

We review and analyze the manager's processes and controls around:

- Bank reconciliations
- Security reconciliations
- Investment funding
- Allocation of expenses between entities
- Allocation of investment opportunities between entities
- Transparency of limited partner reporting (for new investment fund managers)

e. Third party service providers review, contracting and monitoring, to include: administrators, custodians and other banks, prime brokers, compliance consultants, accountants, third-party legal counsel, valuation agents, information technology and auditors.

We review the reputation and appropriateness of outside services providers in the areas of:

- Fund accounting / administration
- Custodians
- External auditors
- Tax consultants
- Valuation specialists
- Compliance consultants
- Lawyers
- IT consultants

f. The quality, independence, experience and time availability of fund directors.

As previously mentioned, we investigate key personnel competency through a thorough review of educational background and job background. We also review the firm's succession plans and analyze employee turnover rate, we conduct extensive reference checking on all general partners going through our diligence process. To perform these checks, we use industry contacts, committed/prospective investors, as well as other managers that may have co-invested with, or bought or sold companies to the manager.

During the diligence process, we assess the processes the firm has in place to monitor and ensure that key personnel continue to meet the time and attention requirements of each fund.

We review the firm's procedures to ensure that employee personal trading and outside business activities do not create a conflict of interest.

We also require that key firm principals complete questionnaire regarding their other business interests, identifying all material business endeavors or investments that could impact the amount of time available for the fund being proposed

g. Financial statement review – fund and investment manager.

We review prior fund financial statements and quarterly reports.

h. Valuation practices, methodologies, and controls.

We review the firm's valuation process, including the role and responsibility of a valuation committee in the process. We review the firm's formal valuation policy, including what accounting standards and guidelines will be used by the firm when valuing investments. If the firm uses an independent third-party valuation specialist, that specialist is reviewed during the third-party service provider review, as described in [Question 10e](#).

i. Culture of Compliance – program development and application.

We review the firm's:

- Compliance team structure
- How the compliance function reports within the organization, including whether compliance has direct access to firm decision makers or an independent board
- How violations of firm policies and procedures are reported and reviewed
- Compliance training programs
- Compliance software utilized
- Compliance manual and code of ethics, with a specific focus on the following policies:
 - Insider trading
 - Personal trading
 - Anti-Money laundering
 - Whistleblower/violation reporting
 - Pay-to-play
 - Gifts and entertainment
 - Outside business activities
 - Advertising and marketing
 - Conflicts of interest

j. The firm's operational risk assessment, monitoring and mitigation capabilities.

We review the firm's risk management approach, including the types of risks that are monitored and how are they measured. This includes identifying whether there are dedicated employees assigned to the risk monitoring function, and if the firm maintains a written risk management policy.

k. Material Non-Public Information – processes and controls.

We review the processes that managers have in place to safeguard confidential information.

l. Consistency between performance and reported strategy/positions/exposures.

As part of our thorough full due diligence process, our Fund Investment Team thoroughly reviews the historical track record of the manager in comparison to the proposed fund's strategy. The team checks for consistency between the historical performance and the manager's reported strategy, positions, exposures.

Assessing investment acumen requires both a quantitative and a qualitative approach. Our quantitative process includes thorough analysis of the general partner's track record, utilizing our proprietary models to identify drivers of success in the past and potential for replicating that performance in the future. We revalue unrealized portfolio companies to ensure that the track record is a true representation of the value of the portfolio. We analyze the track record along multiple dimensions -- deal size, lead investment professional, industry, geography, etc., to determine whether there are any trends or anomalies that are driving returns. We also run a value creation analysis to determine how much of the value generated for each company has come through debt reduction, multiple expansion or EBITDA increase.

m. Expenses charged to the fund are for the proper operation of the fund, not egregious, nor outside of the current contract.

We review the controls in place around allocating expenses between funds and between funds and the management company. During legal diligence, our legal team reviews what expenses can be charged to the fund per the LPA.

n. Counterparty or lender risk management processes.

As described in [Question 10e](#), we review the reputation and appropriateness of custodians/lenders. In addition, as described in [Question 10j](#), we review the manager's operational risk assessment, monitoring and mitigation capabilities.

o. Regulatory registrations and reviews (Form ADV, Form PF, and SOC 1 report reviews, regulatory monitoring and compliance assessment, etc.).

During the pre-investment ODD we verify the firm's SEC registration status, review both the firm and third-party fund administrator's SOC 1 reports, and inquire about recent regulatory reviews. Refer to [Question 10i](#) for additional information on our review of each firm's compliance program.

p. Litigation, past or present, for fund management.

As described in [Question 10a](#), a litigation questionnaire is required as part of our diligence process. We review and require verification and sign off of any potential legal issues within a general partner's organization or with its senior staff.

q. Technology infrastructure (including data and cyber security, change management, threat assessment, penetration testing and disaster recovery).

We review the firm's IT resources, infrastructure, systems and security during pre-investment diligence, including how the firm addresses cyber security risks.

r. Business continuity plan assessment (including annual testing, employee training, and capabilities).

We review the firm's disaster recovery and business continuity plans, including how often the plans are reviewed/updated, the last time the plans were tested, and the results.

s. Verifying the existence of assets placed with third-party custodians and controls over these custodians.

During pre-investment diligence, funds typically do not hold any assets. As such, we cannot verify the existence of assets, but do review:

- Custodians where the firm will hold fund assets
- Segregation of duty controls around asset movement and reconciliation
- External auditors the firm has engaged
- How the firm monitors the work performed by significant third party providers

Once the fund has commenced operations, we rely on the external auditors to perform procedures on the existence of assets.

t. How do the aforementioned topics contribute to your assessment of the target firm's overall capability to mitigate operational risks and the firm's risk and internal control structuring?

All of these items are included in our comprehensive operational assessment.

11. What credentials (CPAs, forensic, operational, etc.) do the personnel that perform ODD engagements hold? Please be specific and provide the number of staff, name and biographical information, and experience of those engaged in ODD for your firm.

Provided below are the biographies of individuals who oversee our firm's Operational Due Diligence efforts:

Julie Shenkman, Vice President

Julie is a Vice President in Hamilton Lane's Client Service Team, where she is focused on operational due diligence, compliance, and risk management.

Prior to joining Hamilton Lane, Julie was an Audit Senior at Ernst & Young in the Financial Services Assurance Practice where she focused on audit and review procedures of Private Equity and Hedge Funds. Julie also participated in special projects included SEC filing reviews and Sarbanes-Oxley Section 404 compliance procedures.

Julie received a B.S. in Accounting from University of Delaware.

Patrick Kotras, Senior Associate

Patrick is a Senior Associate on Hamilton Lane's Client Service Team, where he is focused on operational due diligence, compliance, and risk management.

Prior to joining Hamilton Lane in 2016, Patrick served as Controller and Head of Operations at Dreamit Ventures, where he managed finance and back office operations. Previously, he worked at Camden Partners, ABS Capital Partners and PricewaterhouseCoopers.

Patrick received a M.S. in Taxation from the University of Baltimore and a B.S. in Accounting from the University of Maryland. He is an active CPA.

12. If your firm does not have ODD capabilities, why has your firm decided not to invest in developing such a program? Would your firm be willing to commit to developing a comprehensive ODD program? If yes, please describe the development plan for the program.

Not applicable.

- 13. Please provide current ODD report/memo samples produced by your firm for all services that will be covered under this contract.**

Please refer to **Attachment T** for a redacted summary page (ODD Dashboard) from our operational diligence report. **[Attachment T is considered confidential.]** The ODD Dashboard is an internal document which provides a high level summary of the operations at a prospective fund manager, and is supported by underlying detailed risk analyses as described in **Question 3d** that we do not distribute externally.

- 14. If you use a questionnaire as part of your external investment manager ODD process, please attach as an appendix to your response.**

Please refer to the **Attachment O** for a copy of our Operational Due Diligence Questionnaire. **[Attachment O is considered confidential.]**

- 15. What differentiates your firm's ODD capabilities from other competing firms? Please identify your competitive advantages and disadvantages.**

We are one of the largest investors of private markets capital in the world. As outlined in **Question 27**, in 2016 alone we screened over 700 funds, met with 250 GPs, and performed full diligence on 95 funds. This volume gives us insight into operational best practices which are being implemented throughout the industry.

Unlike many competing firms, we do not have a "one-size-fits-all" ODD program which covers multiple asset classes. Our ODD program was developed internally to specifically address the risks associated with the private markets asset class. Our ODD team members have worked in the back office of private equity firms and have first-hand experience on the key risks which affect the private markets managers.

- 16. Discuss the challenges generally involved in designing, implementing, and monitoring an ODD program for a very large client with substantial capital to deploy.**

ODD is a part of our pre-investment diligence process, regardless of the end user of our investment report.

- 17. In light of the current environment, please discuss the unique challenges, areas of concern and opportunities that managers and investors currently face in establishing a comprehensive ODD program, how the demand for ODD services has changed over the past few years and what further changes you expect.**

We have seen our clients place a stronger emphasis on ODD over the past few years and expect that trend to continue.

- 18. Discuss your views on registration/regulatory issues with respect to institutional quality managers. Describe how your firm verifies SEC investigations and other regulatory proceedings of the fund and its personnel.**

Since the passage of the Dodd-Frank Wall Street Reform and Consumer Protection Act, which required certain private equity firms to register with the SEC, and the subsequent high profile enforcement actions, managers have placed a greater focus on assessing and strengthening their control environments.

During diligence, we request information on any inquiries or examinations from regulatory bodies and ask that the manager provide any inquiry/deficiency letters from these regulatory bodies, as well as a summary of corrective actions the firm took, as applicable.

As described in **Question 10a**, we query databases in broad news, financial service archive systems, and legal and public record archive systems. We issue a litigation questionnaire and require verification and sign off of any potential legal issues within a general partner's organization or with its senior staff.

19. Do you host any ODD client events or conferences? If so, please describe them. Are managers invited to attend?

Hamilton Lane has hosted six Back Office Best Practices events in our global offices. We use the event to strengthen our relationship with general partners and help convey to them what we believe to be best practices across several back office functions. Our goal of this even is to strengthen the understanding of what our limited partners demand from the general partners they invest in.

Topics covered during the events are j-curve management and the standardization of reporting cash flows, limited partners growing demand for more granular cash flow and company data points, performance standardization, ILPA topics, operational diligence, AIFMD and Cybersecurity compliance issues, financial statement transparency, valuations procedures, and tax reporting best practices.

20. Discuss your willingness to establish a knowledge transfer relationship with PSERS and describe the activities and information that this would entail including data sharing, ODD methodology and program development. Describe the access and interaction PSERS' staff would have with members of your staff, other than assigned consultant and backup.

We offer several services to facilitate education and transfer of knowledge on the private markets asset class including educational sessions, in-office training and periodic meetings or phone calls. The firm customizes these options based on the client's needs. Our educational sessions range from the basics of private markets investments to advanced topics on strategy and trends in the market. Clients can also visit our offices for one to five-day sessions to assist them with their understanding of the private markets.

In addition, we offer our clients the opportunity to attend our Hamilton Lane University. Hamilton Lane University is designed to further our clients' knowledge and technical skill set in the private markets asset class as a way of helping them effectively build and develop their portfolios. All instruction is taught by Hamilton Lane professionals and takes place at Hamilton Lane's headquarters outside of Philadelphia. Our comprehensive and diversified program provides staff with a more comprehensive understanding and appreciation of the inner-workings of the private markets as an asset class.

PSERS' staff would have access to professionals across the company during these training sessions. We would have experts from various departments conduct sessions depending on PSERS' areas of interest.

21. List all standard ODD services provided to a typical pension plan assignment. List the specialized services that you have provided to meet other needs of your clients.

As described throughout this questionnaire, ODD is a key part of our due diligence process and is not specifically tied to an individual client.

In 2009, Hamilton Lane developed its Portfolio Compliance Risk Management program ("PCRM") in response to a large public pension plan's concerns regarding how to actively monitor manager compliance with limited partnership agreements ("LPA"). We collaborated with the public pension plan to identify key LPA terms, and developed risk-based substantive testing procedures to assess

manager compliance with those terms. PCRM is currently a stand-alone offering and is not part of our standard ODD framework.

While PCRM is performed on an annual basis, Hamilton Lane developed real-time monitoring services in response to another large public pension plan's concerns regarding capital calls and distributions. These specialized services verify compliance with the relevant capital call and distribution LPA provisions upon receipt. These specialized services are a stand-alone offering and are not part of our standard ODD framework.

- 22. Describe your operational research and analysis capabilities related to the asset classes for which you will be contracted to cover with regard to operational and regulatory issues. Are your resources internal or external? If any external resources are used, provide a description including the name of vendors providing these resources. How is the information used to inform and advise clients?**

- 23. Describe your overall approach to manager operational research and selection, including a list of any specific criteria that must be met in order for a manager to be considered for recommendation and any characteristics that would systematically exclude a manager from consideration for recommendation. Please provide an outline of your manager operational evaluation framework.**

Refer to our response to [Question 3d](#) for an overview of our ODD process.

- 24. Please discuss the firm's database of managers within the asset classes for which you will be contracted to cover.**

III-7. Miscellaneous.

- A. Does your firm offer both discretionary and non-discretionary private markets consulting services? If so, what percentage of clients are discretionary and what percentage of revenues are derived from discretionary client relationships?

Hamilton Lane offers a full range of investment products and services that enable clients to participate in the private markets asset class on a global and customized basis, including both discretionary and non-discretionary consulting services. Each of these business lines leverages the capabilities of our full team.

Below is a summary of the non-discretionary and discretionary products/services we offer.

Customized Solutions (Separate Accounts): Hamilton Lane's customized separate account business is well established and focuses on mid- to large-sized institutions. Separate accounts leverage the same resources and capabilities as our other business lines, but these programs are customized to each individual client and are structured as single client vehicles. Separate accounts are typical for firms investing at least \$75-\$100 million in the asset class.

Specialized Solutions (Fund-of-Funds/Commingled Vehicles): Our fund-of-funds business is well established and generally serves smaller investors looking for diversified exposure to the private markets asset class. Hamilton Lane also offers secondary and co-investment opportunities through our funds-of-funds. We believe that this is an appropriate approach for new investors or investors looking to commit less than \$50 million to a private markets program.

Advisory: Our advisory business caters to very large institutions with internal staff dedicated to private markets. We provide a wide array of advisory services tailored to complement the internal capabilities and address the needs of our clients, including due diligence, strategic portfolio planning, monitoring and reporting, board presentations, performance analysis and benchmarking. Each of our advisory clients typically commits \$300 million to \$1+ billion to private markets investments each year.

Reporting & Analytics Solutions: Hamilton Lane's Fund Administration services are available on a stand-alone basis or in combination with any of our advisory and specialized investment products.

Services include:

- Portfolio monitoring and reporting
- Cash flow transactional reporting
- Detailed portfolio holding reports
- Timely and transparent client reports

We offer:

- SOC1 (formerly SAS 70, Type II) tested data integrity and operational control environment
- Deep team of knowledgeable client service professionals
- Customizable products and services
- Proprietary state-of-the art reporting systems

Distribution Management Services: In addition to our customized strategies and specialized funds-of-funds products, Hamilton Lane provides private markets distribution management services to our clients. We work with our clients to enhance the realized value of their distributions of publicly-traded stock through active portfolio management that may increase overall PE returns.

B. What are your views of the role of private markets in a pension fund, particularly of the size of PSERS?

Hamilton Lane believes that the inclusion of a well-diversified private markets allocation is an important component in structuring a successful pension fund portfolio, given its lower volatility and higher risk-adjusted returns. We work closely with clients to consider how their private markets program fits into the larger portfolio. As the private markets are a long-term asset class, we focus on building a diversified, successful portfolio.

Today's overall portfolio discussion and challenges include the following:

- Fixed income yields are stubbornly low. To achieve target plan returns, portfolio managers must search for higher returning asset classes.
- Public equity returns have been quite strong recently, but have experienced two major corrections in the past 15 years and have underperformed private equity on a long-term basis (10+ years).

- Investors frequently quote volatility as a measure of risk in public markets – but that is hard to translate to private equity as there are challenges to performing the same calculation. For one, data is private and hard to collect. Second is the fact that appraisal pricing of private equity assets artificially smooths returns.
- Hamilton Lane is able to use our market-leading database and analytical tools to measure the quarterly returns of private equity and “de-smooth” these returns using commonly accepted algorithms for adjusting smoothed volatility in other alternative assets classes. Even after “de-smoothing” private equity returns, private equity still has had lower volatility and higher risk-adjusted returns than most other asset classes available to portfolio managers. Over long-term horizons, private equity continues to outperform other asset classes on an absolute and risk-adjusted basis.

We believe the optimal private markets portfolio achieves the required diversification (i.e. reducing the risk of a single fund investment) while avoiding over-diversification (i.e. the reduction of portfolio returns as they regress to the mean). Over-diversification in any market, just for the sake of achieving a certain exposure, will result in mediocre returns over the long term. In addition, we pay great attention to creating appropriate diversification by vintage year, fund manager, industry, geography, currency and transaction size and type. Unfortunately, there is no set of target that we use with each client or account. All of these factors are all taken into consideration as we develop a Strategic Plan, which is customized to the goals and levels of risk that are unique to each client.

C. What do you see as being the most significant changes that will be occurring in asset allocation for pension funds over the next 10 years? In private markets specifically? Please comment.

In terms of asset allocation, we believe we will continue to see a trend for greater diversification, particularly outside of the public markets. Most notably, pension funds have continued to have a growing interest in alternative assets, such as the private markets, while turning away from the public equity markets. Despite several years of buoyant equity markets, pension funds have continued to increase their allocations to alternatives and fixed income, while lowering allocations to public equities, preferring the lower volatility of such investments.

Specifically to private markets, we have seen a number of changes in the industry that we believe will have an impact on pension funds in the future. We anticipate that the need for greater fee transparency will continue to be an area of focus for pension funds. Access to better fee details allows pension plans to make better and more informed decisions regarding manager selection. As noted above, Hamilton Lane is a huge proponent of full disclosure and transparency. This comes from our roots in working with public pension plans and our intimate knowledge of the demands put on these types of organizations. Our clients are privy to all of our investment related activity, and information is conveyed regularly by our account managers. We take great pride in having built strong relationships with each of our clients

We believe another area of focus for pension funds will be the increased desire to incorporate environmental, social, and governance (ESG) into investment decision making. Hamilton Lane includes ESG factors in our due diligence process for evaluating potential investments and monitoring existing investments. This process is both qualitative and quantitative, and final recommendations are based on whether an investment satisfies both parts of the process.

Additionally, as the private markets asset class continues to mature, we believe that an information advantage will be a key criteria to success among future investors. We believe that pension plans should make a commitment to maintaining and/or accessing a technologically advanced infrastructure that will assist with portfolio analytics, detailed tracking of investments and accounting of all related costs.

Hamilton Lane has recognized that there is an increased need for better data, analytics, and technological solutions within the private markets asset class. As such, we have dedicated a significant portion of our revenue back into various research functions at the firm in order to stay on the forefront of all advancements in the industry. We are constantly evaluating the use of technology in our industry and believe in developing strong partnerships with investment technology market leaders. As mentioned throughout the RFP, we have built and invested in technology that provides secure and transparent data management, sophisticated analytics, and robust workflow and efficiency tools.

III-10. Objections and Additions to Standard Contract Terms and Conditions. The Offeror will identify which, if any, of the terms and conditions (contained in Appendix A and Appendix B) it would like to negotiate and what additional terms and conditions the Offeror would like to add to the standard contract terms and conditions. The Offeror's failure to make a submission under this paragraph will result in its waiving its right to do so later, but the Issuing Office may consider late objections and requests for additions if to do so, in the Issuing Office's sole discretion, would be in the best interest of the Commonwealth. The Issuing Office may, in its sole discretion, accept or reject any requested changes to the standard contract terms and conditions. The Offeror shall not request changes to the other provisions of the RFP, nor shall the Offeror request to completely substitute its own terms and conditions for Appendix A and Appendix B. All terms and conditions must appear in one integrated contract. The Issuing Office will not accept references to the Offeror's, or any other, online guides or online terms and conditions contained in any proposal.

Regardless of any objections set out in its proposal, the Offeror must submit its proposal, including the cost proposal, on the basis of the terms and conditions set out in Appendix A and Appendix B. The Issuing Office will reject any proposal that is conditioned on the negotiation of the terms and conditions set out in Appendix A and Appendix B or to other provisions of the RFP as specifically identified above. The Board will not consider proposals that contain any limitations of Offeror liability for services provided. Any proposal containing such a limitation shall be rejected.

PSERS acknowledges that the CONSULTANT does not guarantee any rate of return on, or market value of, any investments of PSERS pursuant to this Agreement."</p>
5. Standard of Care	Please provide that notwithstanding the paragraph, consultant shall not be responsible for diversification requirements under ERISA with respect to PSERS.

6. Insurance	<p>Regarding the penultimate sentence of this paragraph, we would like for the provision to stay out of the policy and instead be binding on Consultant in the agreement to give the requisite notice.</p> <p>Please provide that any changes to the insurance requirements imposed on the Consultant must be mutually agreed.</p>
9. Changes in Consultant's Status	Please delete the words "modification of business organization" as such terms are vague.

PSERS agrees that Consultant may give advice and take action with respect to any of its other clients that may differ from advice given, or differ in the timing or nature of action taken, with respect to PSERS. Consultant shall not have any obligation to purchase or sell, or to recommend the purchase or sale of, any security or investment that Consultant or its affiliates may purchase or sell for the account of any other client, if in the opinion of Consultant such transaction or investment appears unsuitable, impractical or undesirable for PSERS."</p>
14. Termination	Please provide for mutual termination rights upon 60 days' notice by either party.
15. Confidentiality	<p>Please clarify that the provision applies to information received by or on behalf of PSERS in connection with the services provided. In addition, please insert the following:</p> <p>"PSERS agrees that securities regulators, in the ordinary course of their examinations, have unrestricted access to all books, records, files and other materials in the possession of PSERS, including confidential information, and disclosure of confidential information to such examiners solely for purposes of the examination process may occur without prior written notice to or authorization from PSERS."</p> <p>"All information regarding Consultant's analyses, opinions and conclusions with respect to PSERS, including without limitation all qualitative and quantitative assessments of the individual or collective performance of investment funds or their portfolio companies, shall be treated as confidential by PSERS and shall not be disclosed to any person or entity other than the PSERS' officers, employees and agents, except for information that (i) is publicly available other than as a result of disclosure by PSERS' officers, employees or agents, (ii) becomes known to PSERS from a source that, to PSERS' knowledge, is not bound by a duty of confidentiality to Consultant, or (iii) PSERS is legally required to disclose; <u>provided, however</u>, PSERS shall give prior timely notice of such request to Consultant to permit Consultant to seek a protective order or other appropriate remedy."</p>

Consultant shall be entitled to rely on any instruction, direction or approval so provided. Consultant shall be fully protected in acting upon any instrument, certificate or document believed by it to be genuine and to be signed or presented by the proper person or persons, and Consultant shall be under no duty to make any investigation or inquiry as to any statement contained in any such writing, but may accept such writing as conclusive evidence of the truth and accuracy of the statements contained therein.”</p> <p>“Disclosure. Public Records Laws	Hamilton Lane will need notice and an opportunity to oppose any requests for the disclosure under public records laws of confidential documents or information provided to the State by Hamilton Lane. In addition, Hamilton Lane would like to discuss the process for protecting confidential information provided to the PSERS by Hamilton Lane, e.g., periodic reports containing analysis of fund managers and portfolio company data, from public disclosure. Further, if the contract is considered a public record, please advise whether any provisions or attachments, such as the fee schedule, can be redacted from the publicly disclosed copy.

	considered abandoned); paragraph 14 (environmental provisions); paragraph 15 (post-consumer recycled content); paragraph 33 (hazardous substances);

Domestic Workforce Utilization Certification

APPENDIX C
DOMESTIC WORKFORCE UTILIZATION CERTIFICATION

To the extent permitted by the laws and treaties of the United States, each proposal will be scored for its commitment to use the domestic workforce in the fulfillment of the contract. Maximum consideration will be given to those offerors who will perform the contracted direct labor exclusively within the geographical boundaries of the United States or within the geographical boundaries of a country that is a party to the World Trade Organization Government Procurement Agreement. Those who propose to perform a portion of the direct labor outside of the United States and not within the geographical boundaries of a party to the World Trade Organization Government Procurement Agreement will receive a correspondingly smaller score for this criterion. In order to be eligible for any consideration for this criterion, offerors must complete and sign the following certification. This certification will be included as a contractual obligation when the contract is executed. Failure to complete and sign this certification will result in no consideration being given to the offeror for this criterion.

State-Focused Investment Program (FL) Case Study

Florida Growth Fund Investments Have Provided Over \$200 Million in Distributions to the FRS; Fund Managers Continue to Seek New Investment Opportunities

at a glance

As of June 30, 2016, the Florida Growth Fund program had invested \$512.4 million in 37 technology and growth companies and 29 private equity funds. Investments were dispersed across 13 counties, with amounts ranging from \$6.8 million in Manatee County to \$156.3 million in Palm Beach County.

Since its inception, Florida Growth Fund I has experienced a net internal rate of return of 11.1% and has distributed \$201.5 million to the Florida Retirement System as of June 30, 2016.

Due to the success of Florida Growth Fund I, the State Board of Administration's managers authorized the initiation of Florida Growth Fund II, which made its first commitment in December 2014. To date, Florida Growth Fund II has made six fund commitments and five co-investments, totaling \$92.6 million in capital. Given initial fees, Florida Growth Fund II had generated a -1.4% net internal rate of return as of June 30, 2016. However, this fund is in the early stages of its investment timeline and fund managers expect positive returns as investments mature.

The program's investments also resulted in reported economic benefits to the state. Companies that received Florida Growth Fund investments reported creating 15,331 jobs as of June 30, 2016. The companies also reported paying an average annual salary of \$85,604 for those jobs created over the past year; however, salaries varied widely, from \$15,000 to \$767,000.¹ In addition, 12 companies and 7 private equity funds reported making \$51.8 million in capital expenditures between June 30, 2015 and June 30, 2016, bringing total capital expenditures to \$364.4 million since the fund's inception.

¹ Average salaries reported by Hamilton Lane are only for those new jobs created over the past year, and are not historical averages for all jobs created over the life of the program.

² Section [215.474, F.S.](#)

Scope

State law directs OPPAGA to annually review the State Board of Administration's Florida Growth Fund, which invests in technology and high-growth industries.² The review must include

- the dollar amount of fund assets invested in state technology and growth industries and the investments' percentage share of the system's trust fund net assets;
- a list of investments in state industries the board identified as technology and growth investments within each asset class; and
- an analysis of the direct and indirect economic benefits to the state resulting from the investments.

This ninth annual report addresses the board's progress in managing the Florida Growth Fund program and presents information on the economic impact of fund investments.³

Background

The State Board of Administration (SBA) is constitutionally authorized to oversee state funds, including investing state and local government assets.⁴ The largest fund that the SBA manages is the Florida Retirement System

³ The prior annual reports can be found on OPPAGA's [website](#).

⁴ The board is composed of the Governor, Chief Financial Officer, and Attorney General.

(FRS) Trust Fund, which had \$141.4 billion in assets as of June 30, 2016.

State law authorizes the SBA to invest up to 1.5% of net FRS Trust Fund assets in technology and high-growth businesses with a significant presence in Florida. Growth and technology investments may include space technology, aerospace and aviation engineering, computer technology, renewable energy, and medical and life sciences.⁵ The board makes these investments through the Florida Growth Fund, a limited liability company established for this purpose.

The SBA contracts with Hamilton Lane to manage the fund.⁶ As of June 30, 2016, the board had paid Hamilton Lane \$18 million in management fees to manage four separate tranches of capital since the fund's inception in 2009. The company may also receive a percentage of the distributions from the fund if its investments produce returns.

The board's contract with Hamilton Lane requires the company to invest in technology and growth businesses domiciled in Florida, with a principal address in the state, or that have an operational presence if they are not headquartered in the state.⁷ The contract also requires the company to invest in Florida-based or Florida-focused investment management firms that directly invest in technology and growth businesses.⁸ Hamilton Lane is required to provide quarterly and annual reports about its investments and to annually update an investment plan that the SBA uses to assess the fund's performance.⁹

Hamilton Lane managers reported that they always work with partners with expertise in specific industries and who serve as lead investors. Further, the fund never contributes more than 50% of any single investment, and some investments are made in stages as companies or equity funds meet specific milestones. For example, should a current portfolio of the Florida Growth Fund be awarded a large contract or look to open new locations, the Florida Growth Fund might support the company with additional capital.

Findings

The Florida Growth Fund has committed to invest \$512.4 million in technology and growth companies and private equity funds

As of June 30, 2016, the Florida Growth Fund program had committed to invest \$512.4 million in 37 technology and growth companies and 29 private equity funds. (See Exhibit 1.) As of June 30, 2016, Florida Growth Fund I had a gross internal rate of return of 13.9% and a net internal rate of return of 11.1% since its inception.¹⁰ As of June 30, 2016, Florida Growth Fund II had a gross internal rate of return of 8.9% and a net internal rate of return of -1.4%. Florida Growth Fund II is in the initial stages of its investment period; funds of this nature typically have an initial negative rate of return before demonstrating positive returns. Florida Growth Funds I and II represent approximately 0.53% of the FRS Trust Fund.

⁵ No more than 20%, in the aggregate, of the fund may be invested in alternative investments such as equity funds, venture capital funds, or securities and investments that are not publicly traded and are not otherwise authorized by law. The investments must be consistent with the board's fiduciary duties.

⁶ Hamilton Lane is a Philadelphia-based investment company that has a Florida office in Fort Lauderdale, as well as several other offices in the United States and overseas.

⁷ SBA managers have directed Hamilton Lane to diversify fund investments to minimize risk. Consequently, the fund manager has invested in companies representing various industries such as aerospace, medical products, and telecommunications.

⁸ Private equity fund investments and growth and technology investments are stratified among companies that invest in early-

stage, growth-stage, and later-stage as well as in debt investments in credit worthy companies.

⁹ The contract also requires Hamilton Lane to provide the SBA with due diligence information, summary reports about each investment, executed closing documents, fund financial performance data, and any other information the board requests.

¹⁰ The internal rate of return is defined as the rate of return that would make the present value of future cash flows from an investment plus the final market value of the investment equal the investment's current market price. The net internal rate of return is the return on investments after fees and expenses are assessed by Hamilton Lane, while the gross internal rate of return is the return before fees and expenses are assessed.

Most fund investments are in Florida-based companies; six industries account for over 67% of investments. Seventy-seven percent of total Florida Growth Fund I commitments are in Florida-based companies, and Florida Growth Fund II has invested 91% of its capital in Florida-based companies. According to SBA and Hamilton Lane managers, all of the technology and growth companies have a significant Florida presence that ranges from being headquartered in the state to having a substantial portion of their employees and core divisions or business functions (e.g., engineering, sales, and production) in the state. As of June 30, 2016, investments in these companies resulted in a gross internal rate of return of 14.4% for Florida Growth Fund I and 10.8% for Florida Growth Fund II.

SBA managers also reported that approximately 39% of Florida Growth Fund I and 16% of Florida Growth Fund II private equity fund commitments have been invested in businesses with a significant footprint in Florida. As Florida Growth Fund II matures and underlying fund commitments deploy more capital, exposure to Florida-based companies will increase. As of June 30, 2016, these investments have resulted in a gross internal rate of return of 12.3% for Florida Growth Fund I and -1.5% for Florida Growth Fund II. However, most of the Florida Growth Fund II investments are new funds and are in the early stages of their investment timelines.

Florida Growth Fund direct investments include a wide range of industries, from restaurants to medical device manufacturers to telecommunications companies. However, 67.5% of the investments fall into six industry areas.¹¹

- Professional, Scientific, and Technical Services—17.5%
- Information and Electronic Sales—16.6%

- Wood Product and Metal Manufacturing—11.1%
- Administrative and Support Services—10.4%
- Accommodations and Food Services—6.4%
- Health Care and Social Assistance—5.5%

Three of these industries are among Florida's growth leaders. Specifically, over a six-year period (2009 to 2015), the state's growth outpaced national growth in accommodations and food services (1.5%), health care and social assistance (1.4%), and professional, scientific, and technical services (0.6%).

Five counties account for a significant portion of fund investments. Florida Growth Fund direct and private equity investments are dispersed across 13 counties. Investment amounts range from \$6.8 million in Manatee County to \$156.3 million in Palm Beach County. Direct and private equity investments in five counties—Broward, Hillsborough, Miami-Dade, Orange, and Palm Beach—account for 76.3% of the funds that have been invested since the program's inception. (See Exhibit 2.)

Since OPPAGA's 2015 report, Polk County received its first direct investment of \$10.0 million in an automotive parts company. In addition, several counties that received investments in previous years received additional investments over the past year (e.g., Alachua, Hillsborough, Lee, and Palm Beach counties). During that period, Palm Beach County investments nearly doubled, from \$78.8 million in 2015 to \$156.3 million as of June 30, 2016.

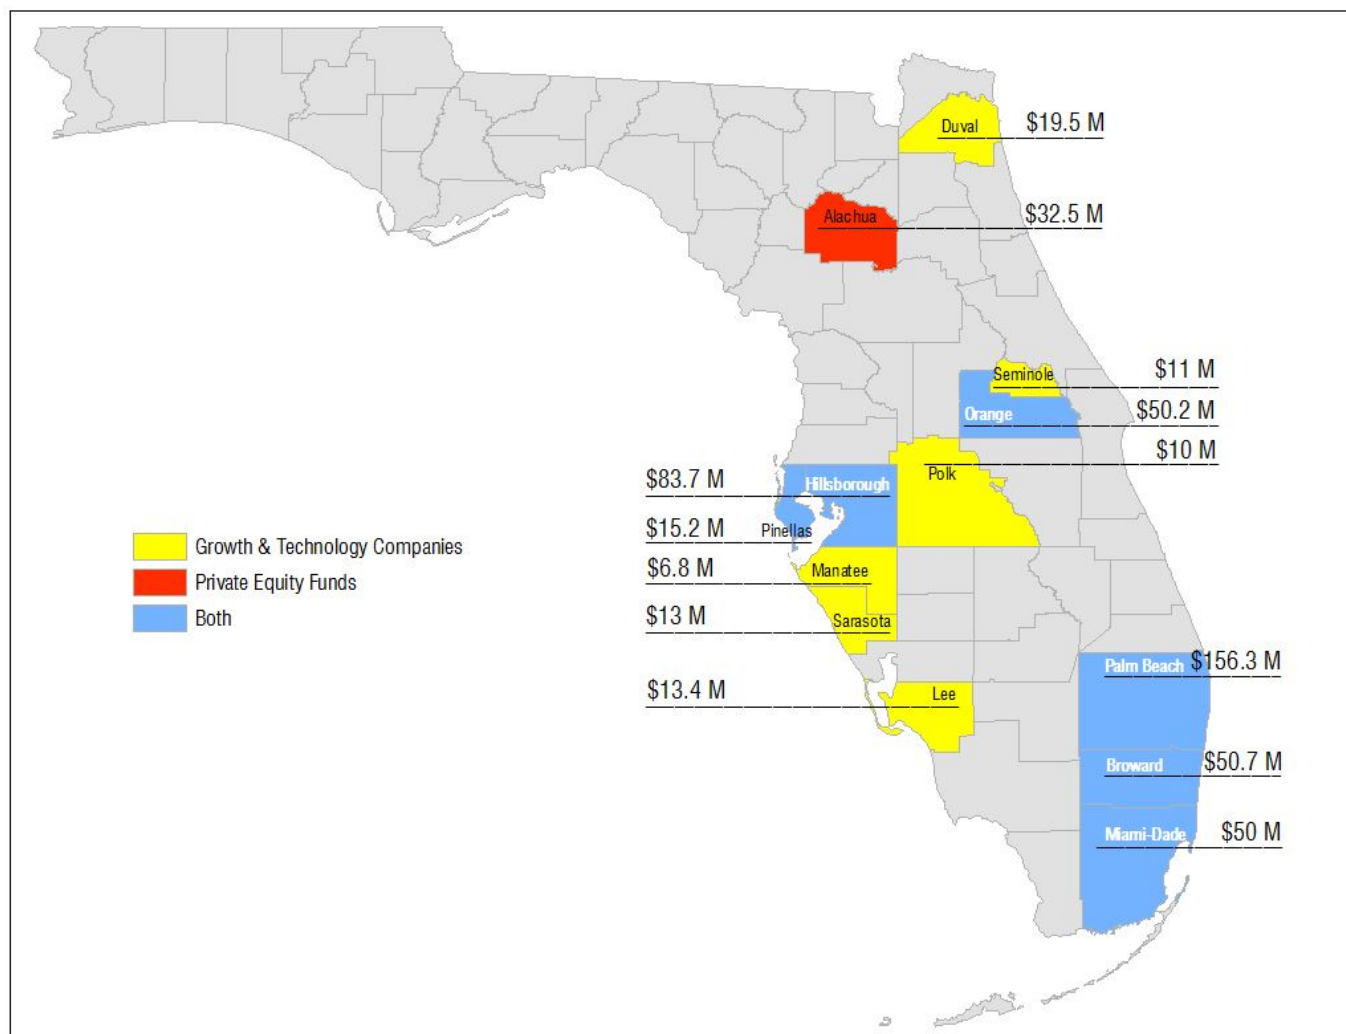

While the private equity funds have offices in specific counties, they may invest in other counties, states, and countries. Thus, the economic impact of the private equity fund commitments likely differs from that of the direct investments in technology and growth companies domiciled in Florida counties.

¹¹ Businesses' industry areas were determined using North American Industry Classification System (NAICS) codes. The following codes were used: Professional, Scientific, and Technical

Services (541); Information and Electronic Sales (51 and 443); Wood Products and Metal Manufacturing (32 and 323); Administrative and Support Services (561); Accommodations and Food Services (72); and Health Care and Social Assistance (62).

Florida Growth Fund investments have expanded to include credit opportunities and a new tranche of capital

Since 2009, the SBA has authorized Hamilton Lane to invest a total of \$750 million across four tranches of capital.¹² The first tranche of \$250 million was used to establish the fund in 2009, and a second tranche of \$250 million was provided in 2011. In 2013, to address Florida small businesses' need for debt capital, SBA managers initiated negotiations with Hamilton Lane to devote approximately \$100 million of uninvested capital from the second tranche to a third tranche used to invest in credit

opportunities. In 2014 the Florida Growth Fund program initiated investing in a fourth \$250 million tranche, Florida Growth Fund II.

Fund managers continue to invest using Florida Growth Fund II capital and the credit tranche.

According to SBA and Hamilton Lane managers, the Florida Growth Fund program has continued to see strong investment opportunities in the state of Florida. The investment strategy for Florida Growth Fund II is similar to the strategy of Florida Growth Fund I, which is to make investments in growth and technology companies in the state, as well as private equity funds that invest in Florida.

¹² A tranche is a portion of a larger security.

The credit tranche complements the other Florida Growth Fund tranches by creating an ongoing cash flow stream through monthly or quarterly interest payments. Fund managers seek to invest \$3 million to \$15 million per transaction, with transactions varied by industry and loan type.

As of June 30, 2016, Florida Growth Fund II had made six fund commitments and five co-investments, totaling \$92.6 million in capital, while the credit tranche had made seven investments representing \$39.6 million of invested capital.

The Florida Growth Fund has started to demonstrate significant positive returns to the FRS Trust Fund. SBA managers reported that the fund distributed \$201.5 million to the FRS Trust Fund as a result of its investment activity from inception to June 30, 2016. This liquidity has been the result of full company exits, partial recapitalizations, ongoing dividends, and interest payments from underlying portfolio companies.

As of June 30, 2016, a total of 11 investments had been exited, resulting in more than \$130 million of the \$201.5 million total distributions to the FRS Trust Fund. (See Exhibit 3.) For example, since

OPPAGA's 2015 report, the fund exited an investment in a Jacksonville-based chemical company. The investment resulted in \$21.2 million of distributions to the FRS Trust Fund, a return of over four times the invested capital of \$5 million. At the time the investment was exited, the company reported adding 10 jobs in Florida with an average annual salary of \$77,000 for those jobs created in the year prior to exit. Similarly, during the same period, the fund sold its position in an early stage biotechnology company in South Florida. This sale resulted in \$13.4 million of distributions, a return of almost 2.5 times the initial \$5.4 million investment. The company reported creating seven jobs over the duration of the investment with an average annual salary of \$71,000 for those jobs created in the year prior to exit.

Overall, exited investments had created 2,163 jobs at the time of exit and made more than \$145 million of capital expenditures in Florida. The salaries of jobs created by exited investments ranged from \$33,050 to \$80,584 per year, with an average salary of \$65,436 per year for jobs created in the year prior to exit. This exceeds the state average annual income of \$44,429 per year.

Source: State Board of Administration and Hamilton Lane

The liquidity in the fund was also complemented by the recapitalizations of existing portfolio companies. Given the strong growth of the companies in which the Florida Growth Fund

program has invested, lenders have felt comfortable making additional loans to these companies. From June 30, 2015 to June 30, 2016, two

such recapitalizations have resulted in \$14.9 million of distributions to the Florida Growth Fund.

The credit tranche also continues to have consistent liquidity from ongoing quarterly interest payments as well as full repayments of loans. For example, the program made a \$3 million loan to a home health care business, resulting in a 1.1 times return of capital.

However, while the Florida Growth Fund program has had several positive outcomes from its investments, there are also some investments that have underperformed. For example, a South Florida communications company in which the program invested \$5 million has lost all of its value given a decrease in sales and a continued use of cash on hand. The company had 50 employees at the time of initial investment, but now has no full-time employees.

Companies receiving Florida Growth Fund investments continue to create jobs and make capital expenditures

According to Hamilton Lane managers, companies in which the Florida Growth Fund has invested reported creating a total of 15,331 jobs as of June 30, 2016, a net increase of 786 since June 30, 2015. (See Exhibit 4.) This included 4,240 jobs created by technology and growth companies and 11,091 jobs created through investments made by underlying private equity funds commitments.¹³ At the same time, five investments resulted in no job growth or loss. Data provided by the fund manager also indicate that companies and funds paid an average annual salary of approximately \$85,604 per new job created over the past year.¹⁴ This exceeds the state's annual mean income of \$44,429. However, incomes vary greatly, ranging from \$15,000 to \$767,000 per year.

Florida Growth Fund direct and equity investments have also resulted in increased capital expenditures. Specifically, 12 growth and technology companies and 7 private equity funds reported making an estimated \$51.8 million in capital expenditures between June 30, 2015, and

June 30, 2016, bringing total capital expenditures to \$364.4 million since the fund's inception.

These are called *notice filings*. In addition, *exempt reporting advisers* may be required to provide *state securities authorities* with a copy of reports and any amendments they file with the SEC. If this is an initial application or report, check the box(es) next to the state(s) that you would like to receive notice of this and all subsequent filings or reports you submit to the SEC. If this is an amendment to direct your *notice filings* or reports to additional state(s), check the box(es) next to the state(s) that you would like to receive notice of this and all subsequent filings or reports you submit to the SEC. Item 11 Disclosure Information

In this Item, we ask for information about your disciplinary history and the disciplinary history of all your *advisory affiliates*. We use this information to determine whether to grant your application for registration, to decide whether to revoke your registration or to place limitations on your activities as an investment adviser, and to identify potential problem areas to focus on during our on-site examinations. One event may result in "yes" answers to more than one of the questions below.

Your *advisory affiliates* are: (1) all of your current *employees* (other than *employees* performing only clerical, administrative, support or similar functions); (2) all of your officers, partners, or directors (or any *person* performing similar functions); and (3) all *persons* directly or indirectly *controlling* you or *controlled* by you. If you are a "separately identifiable department or division" (SID) of a bank, see the Glossary of Terms to determine who your *advisory affiliates* are.

If you are registered or registering with the SEC or if you are an exempt reporting adviser, you may limit your disclosure of any event listed in Item 11 to ten years following the date of the event. If you are registered or registering with a state, you must respond to the questions as posed; you may, therefore, limit your disclosure to ten years following the date of an event only in responding to Items 11.A.(1), 11.A.(2), 11.B.(1), 11.B.(2), 11.D.(4), and 11.H.(1)(a). For purposes of calculating this ten-year period, the date of an event is the date the final order, judgment, or decree was entered, or the date any rights of appeal from preliminary orders, judgments, or decrees lapsed.

Item 12 Small Businesses

The SEC is required by the Regulatory Flexibility Act to consider the effect of its regulations on small entities. In order to do this, we need to determine whether you meet the definition of "small business" or "small organization" under rule 0-7.

Answer this Item 12 only if you are registered or registering with the SEC **and** you indicated in response to Item 5.F.(2)(c) that you have regulatory assets under management of less than \$25 million. You are not required to answer this Item 12 if you are filing for initial registration as a state adviser, amending a current state registration, or switching from SEC to state registration.

For purposes of this Item 12 only:

- Total Assets refers to the total assets of a firm, rather than the assets managed on behalf of *clients*. In determining your or another *person's* total assets, you may use the total assets shown on a current balance sheet (but use total assets reported on a consolidated balance sheet with subsidiaries included, if that amount is larger).
- *Control* means the power to direct or cause the direction of the management or policies of a *person*, whether through ownership of securities, by contract, or otherwise. Any *person* that directly or indirectly has the right to vote 25 percent or more of the voting securities, or is entitled to 25 percent or more of the profits, of another *person* is presumed to *control* the other *person*.

Item 4. Advisory Business

General Description of the Advisor

The Advisor is an investment advisor with its principal place of business in Bala Cynwyd, PA. The Advisor also maintains offices in London, Hong Kong, San Francisco, San Diego, New York, Ft. Lauderdale, Rio de Janeiro, Tel Aviv, Tokyo, Las Vegas and Seoul. The Advisor commenced operations as an investment advisor under the name Hamilton Lane Advisors, Inc. in May 1991 and has been registered with the SEC since August 1998. HLA Investments, LLC, a company owned by the Chairman, the Chief Executive Officer and several private investors, owns approximately 47.8% of the outstanding equity interests of the Advisor. HL Management Investors, LLC, a company owned by current and former employees of the Advisor, owns approximately 34% of the outstanding equity interests of the Advisor.

Description of Advisory Services

The Advisor provides discretionary and non-discretionary private equity investment advisory and asset management services to institutional investors (and indirectly to high net worth individuals) through fund products, separate accounts and portfolio advisory services. Investment strategies for funds managed by the Advisor vary and can focus on primary, secondary, co-investment and real estate opportunities. Institutional separate accounts are discretionary engagements and may invest in any of primary investments, co-investments and secondary investments and typically are customized based upon the needs of the client. The Advisor's portfolio advisory services are non-discretionary and vary depending on the nature of the account, but may include identification, screening and analysis of potential investment opportunities, negotiation and execution of investments, and monitoring and administration of investments. The Advisor also acts as the investment manager to certain private equity limited partnerships, and affiliated limited liability companies serve as the general partners for these limited partnerships.

The Advisor offers private equity fund administration and reporting services, which include monitoring and reporting on client portfolios. The Advisor is retained on occasion to issue special reports about certain securities separately from the services described above, which clients may use in the evaluation of investment opportunities.

The Advisor, through a strategic partnership with Boston Illiquid Securities Offering Network Inc. ("BISON"), offers the analytical solution Cobalt LP to private market limited partners. The Cobalt LP product offers enhanced portfolio analytics, fund due diligence, peer analysis, cash flow forecasting and portfolio modeling.

The Advisor also offers discretionary distribution management services ("DM Services") to assist clients with the liquidation of in-kind distributions of listed public equities from private equity funds. The Advisor has two primary DM Services, "Managed Liquidation" and "Active Management". The Advisor's goal for Managed Liquidation clients is to mitigate the negative effects an in-kind distribution may have on the price of the stock. The Advisor's goal for Active Management clients is to enhance overall returns by holding a core portfolio of equities that the Advisor believes has the potential for strong long-term growth.

Availability of Tailored Services for Individual Clients

The Advisor provides advice to clients based on specific investment objectives and strategies established by the Advisor and the clients. Clients that invest in a fund managed by the Advisor are bound by the investment strategy of that particular fund. Each fund's investment strategy is set forth in its governing documents and offering documents.

**Wrap Fee Programs**

The Advisor does not participate in or advise any wrap fee programs.

Regulatory Assets Under Management

As of September 30, 2016, the Advisor had approximately \$314,141,308,759 in Regulatory Assets Under Management. As of that date, the Advisor managed \$40,623,667,652 on a discretionary basis and \$273,517,641,107 on a non-discretionary basis.

Item 5. Fees and Compensation

Advisory Fees and Compensation

Asset-Based Compensation

Private Equity Services

Fees for private equity services are calculated on a fixed fee basis or as a percentage of assets under management, and may incorporate reductions at various points in a fund's or portfolio's life. The Advisor does not enter into investment advisory contracts having non-negotiable fixed terms. Rather, the contract terms are negotiated separately with each client in an investment management agreement. Fees for funds managed by the Advisor are outlined in the offering document for each fund. The client's obligation to pay fees ceases upon the termination of the agreement or, in the case of a fund, the final distribution of the fund. Fees paid but not earned by the Advisor or any affiliate are returnable to the client.

DM Services

The asset-based fee for DM services is based on the aggregate value of (i) proceeds from asset sales conducted by the Advisor, (ii) dividends and (iii) acquisition or tender proceeds during each calendar quarter. Fees are calculated quarterly and reset on a calendar year or contract anniversary basis as selected by the client. Fees are charged based on the following schedule:

- Managed Liquidation: First \$100 million in aggregate value – .40%, thereafter .25%
- Active Management: First \$100 million in aggregate value - .75%, thereafter .60%

Clients who have significant distributions or who request specific additional services may have fees that differ from those identified above.

For clients who elect to have a performance-based compensation scheme, an asset-based fee of approximately .30% will be applied, in addition to an incentive fee as detailed below.

Performance-Based Compensation

Private Equity Services

The Advisor may charge performance fees to specific client accounts or funds if specified investment portfolio performance conditions, as detailed in the client contracts or fund documents, are met. Performance fee percentages vary based on the underlying investment type, i.e., primary investments, co-investments or secondary investments. Performance fees generally are subject to achieving a specified rate of return.

DM Services

The incentive fee base is calculated at the close of a specified 12-month period and is generally 10-12% of the difference between the sum of: (1) net realized gains, (2) unrealized gains and (3) other income on the account minus any (1) realized and (2) unrealized losses. The incentive fee base is then credited to a notional account. The Advisor is entitled to be paid 70% of any positive balance in the notional account on an annual basis. The remaining 30% of any positive balance in the notional account is carried forward to the following year. If the calculation results in a negative amount in a given year, that amount is applied to reduce the balance in the notional account. The Advisor is not required to repay any negative balance in the notional account.

Private Equity Fund Administration

The Advisor also provides monitoring and reporting services for clients on a stand-alone basis. Fees for this service vary depending on the level of reporting requested by the client and are generally fixed fees.

Cobalt LP

Initial fees for services provided by the Cobalt LP solution are generally based on the client's Assets Under Management although fees for certain clients may differ from the schedule set forth below.

- Private Market Assets Under Management under \$100 million: \$75,000 per year
- Private Market Assets Under Management over \$100 million/under \$1 billion: \$100,000 per year
- Private Market Assets Under Management over \$1 billion: \$125,000 per year

Special Project Fees

Fees may be incurred for certain additional services such as due diligence reports. In addition, the Advisor may provide services for special projects, in which case fees are negotiated individually based on the nature of the project.

Payment of Fees

Fees for services are payable in arrears or advance, typically quarterly or monthly. Fees for separate accounts, advisory accounts, DM Services, special reports or portfolio monitoring and reporting are billed directly to the clients. Fees for the Advisor's funds are generally deducted directly from the fund's custodian and paid by capital calls from the fund's investors.

Other Fees and Expenses

Client accounts may also be subject to third party investment expenses such as administrator and custodian charges, brokerage fees, commissions and related costs; prime brokerage costs; interest expenses; taxes, duties and other governmental charges; legal and accounting expenses; transfer and registration fees or similar expenses; costs associated with foreign exchange transactions; other portfolio expenses; and costs, expenses and fees associated with products or services that may be necessary or incidental to such investments or accounts.

Client assets may be invested in pooled investment vehicles. In these cases, clients will bear their pro rata share of the underlying fund's operating and other expenses including, in addition to those listed above: sales expenses; legal expenses; internal and external accounting, audit and tax preparation expenses; and organizational expenses. In certain cases, the underlying funds may structure investments through alternative investment vehicles or parallel vehicles. Clients that invest through any of these vehicles will bear their pro rata share of the expenses of the applicable vehicles.

Client assets invested in funds managed by the Advisor may be invested on a short-term basis in money market mutual funds. In these cases, the client will bear its pro rata share of the investment management fee and other fees of the mutual fund, which are in addition to the investment management fee paid to the Advisor. Please refer to Item 12 of this brochure for a discussion of the Advisor's brokerage practices.

**Prepayment of Fees**

Clients may pay the Advisor's fees in advance. The client's obligation to pay fees ceases upon the termination of the client's agreement or, in the case of a fund, the final distribution of the fund. Fees paid but not earned by the Advisor or any affiliate are returnable to the client in accordance with the terms of the client's agreement.

Additional Compensation and Conflicts of Interest

The Advisor owns a minority equity position in BISON and an executive officer of the Advisor serves as the Chairman of the Board of Directors of BISON.

Item 6. Performance-Based Fees and Side-by-Side Management

Private Equity Services

The Advisor is a party to investment advisory and investment management agreements providing for different fee structures, and as a result conflicts of interest could arise with respect to the allocation of investment opportunities among client accounts, including funds managed by the Advisor. To address these potential conflicts of interest, all investment opportunities are presented to the Advisor's Allocation Committee for review. The Allocation Committee currently consists of the Chief Investment Officer and Chief Executive Officer. The Allocation Committee consults with representatives from the Advisor's relationship management department and fund investment team to assess the needs of each client and the suitability of each potential investment for that client. The Allocation Committee also considers the requirements of the sponsors of each potential investment to determine whether the clients that the Advisor believes are suitable investors are acceptable to the sponsor and what restrictions, if any, the sponsor will impose on the type of investors admitted to the fund or the amount of the investment.

The Advisor's policy is to treat all clients in a fair and reasonable manner and in accordance with contractual obligations and fiduciary duties. No client is favored over any other client for any reason, including but not limited to the fee structure or amount of fees payable to the Advisor by the client, subject to the requirements of specific in-state programs and the terms of investment funds managed by the Advisor. Factors considered by the Allocation Committee include, among others, the size of each account and fund, the aggregate amount available to the Advisor for a given investment, the applicable clients' investment strategies, and the portfolio construction of the applicable accounts and funds at the time of investment. The Chief Compliance Officer (or his/her designee) participates in the deliberations of the Allocation Committee with respect to investment decisions to ensure that these policies are followed. The Chief Compliance Officer (or his/her designee) also reviews each prospective investment to confirm that it meets the investment guidelines of each client included by the Allocation Committee.

DM Services

Allocation decisions for clients of the Advisor's DM Services are made by the Co-Heads of the DM Services business and are based on factors including portfolio composition and investment objectives of client accounts. Allocation decisions are not based on a consideration of fee arrangements, differences in account performance, relationships with any of the Advisor's employees, officers, or directors or tenure of the client's relationship with the Advisor. Allocation decisions are made with a view to fair and equitable treatment of the Advisor's clients.

Occasions may arise when the Advisor determines that the purchase or sale of a particular security is a proper investment decision for more than one of our clients. When this occurs, share prices are averaged and shares are allocated equitably according to each client's pro-rata participation in the transaction. On occasions when the Advisor decides that the purchase or sale of a security is in the best interests of a number of clients, including those with different strategies, it may aggregate the purchase or sale among multiple accounts with the goal of obtaining more efficient executions and lower brokerage commissions. When this occurs, each account will receive the average execution price as well as its pro-rata share of the total sales proceeds.

Item 7. Types of Clients

The Advisor provides investment advice to private investment funds, discretionary separate accounts and non-discretionary advisory accounts. Private investment funds are investment partnerships or other investment entities formed under domestic or foreign laws and operated as investment pools exempt from registration under the Investment Company Act of 1940, as amended. The investors participating in the Advisor's private investment funds, separate accounts and advisory accounts include pension plans, banks, sovereign wealth funds, endowments, other investment advisers, corporations and insurance companies. Investors in the Advisor's funds-of-funds are institutional investors, except for a small number of commingled funds that include high net worth individuals. The Advisor offers the Cobalt LP solution to private equity investors who may or may not utilize the Advisor's other private equity services.

The Advisor does not require that a client commit to invest a minimum amount to open a separate account. With respect to any client that is a private investment fund, any initial and additional subscription minimums are disclosed in its offering documents.

Item 8. Methods of Analysis, Investment Strategies, and Risks of Loss

Methods of Analysis and Investment Strategies

Each account and fund managed by the Advisor has specific investment guidelines and strategies, which are set forth in either the respective account and fund agreements or in the client's strategic plan. The accounts and funds may include some or all of the elements of the investment strategies described below.

Primary investments

Primary investments refer to investments in private equity funds that invest directly in operating companies. The Advisor's due diligence process for primary investments focuses on a wide variety of criteria and emphasizes the elements of risk and financial analysis that distinguish private equity from the more conventional asset classes. The due diligence process consists of (i) multiple screenings of the fund managers, (ii) questionnaires and various methods of financial analysis, (iii) meetings with the fund managers, (iv) visits to the fund managers' offices, and (v) preparation of a final investment report. Areas examined during the due diligence process include the fund's investment strategy, compensation structure, track record and conflicts and reference checks. Investment opportunities are either declined or approved by the Advisor's Investment Committee at multiple times throughout the process.

The Advisor seeks to prudently diversify primary investments for accounts and funds by investment sub-strategy, which may include buyout, venture capital and special situation (specialty, multi-stage, mezzanine or distressed debt) funds, geography (U.S., Europe and Asia) and vintage year, subject to applicable investment guidelines.

Secondary investments

Secondary investments refer to investments in private equity funds that are purchased from existing investors in the funds. Secondary investments may also include investments in companies directly. Secondary investments are examined utilizing a proprietary financial model designed specifically for evaluating private equity funds and portfolio companies in secondary transactions. The Advisor performs a "bottom-up" analysis of each potential secondary investment. The bottom-up analysis evaluates current values and projects future values for portfolio companies within a fund. These values are generated using several methodologies, including comparable public company values, discounted cash flow analysis and historical merger and acquisition statistics. This review includes historical returns, average holding periods, investment style and risk profile. These two separate analyses are considered collectively when determining an offering price for a secondary investment portfolio. All secondary transactions are approved by the Advisor's Secondary Investment Committee.

The Advisor seeks to maximize return on capital multiples and internal rate of return by pursuing diversified secondary investments. These investments include transactions involving a single fund/company or a portfolio of funds/companies. Target investments may be fully funded or have a significant amount of capital remaining to be drawn. The Advisor generally will engage in transactions directly with counterparties but also may participate in transactions with other secondary funds.

Co-investments

Co-investments refer to investments in operating companies together with one or more other private equity funds managed by other sponsors. The Advisor seeks to achieve substantial capital appreciation through co-investments in operating and financial companies in leveraged buyouts, recapitalizations and growth equity financings. The Advisor also seeks to diversify co-investments by investing over a multi-year period and in different geographical regions.

Due diligence on co-investment opportunities begins with a review of the information regarding the investment opportunity provided by the lead sponsor and may include some or all of the following: (i) meeting and interviewing management or company personnel, (ii) meetings and discussions with the lead sponsor and review of materials the lead sponsor has developed to evaluate the investment and (iii) engagement of legal, tax and accounting advisors when appropriate. The Advisor also conducts industry and competitive analysis and a risk analysis on the investment opportunities. Opportunities that pass the initial diligence process undergo a financial and valuation review using both the lead sponsor's and the Advisor's financial models. A detailed view of the company's financial structure and investment return projections are normally assembled at this stage as well. Throughout the due diligence process, the Advisor's co-investment team provides regular updates to the Investment Committee on the progress of the analysis. Once the analysis is completed, the investment team compiles a final report summarizing the results of the due diligence and financial analysis and presents the opportunity to the Investment Committee for a final decision.

After the Investment Committee approves a co-investment and the transaction closes, the co-investment team monitors the ongoing performance of the investee company. The monitoring function is conducted by a Hamilton Lane investment professional holding a seat on the company's board of directors, exercising board observation rights or regularly conferring with the lead private equity sponsor of the company. Additionally, the Advisor receives financial results for the investee company on a regular basis.

Cobalt LP

Cobalt LP offers users the ability to assess portfolio performance, perform fund due diligence and benchmark analysis, and run cash flow projections using a cash flow forecasting tool (the "Horizon Model"). The Horizon Model analyzes a client's portfolio and utilizes an algorithmic approach to assist in forecasting future cash flows and estimating changes in portfolio value over time. The Horizon Model helps users create an annual commitment pacing plan that is designed to help achieve and maintain their desired private equity exposure in their overall portfolios. The Horizon Model also enables clients to help manage liquidity risk and determine expected growth and cash flow rates using flexible sensitivity analysis.

DM Services

Distribution management refers to the process of evaluating and eventually liquidating public equities received by limited partners when a private equity fund chooses to distribute publicly traded stock to the limited partners instead of cash. The Advisor provides distribution management services to clients for an additional fee. The Advisor offers two strategies, Managed Liquidation and Active Management.

For both strategies, the Co-Heads of the DM Services team and their staff ("DM Staff") use their close ties to the private equity community to research companies that they believe have a high probability of being distributed to limited partners. The DM Staff use both a bottom-up and top-down approach when conducting their research on publicly traded companies. They review management teams, strategy and operating models, cash positions, company-specific

milestones, lock-up expiration dates, market opportunities and public earnings releases. Based upon their research, the DM Staff form near and long-term opinions with price targets for these companies.

After conducting this research and forming their company-specific opinions, the DM Staff seek to find liquidity opportunities as they deem appropriate without adversely affecting the equity price in a highly competitive selling environment.

Investment Risks

Private Equity Services

Reliance on Underlying Fund Sponsors.

The Advisor invests on behalf of clients primarily in private equity funds and companies sponsored and managed by third parties. The Advisor does not have an active role in the management of the assets of the underlying funds or companies, including the valuation by the underlying funds of their investments. The Advisor's ability to withdraw from or transfer interests in such funds and companies is limited. Further, the performance of each investment made by the Advisor depends significantly on decisions made by third parties, which could adversely affect the returns achieved by the Advisor.

Identification and Availability of Investment Opportunities.

The success of the funds and separate accounts managed by the Advisor depends on the identification and availability of suitable investment opportunities. The availability of investment opportunities will be subject to market conditions and other factors outside the control of the Advisor. Past returns of funds and separate accounts managed by the Advisor have benefited from investment opportunities and general market conditions that may not recur, including favorable borrowing conditions in the debt markets, and there can be no assurance that underlying funds will be able to avail themselves of comparable opportunities and conditions. There can be no assurance that the underlying funds will be able to identify sufficient attractive investment opportunities to meet their investment objectives. An investment in private equity should only be considered by persons who can afford a loss of their entire investment. Past performance of investments associated with the Advisor is not necessarily indicative of future results and there can be no assurance that each fund or separate account managed by the Advisor will attain performance that is comparable to investment performance achieved by the Advisor for its other clients included in the performance record.

Illiquid Investments.

The underlying funds and co-investments selected by the Advisor are highly illiquid, long-term investments. Clients should not expect to be able to transfer their interests in, or to withdraw from, the underlying funds or funds managed by the Advisor. In addition, the investments of the underlying funds generally will be investments for which no liquid market exists or will be subject to legal or other restrictions on transfer. Underlying funds may face reduced opportunities to exit and realize value from their investments in the event of a general market downturn or a specific market dislocation. As a consequence, an underlying fund may not be able to sell its investments when it desires to do so or to realize what it perceives to be their fair value in the event of a sale. Furthermore, under certain circumstances, distributions may be made by the underlying funds to limited partners in kind and could consist of securities for which there is no readily available market.

Leverage.

Underlying funds may employ significant leverage in connection with certain investments. Leverage generally magnifies a fund's opportunities for gain and its risk of loss from its investment activities. In addition, the portfolio companies of the underlying funds are typically leveraged, which will cause them to be adversely affected by increases in interest rates and may make them less able to cope with changes in business and economic conditions. Certain funds managed by the Adviser may also employ leverage on a temporary basis in order to fund capital calls from its underlying investments. The use of leverage will result in interest expense and other costs that may not be covered by distributions made to the funds utilizing leverage and may result in unrelated business taxable income.

Risks Associated with Portfolio Companies of Underlying Funds.

The portfolio companies in which the underlying funds have invested or may invest may involve a high degree of business and financial risk. These companies may be in an early stage of development, may not have a proven operating history, may be operating at a loss or have significant variations in operating results, may be engaged in a rapidly changing business with products subject to a substantial risk of obsolescence, may require substantial additional capital to support their operations, to finance expansion or to maintain their competitive position, may have a high level of leverage, or may otherwise have a weak financial condition. In addition, these portfolio companies may face intense competition, including competition from companies with greater financial resources, more extensive development, manufacturing, marketing, and other capabilities, and a larger number of qualified managerial and technical personnel. Portfolio companies in non-U.S. jurisdictions may be subject to additional risks, including changes in currency exchange rates, exchange control regulations, risks associated with different types (and lower quality) of available information, expropriation or confiscatory taxation and adverse political developments. In addition, during periods of difficult market conditions or slowdowns in a particular investment category, industry or region, portfolio companies may experience decreased revenues, financial losses, difficulty in obtaining access to financing and increased costs. During these periods, these companies may also have difficulty in expanding their businesses and operations and may be unable to pay their expenses as they become due. A general market downturn or a specific market dislocation may result in lower investment returns for the underlying funds in which a client invests, which would adversely affect investment returns.

Non-U.S Investments.

Depending upon the investment strategy of a particular fund or separate account, the Adviser may make investments outside of the United States, including in emerging markets. Generally, investments in non-U.S. markets may have risks associated with political and regulatory changes, changing economic conditions, legal and tax regulations, foreign currency and exchange markets, changes in or differing accounting standards, lack of liquidity or volume in emerging markets, reliance on local intermediaries and restrictions on the repatriation of capital and profits.

Limited Availability of Information.

Due to confidentiality concerns, certain underlying funds may not permit the Adviser to fully disclose information regarding the underlying fund's investment strategies, investments, risks or prior performance. In addition, certain underlying funds may provide limited information regarding their investment strategies or investments. Accordingly, in certain circumstances, limited partners may not have sufficient information to evaluate to their full satisfaction the risks of investing in a fund offered by the Adviser, and the manner in which the capital they have contributed to the fund has been invested.

Valuation.

In light of the illiquid nature of the portfolio companies, and of the interests in the underlying funds and co-investments, any valuation made by the Advisor of any of the underlying funds or co-investments will be based on the Advisor's good faith determination as to the fair value of those interests. In general, the Advisor intends to rely on valuations of portfolio companies of the underlying funds sponsors as determined and reported by the managers of the underlying funds or sponsors, as the case may be, unless the Advisor believes such valuations are not accurate. There can be no assurance that the values assigned in good faith by the Advisor will equal or approximate the price at which they may be sold or otherwise liquidated or disposed of from time to time.

Competition for Access to Investment Funds and Other Investments.

The Advisor seeks to maintain excellent relationships with the general partners and managers of investment funds in which they have previously made investments and the sponsors of investments that might provide the opportunity for co-investments. However, because of the number of investors seeking to gain access to underlying funds and co-investment opportunities managed or sponsored by the top performing managers, there can be no assurance that the Advisor will be able to secure the opportunity to invest on behalf of its clients in all of the investments it selects, or that the size of the investments available to the Advisor and its clients will be as large as it would desire. Access to opportunities to make secondary investments is also highly competitive, and is often controlled by a limited number of general partners and intermediaries.

Cobalt LP

Data Accuracy.

Cobalt LP is comprised of data received from the Advisor, Freedom of Information Act ("FOIA") requests and other third party sources that the Advisor believes to be reliable, but the accuracy of such information cannot be guaranteed. Clients may access the historical data within Cobalt LP to perform various functions such as portfolio analysis, fund due diligence and peer benchmarking. The historical data within the system is not intended to favor one investment strategy over another and should be used for analysis purposes only.

Horizon Model.

Clients may also run cash flow projections using Cobalt LP's Horizon Model. The Horizon Model generates forward-looking portfolio returns and cash flow data. The Horizon Model's output may differ materially from the actual results achieved. The assumptions used in the Horizon Model are derived from historical private equity investment returns and are designed to demonstrate potential behaviors of private equity investments over time. The expected behavior of an investment will vary based on its style, focus, maturity, current asset value and funded status. The Horizon Model also has the ability to simulate various market conditions by applying a scenario within the algorithm when generating forward-looking portfolio returns and cash flow data. The scenarios are intended to show the potential influence that economic cycles may have on the cash flow characteristics of investments. The Horizon Model is not intended to predict future performance and should not be used as the basis for an investment decision. The Horizon Model does not provide security-specific (i.e., individual private equity fund) information.

DM Services

Equity Securities.

Accounts managed by the Advisor's DM Services business may hold positions in common stocks of U.S. and foreign issuers. Equity securities fluctuate in value, often based on factors unrelated

to the value of the issuer of the securities, and such fluctuations can be pronounced. The prices of the securities of smaller companies may be subject to more abrupt or erratic market movements than larger, more established companies because these securities typically are traded in lower volume and the issuers typically are more subject to changes in earnings and prospects.

New or Recently Issued Public Equities.

Some companies whose equity interests are in accounts managed by the DM Staff will sometimes involve a high degree of business and financial risk. These companies may be in an early stage of development, may not have a proven operating history, may be operating at a loss or have significant variations in operating results, may be engaged in a rapidly changing business with products subject to a substantial risk of obsolescence, may require substantial additional capital to support their operations, to finance expansion or to maintain their competitive position, may have a high level of leverage, or may otherwise have a weak financial condition. In addition, these companies may face intense competition, including competition from companies with greater financial resources, more extensive development, manufacturing, marketing, and other capabilities, and a larger number of qualified managerial and technical personnel. Companies in non-U.S. jurisdictions may be subject to additional risks, including changes in currency exchange rates, exchange control regulations, risks associated with different types (and lower quality) of available information, expropriation or confiscatory taxation and adverse political developments. In addition, during periods of difficult market conditions or slowdowns in a particular investment category, industry or region, companies may experience decreased revenues, financial losses, difficulty in obtaining access to financing and increased costs. During these periods, these companies may also have difficulty in expanding their businesses and operations and may be unable to pay their expenses as they become due.

Potential Loss of Investment.

No guarantee or representation is made that the DM Staff's investment approach will be successful. In particular, the past results of the DM Staff are not necessarily indicative of future performance. As is true of any investment, there is a risk that an investment managed by the DM Staff will be lost in part or in its entirety. The DM Services business is not intended as a complete investment program and is intended solely to provide assistance to clients who are either not familiar with or lack internal staff to manage the process of liquidating new or illiquid public equity securities.

Certain Potential Conflicts of Interest

Allocation of Investment Opportunities.

Private Equity Services

Investment opportunities may be appropriate for multiple clients of the Advisor. The Advisor's Allocation Committee allocates investment opportunities among its clients in accordance with the Advisor's investment allocation policy and procedures. The Advisor's overall policy with respect to investment opportunities is to treat all clients in a fair and reasonable manner and in accordance with contractual obligations and fiduciary duties. Subject to the terms of the offering and governing documents of the Advisor's funds and accounts, no client, whether advisory, separate account, single client fund-of-funds or commingled fund, is favored over any other client for any reason, including but not limited to the fee structure or amount of fees payable to the Advisor by the client. The investment allocation policy and procedures with respect to fund investments require the Allocation Committee to consider a variety of factors in making allocation determinations, including (i) the amount of total allocation requested by the Advisor for all of its

clients and the commitment available from each client, (ii) restrictions imposed by the manager of the underlying fund, (iii) the investment guidelines applicable to each client, as well as the strategic plans and current portfolios of the clients, (iv) investment opportunities expected to be available to the Advisor in the market during the next six to twelve months, (v) the current market environment, (vi) the clients' risk/return profile, and (vii) such other factors as the Allocation Committee believes are relevant. In considering these factors, the Allocation Committee will make subjective judgments and may not necessarily allocate investment opportunities among all of the Advisor's clients on a pro rata basis. If the aggregate investment opportunity allocated to the Advisor is less than that amount requested by the Advisor for its clients, reductions in allocations are applied pro rata as nearly as practicable. The Advisor is engaged from time to time by state public pension plans and state government related organizations to organize and manage investment programs focused on economic development within a particular state. Accordingly, investment opportunities that meet the requirements of an in-state program will be allocated first to the in-state program and then, to the extent the Allocation Committee deems appropriate, to other clients. Similarly, investment funds that have a particular country or regional focus will have first priority for investment opportunities in the applicable country or region. With respect to secondary investments and co-investments, the allocation policies for the Advisor's main co-investment and secondary funds provide that investment opportunities sourced by the Advisor that fit the fund's investment strategy must be offered first to the fund before other clients of the Advisor and in other cases permit investment opportunities to be shared with other funds and clients of the Advisor.

In the course of evaluating, negotiating and closing certain transactions, generally secondary and co-investment transactions, the Advisor occasionally will retain outside legal counsel or other third parties for various aspects of the potential opportunity. Upon completion of the transaction, the commingled funds and, to the extent permitted by the applicable investment management agreements and fund LPAs, other clients participating in the transaction will bear these expenses pro rata or reimburse the Advisor for expenses paid by the Advisor during the transaction. Expenses incurred in connection with transactions that are not consummated generally will be paid by the commingled fund(s) that was/were expected to be the lead investor(s).

DM Services

Occasions may arise when the Advisor determines that the sale of a particular security is a proper investment decision for more than one client. When this occurs, share prices are averaged and shares are allocated equitably according to each client's pro-rata participation in the transaction. Shares are never allocated on the basis of the fees charged to each individual client. On occasions when the Advisor decides that the sale of a security is in the best interests of a number of clients, including those with different strategies or fees, the Advisor may aggregate the sale among multiple accounts with the goal of obtaining more efficient executions and lower brokerage commissions. When this occurs, each account will receive the average execution price as well as its pro-rata share of the total sales proceeds.

Investments by the Advisor's Clients

The Advisor may have multiple clients invested in any given underlying fund or portfolio company. In addition, the Advisor's clients may have investments, either directly or indirectly, in an underlying portfolio company in which a different client has an investment through a different class of security. As a result, conflicts may arise between the interests of the Advisor's clients. For example, if such portfolio company goes into bankruptcy, becomes insolvent or is otherwise unable to meet its payment obligations or comply with its debt covenants, conflicts of interest could arise between holders of different types of securities as to what actions the portfolio company should take.

Item 11. Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

The Advisor's Code of Ethics (the "Code") sets forth fundamental principles that govern how the Advisor conducts business. The Code requires all directors and employees ("covered persons") to conduct themselves in a lawful, honest and ethical manner in all of the Advisor's business practices. The Code requires all covered persons to comply with the following principles:

- Comply with all applicable laws, rules and regulations of the U.S. and each other country and jurisdiction in which the Advisor conducts business, including federal securities laws, which prohibit fraudulent, deceitful, misleading and manipulative practices with respect to clients, as well as laws regulating political and charitable contributions.
- Avoid conflicts of interest such as using company assets only for company business and not for personal gain, allocating investment opportunities in a manner that is fair and does not favor or disfavor any client, avoiding outside financial interests, employment and other activities that could interfere with the Advisor's business, and not using their position with the Advisor to take advantage of business opportunities that properly belong to the Advisor.
- Refrain from accepting gifts or entertainment conditioned upon the Advisor doing business with any person or entity or that exceed prescribed limits, and refrain from soliciting gifts or benefits of any value.
- Refrain from making contributions to candidates for, or holders of, state or local elected offices in the U.S. or related political committees, or to candidates for, or holders of, any elected position in a foreign country or related political committees, without prior approval from the Compliance Department.
- Maintain the confidentiality of all non-public client information.
- Maintain accurate financial books and records.
- Ensure that reports provided to regulatory authorities and clients are complete, fair, accurate, timely and understandable.
- Report promptly to the Compliance Department any violations of the Code.

In addition, the Advisor requires its personnel to pre-clear certain transactions in reportable securities in their personal accounts with the Compliance Department, who may deny permission to execute the transaction at their discretion. Personnel are also required to disclose their securities holdings and business activities annually and to provide a quarterly certification of such transactions. Trading in employee accounts is reviewed quarterly by the Compliance Department to determine whether there has been any unusual trading activity in the accounts.

Clients or prospective clients may obtain a copy of the Code by contacting Frederick Shaw, Director of Compliance, by email at fshaw@hamiltonlane.com, or by telephone at 610-617-5724.

The Advisor manages funds-of-funds, secondary funds and co-investment funds, which are organized as limited partnerships of which a subsidiary of the Advisor serves as the general partner. Due to the ownership interests of the general partners in these funds-of-funds, secondary funds and co-investment funds, the Advisor has an indirect financial interest in the investments held by the funds-of-funds, secondary funds and co-investment funds. These indirect financial interests are disclosed to all prospective investors in the offering documents and partnership agreements relating to the applicable funds. In addition, the Allocation Committee evaluates all investments made by such funds in accordance with its standard policies and procedures.

Item 12. Brokerage Practices

Factors Considered in Selecting or Recommending Broker-Dealers for Client Transactions.

The Advisor has a duty to seek best execution for its client's securities transactions. Best execution does not necessarily mean best price available. When the Advisor seeks best execution, it carefully considers the facts and circumstances involved, including, but not limited to, market liquidity, order size, the trading characteristics of the security involved, the broker-dealer's familiarity with the security, the difficulty of executing the trade, the ability of the broker-dealer to provide efficient execution at a favorable price, the fact that there may be a limited number of broker-dealers who can execute certain trades and the Advisor's past experience with the broker-dealer for prompt, competent, and reliable service in all aspects of order processing, execution, and settlement. When the Advisor negotiates commission levels and assesses best execution, the Advisor must determine in good faith that the total cost (price plus commissions) is reasonable in relation to the value of the execution. When the Advisor places orders for the sale of securities, it uses its best judgment to select the broker-dealer for each specific transaction which it believes is most capable of providing the brokerage services necessary.

On occasion, transactions in post-venture distributions of restricted stock may result in delayed settlement, generally ranging from four to six weeks. As a result, many of these trades are conducted on a delivery vs. payment basis, or may require the executing broker to extend the delivery date. While the delay does not affect the execution price, clients will not receive the proceeds from the sale until settlement is achieved.

Research and Other Soft Dollar Benefits

The Advisor does not utilize soft dollars in any way in connection with its business.

Brokerage for Client Referrals

The Advisor does not direct brokerage business to third parties in exchange for client referrals.

Directed Brokerage

Under certain circumstances, the Advisor may permit clients to direct the Advisor to execute the client's trades with a specified broker-dealer. When a client directs the Advisor to use a specified broker-dealer to execute all or a portion of the client's securities transactions, the Advisor treats the client direction as a decision by the client to retain, to the extent of the direction, the discretion the Advisor would otherwise have in selecting broker-dealers to effect transactions and in negotiating commissions for the client's account. Although the Advisor attempts to effect such transactions in a manner consistent with its policy of seeking best execution, there may be occasions where it is unable to do so, in which case the Advisor will continue to comply with the client's instructions. Transactions in the same security for accounts that have directed the use of the same broker will be aggregated. When the directed broker-dealer is unable to execute a trade, the Advisor will select broker-dealers other than the directed broker-dealer to effect client securities transactions.

A client who directs the Advisor to direct brokerage to a particular broker-dealer to effect transactions should consider whether such a designation may result in certain costs or disadvantages to the client. Such costs may include higher brokerage commissions (because the Advisor may not be able to aggregate orders to reduce transaction costs) and potentially less favorable execution of transactions. The commissions charged to clients that direct the Advisor to execute the client's trades through a specified broker-dealer may in some transactions be materially different than those of clients who do not direct the execution of their trades. Clients that direct the Advisor to execute the client's trades through a specified broker-dealer may also

lose the ability to negotiate volume commission discounts on batched transactions that may otherwise be available to other clients of the Advisor.

Due to the unique nature of the Advisor's DM Services, the Advisor discourages the use of directed brokerage arrangements.

Order Aggregation

The Advisor may sell the same security for many accounts. It is the Advisor's practice, where possible, to aggregate for execution as a single transaction orders for the sale of a security for the accounts of several clients having the same brokerage firm or custodian. The Advisor will also aggregate in the same transaction, the same securities for accounts where the Advisor has brokerage discretion. Such aggregation may enable the Advisor to obtain a more favorable price or a better commission rate based upon the volume of a particular transaction. However, in cases where the client directs the Advisor to utilize the services of a certain broker, the Advisor will not be able to obtain more favorable commission rates based on an aggregated trade. In such cases, the client will be precluded from receiving the benefit of any possible commission discounts that might otherwise be available as a result of the aggregated trade. In cases where trading or investment restrictions are placed on a client's account, the Advisor may be precluded from aggregating that client's transaction with others. In such a case, the client may pay a higher commission rate or receive less favorable prices than clients who are able to participate in an aggregated order. For orders where the entire quantity of client securities are not sold on a given day, the daily amount liquidated will be distributed pro-rata across all client accounts selling that security.

Item 13. Review of Accounts

The Advisor's investment services concerning accounts include the development of the client's strategic plan, as well as reporting and monitoring services. The strategic plan is developed by the relationship management team in conjunction with the client and sets forth the client's target allocations for various types of private equity investments, as well as the geographic dispersion of the account. Strategic plans are reviewed with the client on an ongoing basis, and are revised from time to time to reflect the client's changing needs.

There are currently 37 reviewers with monitoring responsibilities in the client service department. The reviewers consist of 23 analysts, 7 associates, 4 senior associates, one vice president and two principals who are responsible for 188 accounts. Their functions include organizing and reconciling partnership and portfolio company information for each account. The analysts regularly receive instructions regarding the review of the accounts and the preparation of customized reports for the clients. Investment monitoring services also generally include regular communications with fund managers and attendance at annual meetings and advisory board meetings. These services generally are provided by members of the fund investment team and the transaction team, which consists of 34 and 20 persons, respectively.

The Advisor generally provides written quarterly, semi-annual and annual reports to clients. The level of detail in the reports varies according to client specifications. The Advisor also provides updates on special situations requiring client action or attention, such as certain amendments to partnership agreements. Information contained within these reports is obtained from periodic reports and financial statements of the underlying investments. The Advisor's reports include quantitative and qualitative analysis of individual investments and the portfolio as a whole. All transactions affecting client investments, including capital calls, distributions of cash or securities, and changes to portfolio valuations, are recorded promptly in an investment transaction database by the investment monitoring staff. This data is reconciled monthly with information provided by clients' custodian banks and quarterly with financial information provided by fund managers prior to being incorporated into client reports. All accounting and performance information is reviewed by supervisory personnel who have responsibility for overseeing investment monitoring and client reporting functions, prior to distribution of reports to clients.

The Advisor also may provide monthly reports detailing cash flow activity in the accounts. In addition to day-to-day portfolio operations and activities, the Advisor provides a client reporting technology provided by iLEVEL Solutions LLC ("iLEVEL"). iLEVEL maintains and develops a portfolio management technology for the private markets industry. Item 14. Client Referrals and Other Compensation

Economic Benefits Received from Non-Clients for Providing Services to Clients

Not applicable

Compensation to Non-Supervised Persons for Client Referrals

A wholly-owned subsidiary of the Advisor, Hamilton Lane Securities LLC ("HLS"), operates as a limited-purpose broker/dealer and is engaged in the marketing of private investment funds managed by the Advisor to US-based investors and certain other private placement activities. HLS is compensated via a flat monthly fee by the Advisor for its fund marketing efforts.

From time to time the Advisor engages placement agents to assist in marketing the Advisor's funds and services, primarily in foreign countries in which the Advisor does not have business development personnel. The Advisor has policies and procedures that apply to the engagement of placement agents. These include entering into a written agreement with each placement agent setting forth services to be provided, fees, various representations and warranties, and other terms and conditions as the Advisor believes are necessary or appropriate.

The Advisor has entered into agreements with a small number of large U.S.-based broker/dealers to distribute interests in certain of the Advisor's commingled fund products to qualified investors. The broker/dealers may be compensated for their marketing efforts by receiving a percentage of the management fee charged by the fund that they are distributing. The broker/dealers may also, independent of the Advisor, charge qualified investors a placement fee. Any compensation paid to a broker/dealer for soliciting investors to invest in any of the Advisor's commingled products, whether paid by the Advisor or charged independently by the broker/dealer, is disclosed in the offering document for such fund.

Item 15. Custody

The Advisor is deemed to have indirect custody of client assets held in certain managed accounts and funds that it manages. The Advisor seeks to utilize exemptions from various reporting requirements of the SEC's Custody Rule (Rule 206(4)-2) by delivering annual audited financial statements for any fund for which the Advisor is deemed to have custody within either 120 days after the fund's fiscal year-end or 180 days of the fund's fiscal year-end if the fund is a fund-of-funds.

For funds that do not have their annual audit completed within the 120 or 180-day window or for certain other managed accounts (collectively "Subject Accounts"), the bank, broker-dealer or other qualified custodian of the client's assets will send statements directly to the client on a quarterly basis. Clients are urged to review those statements carefully. The Advisor also sends periodic statements to Subject Account investors. Clients are urged to compare statements from the qualified custodian with their statements from the Advisor. In addition, the Advisor has retained an independent auditor to conduct an annual surprise audit of the assets held by the Subject Accounts.

For DM Services accounts, clients choose their own custodians.

**Item 16. Investment Discretion**

The Advisor provides investment advisory services on a discretionary basis to clients. Please see Item 4 for a description of any limitations clients may place on the Advisor's discretionary authority.

Prior to assuming full or limited discretion in managing a client's assets, the Advisor enters into an investment management agreement or other agreement that sets forth the scope of the Advisor's discretion and the fees charged.

Item 17. Voting Client Securities

Policies and Procedures Relating to Authority to Vote Client Securities

Private Equity Services

The Advisor's voting policies and procedures are designed to ensure that all client securities are voted in the best interests of the client. "Best interests" means the best economic interests of the shareholders or partners of the client or, in the case of an employee pension plan, the beneficiaries of the plan. The Chief Investment Officer and the relationship managers together have the primary responsibility for voting securities over which the Advisor has discretionary authority. They are assisted in the process by attorneys in the Legal and Investment Departments. Certain issues may be referred to the Investment Committee for consideration.

In exercising its voting authority (including a decision to abstain), the Advisor will take into account such factors as the Investment Committee, the Chief Investment Officer and the relationship managers deem relevant to the client's economic interests, including, but not limited to, the investment guidelines of the applicable client or managed fund, the current state of the client's or fund's portfolio, current market terms and conditions (i.e., whether or not a requested action is consistent with the then prevailing terms or practice for similar funds or companies), and the performance of the fund managers or company management. Since there are many factors that influence voting decisions and since there are many different types of issues for which fund managers request amendments to, or consents under, partnership agreements, the Advisor has not established a list of "typical" issues that it will vote for or against.

In the event that a conflict of interest arises in connection with the voting of client securities, the relationship manager will promptly inform the client of the conflict and all relevant information relating to the matter for which a vote is required. The Advisor will then vote only in accordance with the client's instructions. If the Company does not receive instructions from the client, or if it is impractical to obtain such instructions, the Company will exercise its voting authority in the best interests of the client as determined by the Advisor.

DM Services

The Advisor has retained RiskMetrics/Institutional Shareholder Services ("ISS"), a proxy voting and consulting firm, to serve as the Advisor's voting agent with respect to publicly traded securities and to receive proxy voting statements, provide information and research, make proxy voting recommendations, and handle various administrative functions associated with the voting of client proxies for clients utilizing the Advisor's DM Services. The proxy voting guidelines for U.S. proxies are set forth in the ISS Proxy Voting Guidelines Summary and the ISS Concise Proxy Voting Guidelines. These summaries are a condensed version of all proxy voting recommendations contained in the ISS Proxy Voting Manual. While ISS makes the proxy voting recommendations, the Advisor retains the ultimate authority on how to vote. It is anticipated that the Advisor will be in agreement with ISS recommendations and no other action will be required.

Clients may obtain a copy of the Advisor's proxy voting policies and procedures as well as a record of how the Advisor voted their proxies by sending a written request to:
